

## Future plans

We are currently working to provide and disseminate more detailed impairment specific training which practices can use in-house probably being CD-rom or web-based. We are also working at lobbying government on disability issues, and hope that the group can act as a forum in the future to support improvements for disabled patients in Wales.

## How you can become involved

If you would like Equip Cymru to carry out a training session at your practice or would simply like more information about this initiative, please contact RCGP Wales direct:
