1. Surveillance of Respiratory Infections by Region for 2024-25:

The line graphs present trends in respiratory and other communicable diseases over time for different regions, and nationally for comparison (labelled using the dashed line). The monitored condition is reported in the title of each graph. The report starts from the week commencing on Monday the 6th of May 2024 (ISO week number 19), to the week commencing on Monday the 28th of May 2025 (ISO week number 18). Primary care data from general practices in the RCGP RSC respiratory surveillance network were included.

Acute Respiratory Infections (ARI): national incidence by region by week

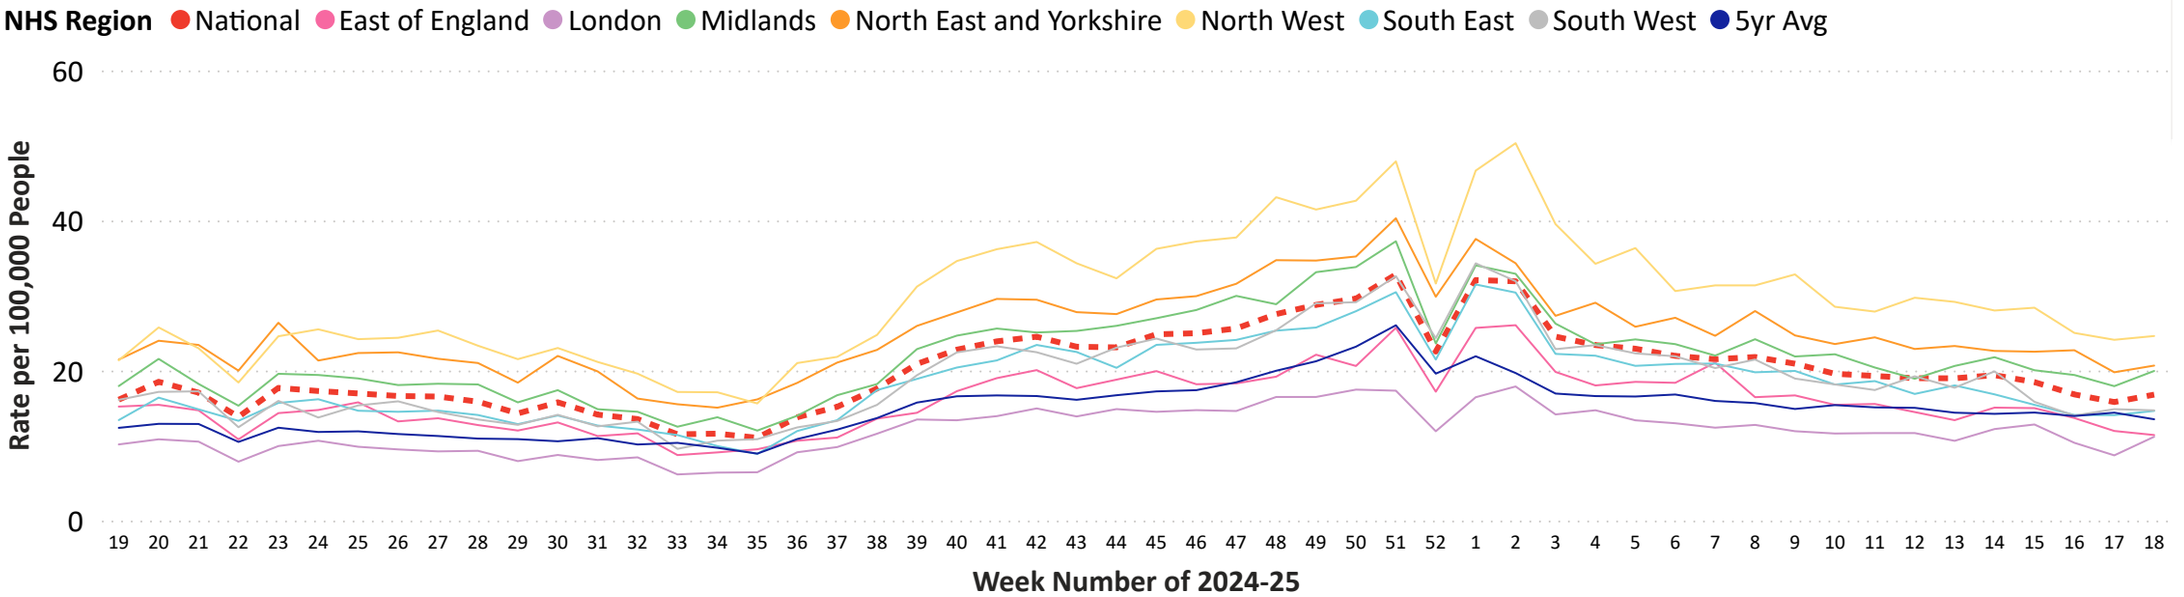

Influenza-like illness (ILI): national incidence by region by week

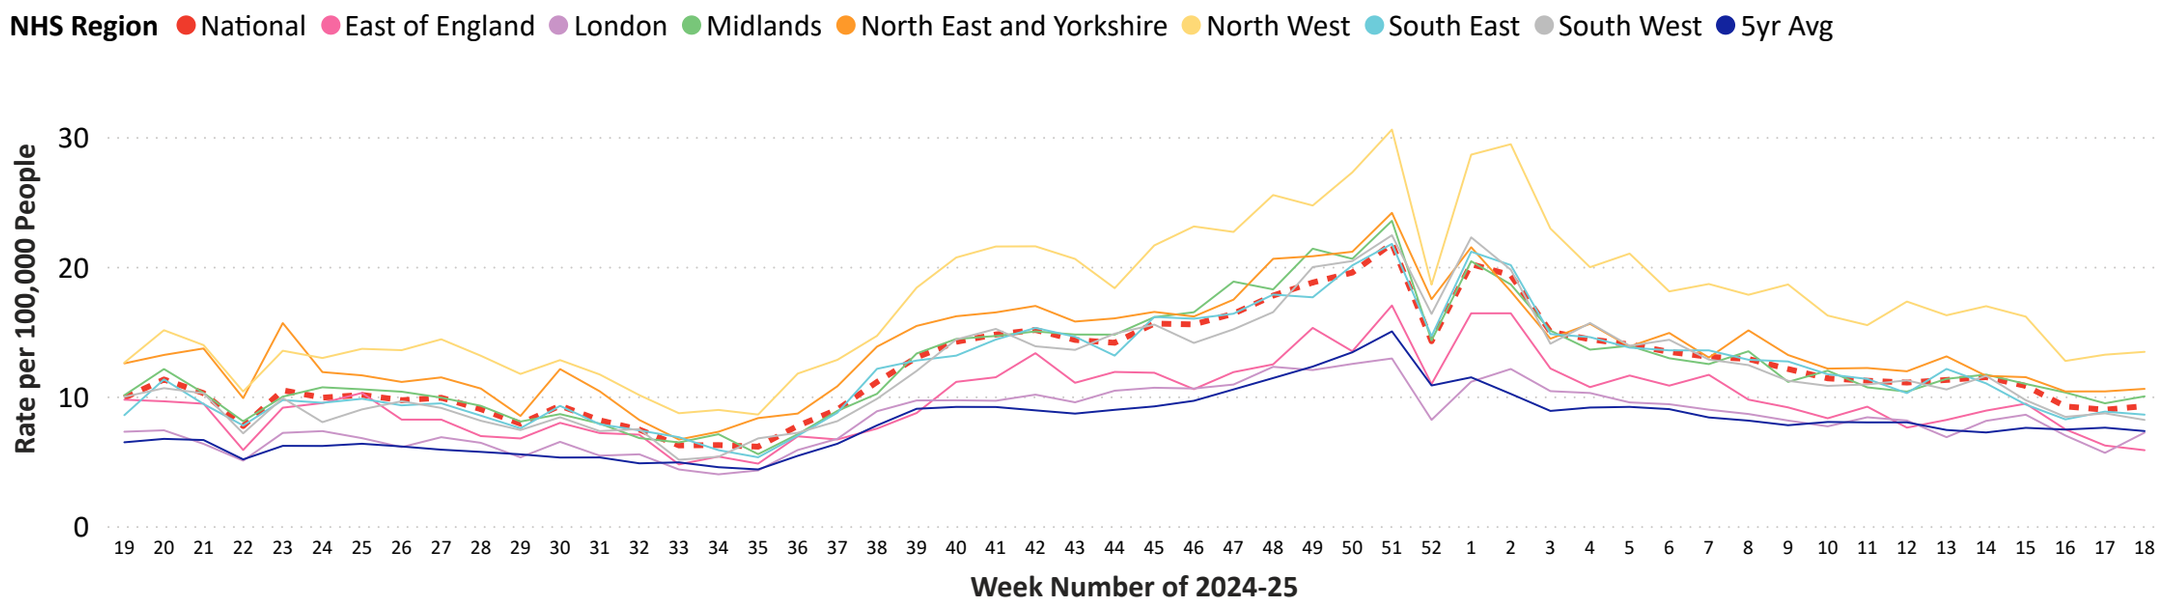

1. Surveillance of Respiratory Infections by Region for 2024-25:

Exacerbations of chronic lung disease (ECLD): national incidence by region by week

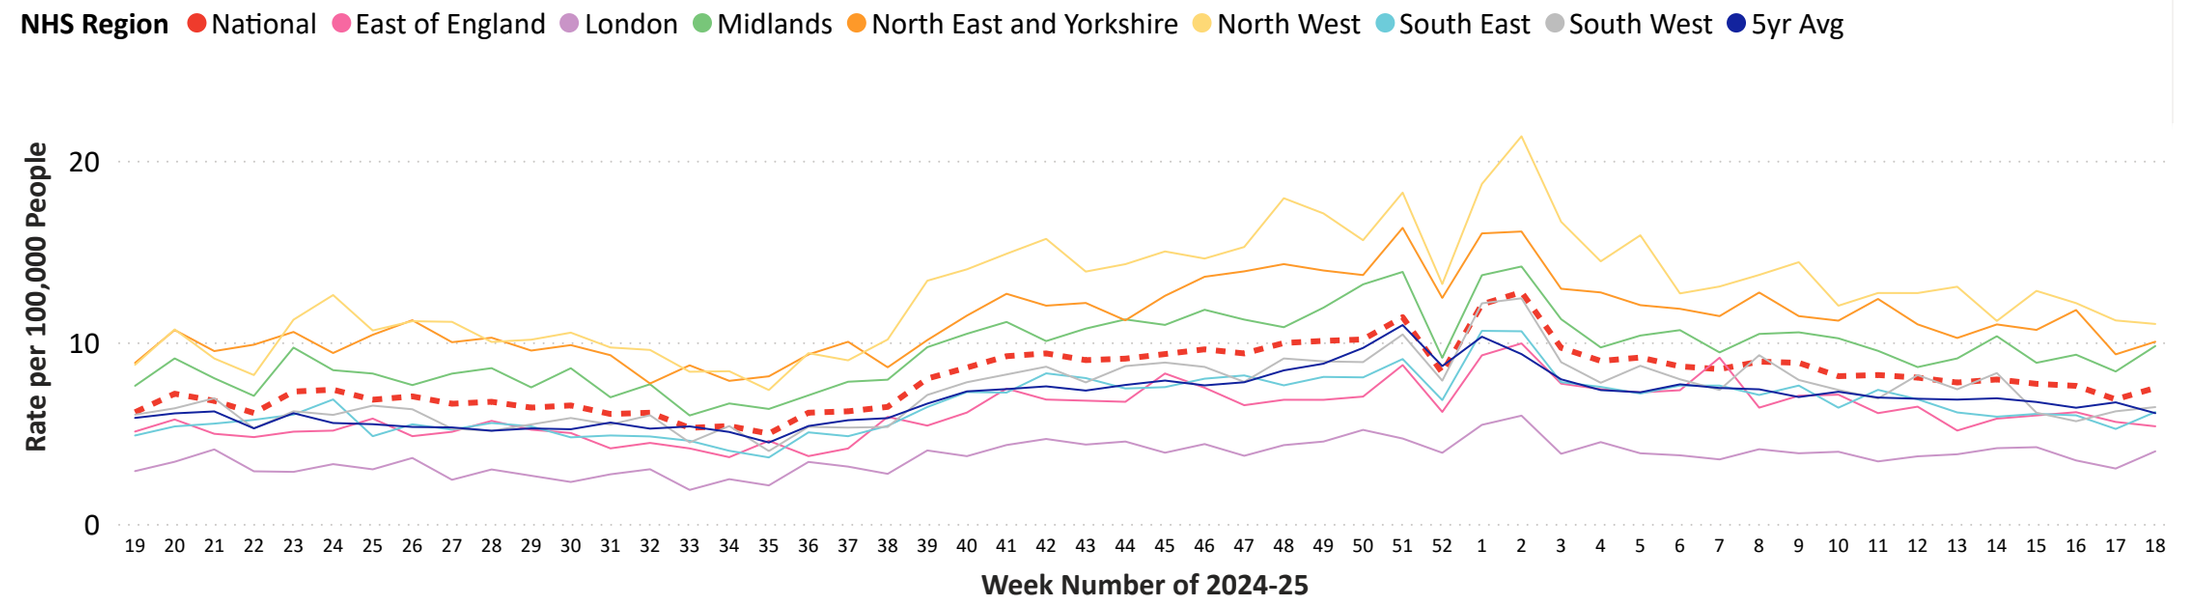

ECLD - Asthma Exacerbations: national incidence by region by week

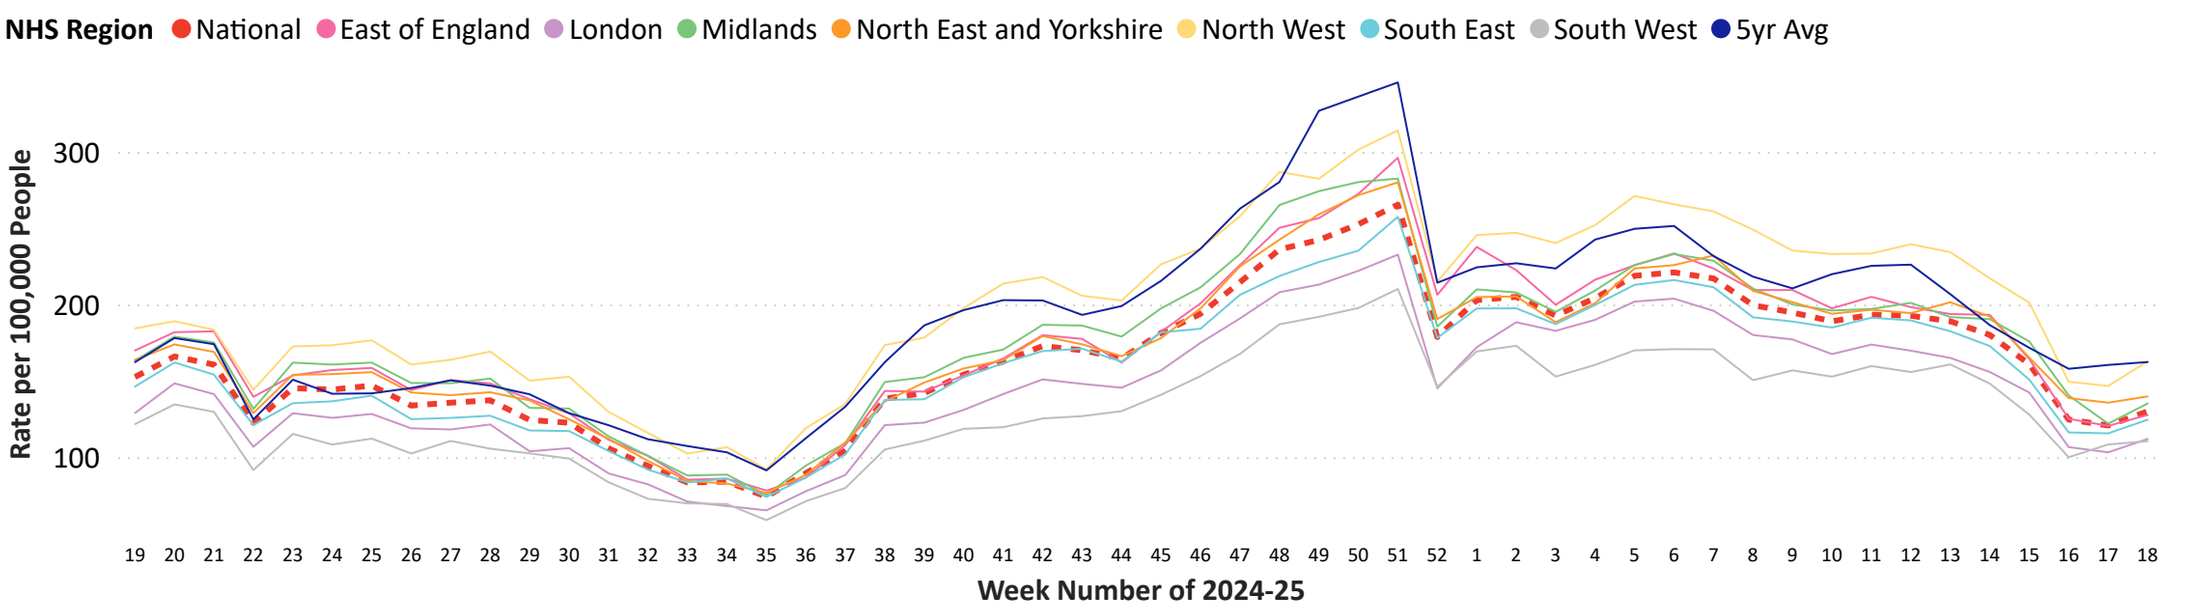

1. Surveillance of Respiratory Infections by Region for 2024-25:

ECLD - COPD Exacerbations: national incidence by region by week

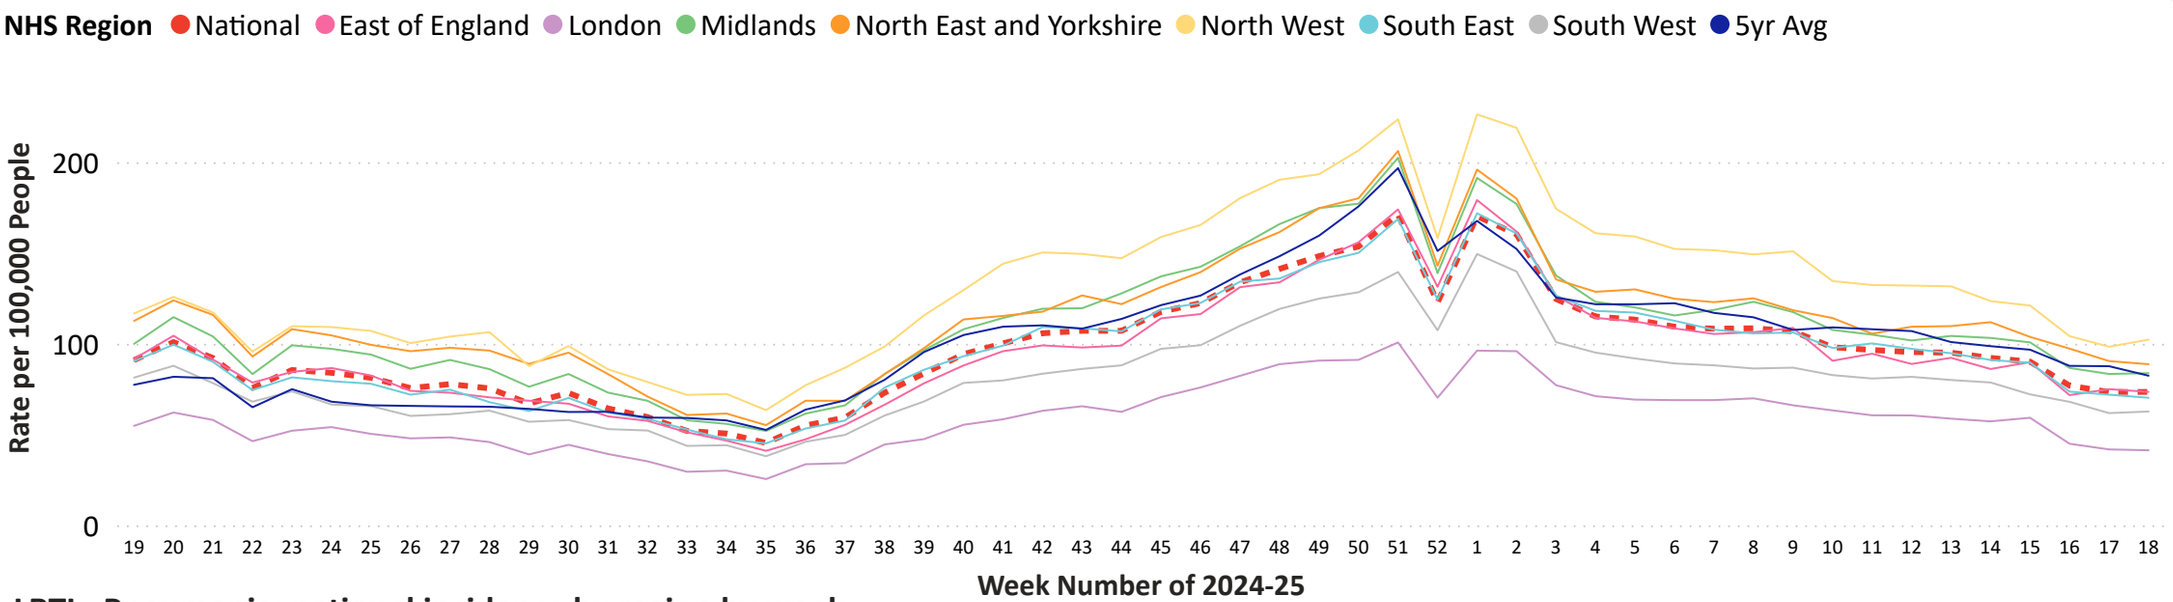

Upper respiratory tract infections (URTI): national incidence by region by week

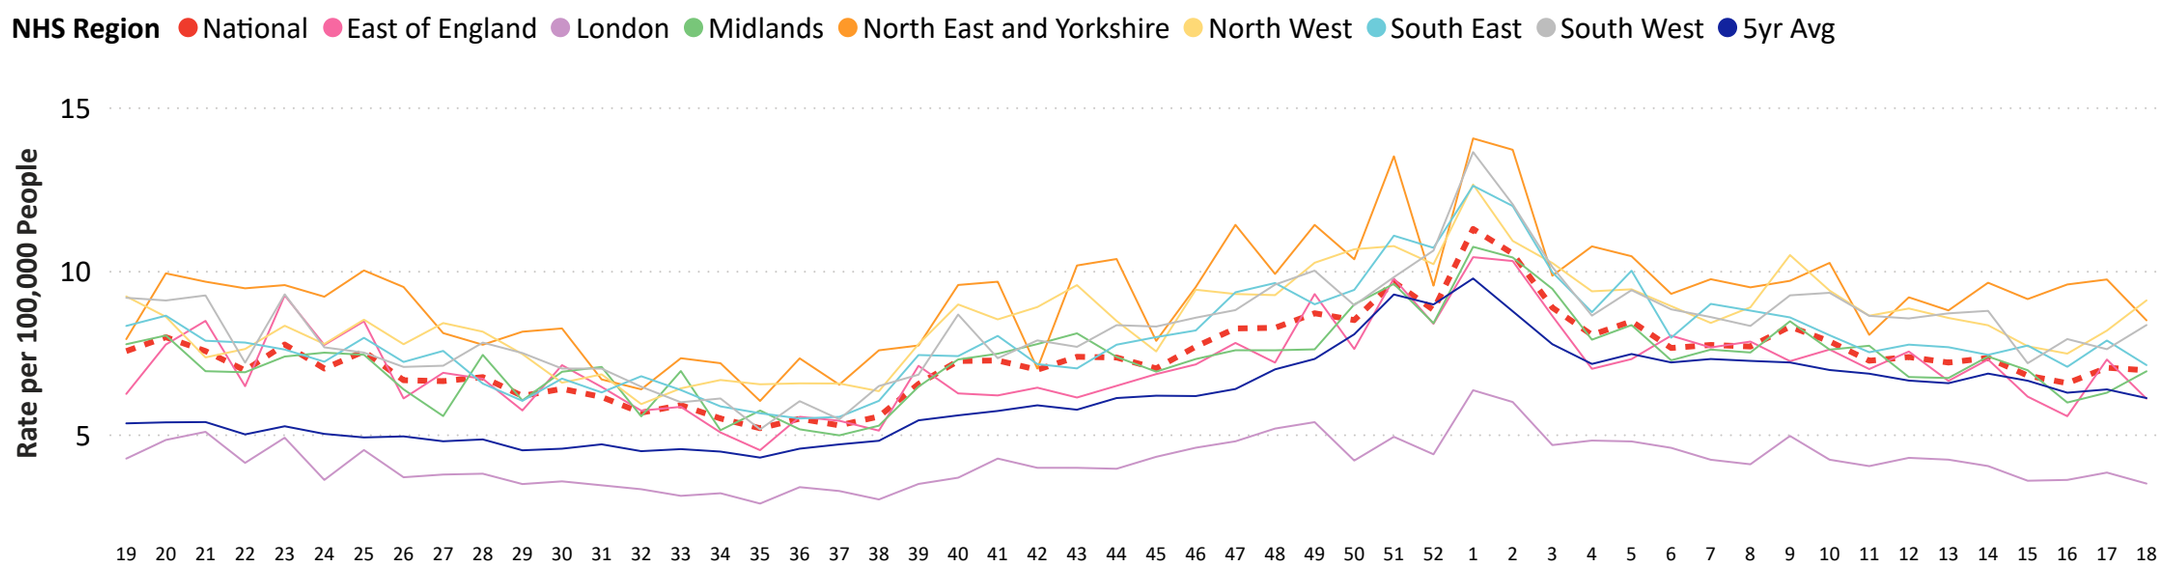

1. Surveillance of Respiratory Infections by Region for 2024-25:

The line graphs present trends in respiratory and other communicable diseases over time for different regions, and nationally for comparison (labelled using the dashed line). The monitored condition is reported in the title of each graph. The report starts from the week commencing on Monday the 6th of May 2024 (ISO week number 19), to the week commencing on Monday the 28th of May 2025 (ISO week number 18). Primary care data from general practices in the RCGP RSC respiratory surveillance network were included.

Lower respiratory tract infections (LRTI): national incidence by region by week

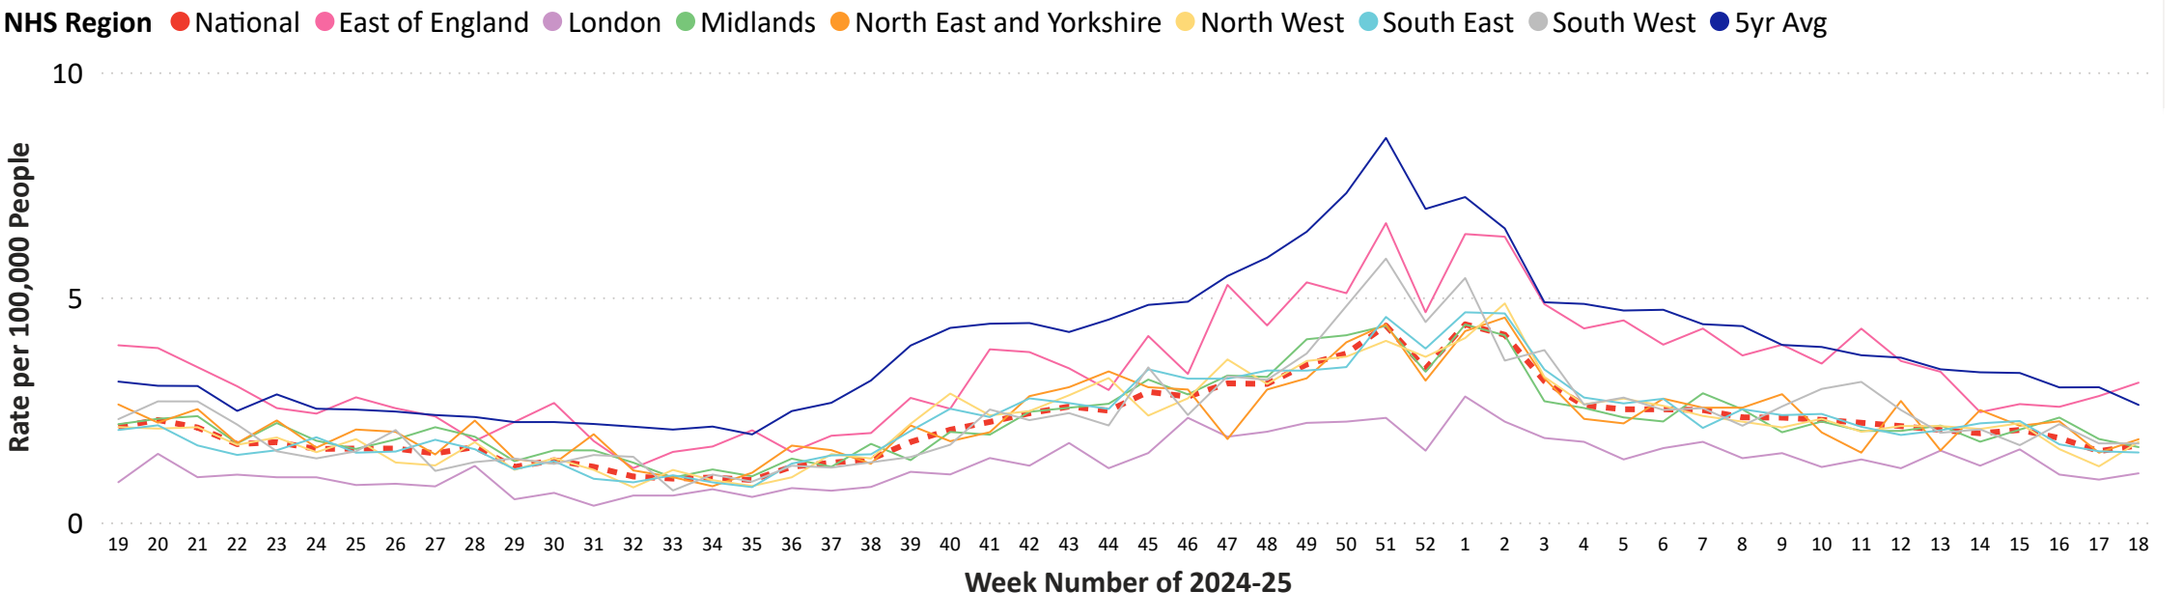

LRTI - Pneumonia: national incidence by region by week

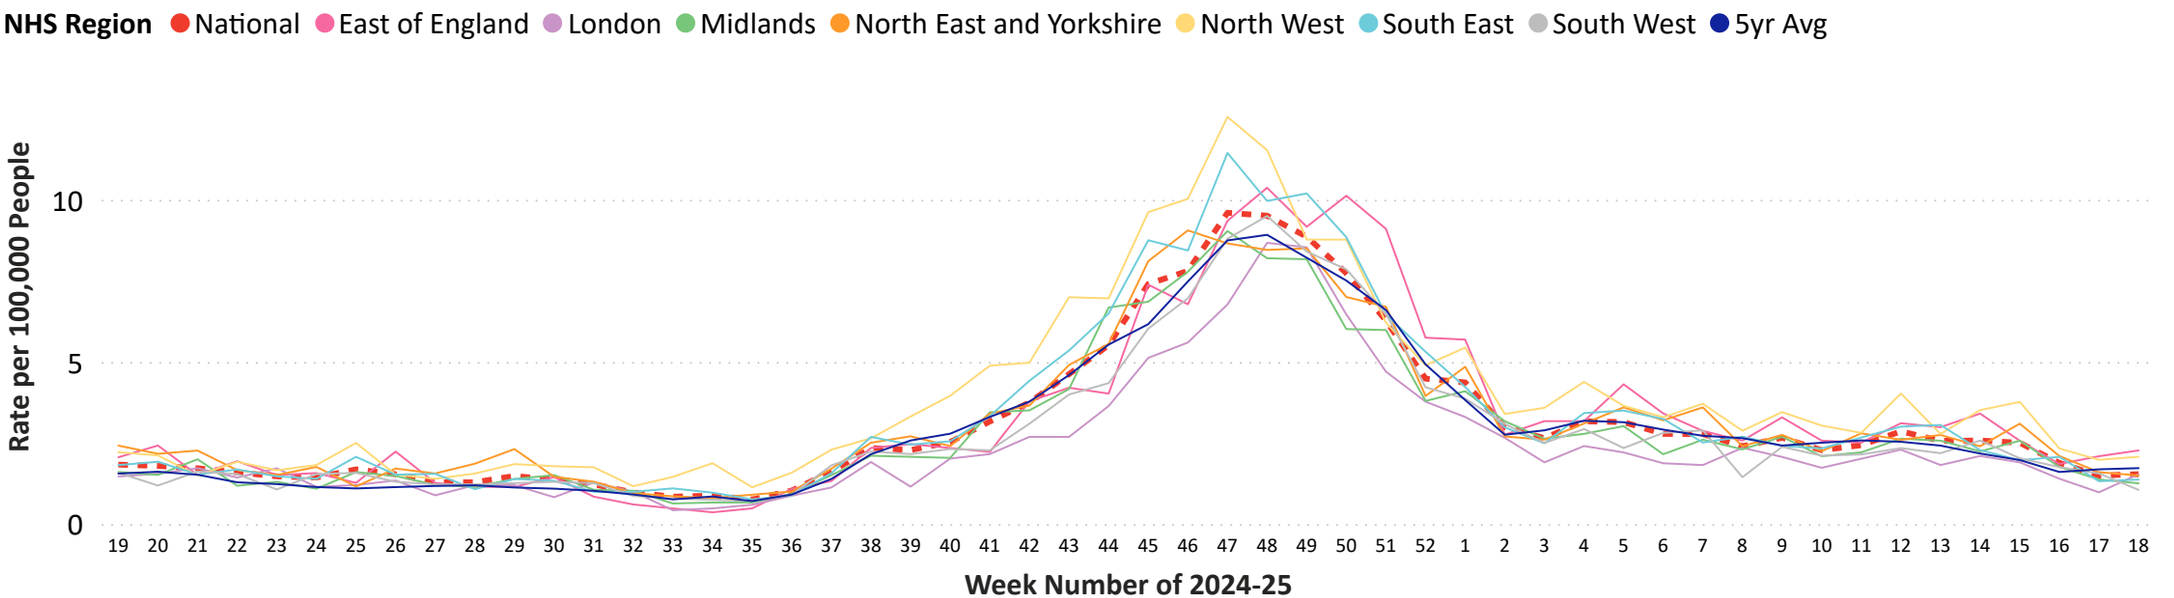

1. Surveillance of Respiratory Infections by Region for 2024-25:

LRTI - Acute Bronchitis: national incidence by region by week

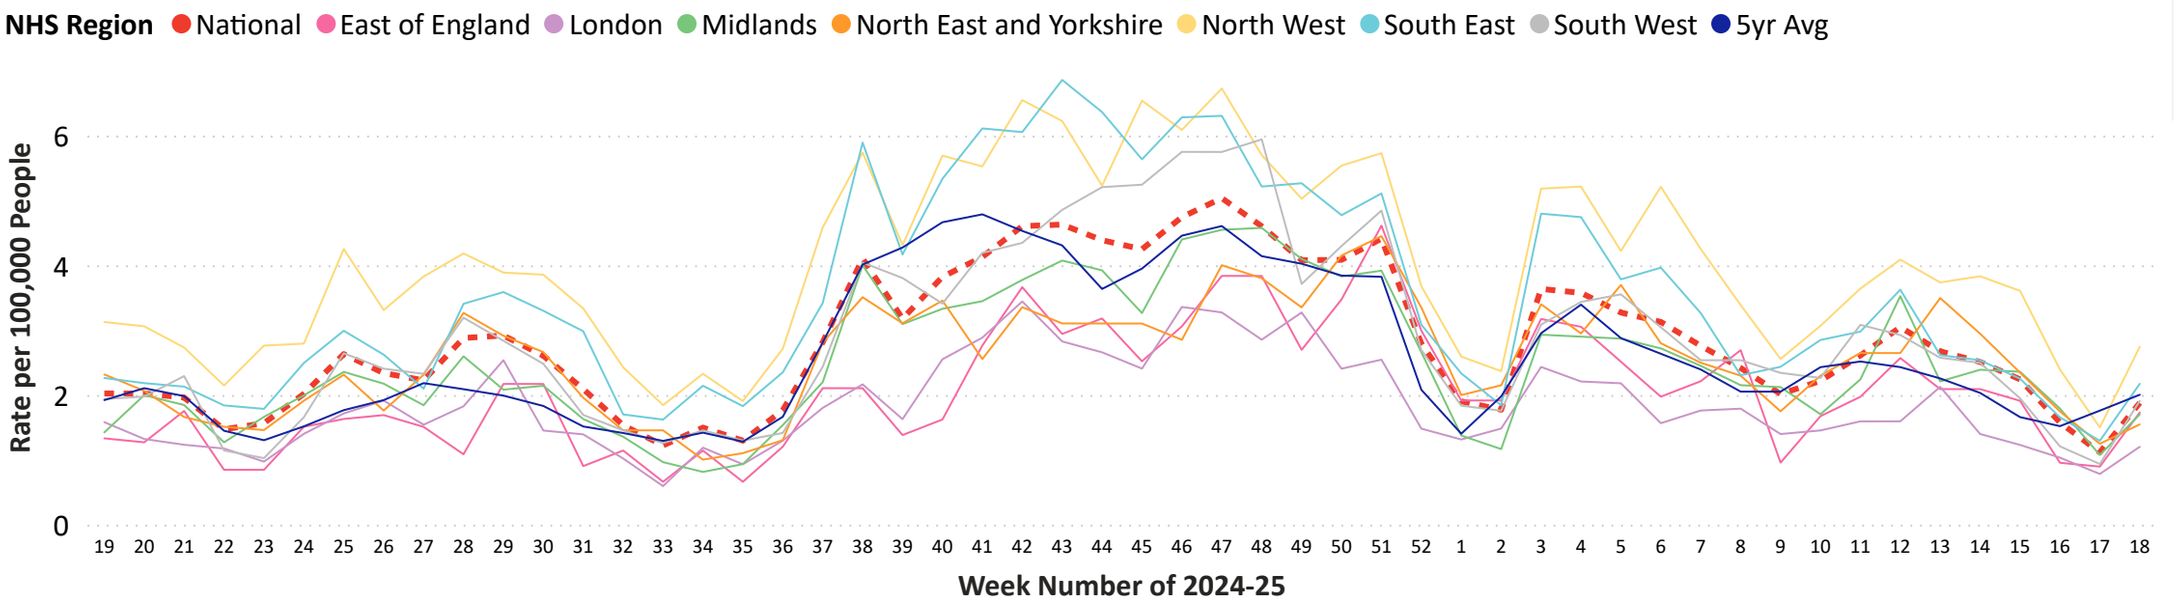

LRTI - Bronchiolitis: national incidence by region by week

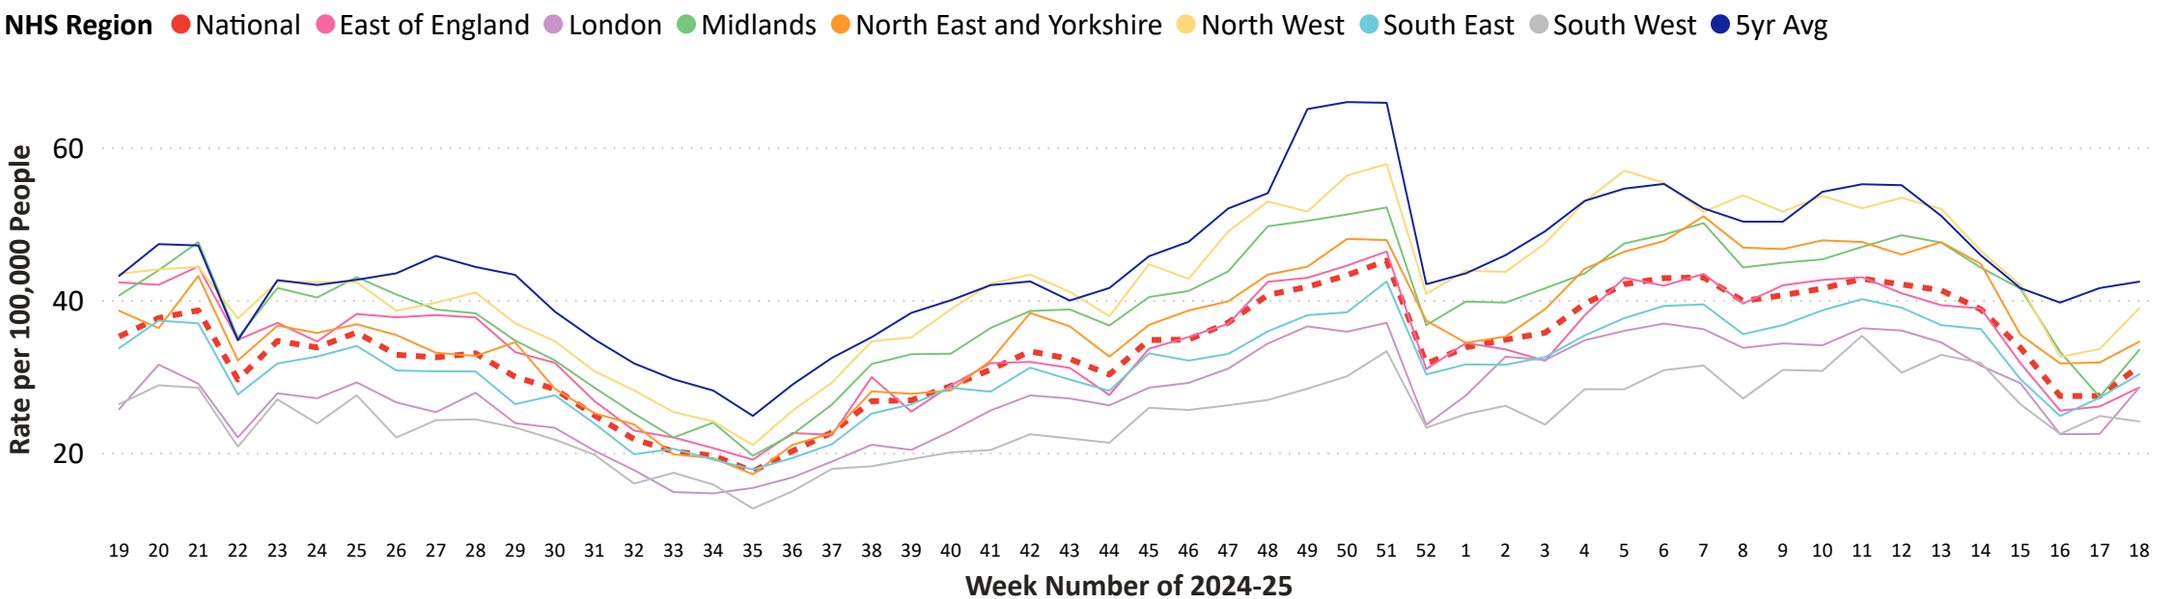

1. Surveillance of Respiratory Infections by Region for 2024-25:

URTI - Croup: national incidence by region by week

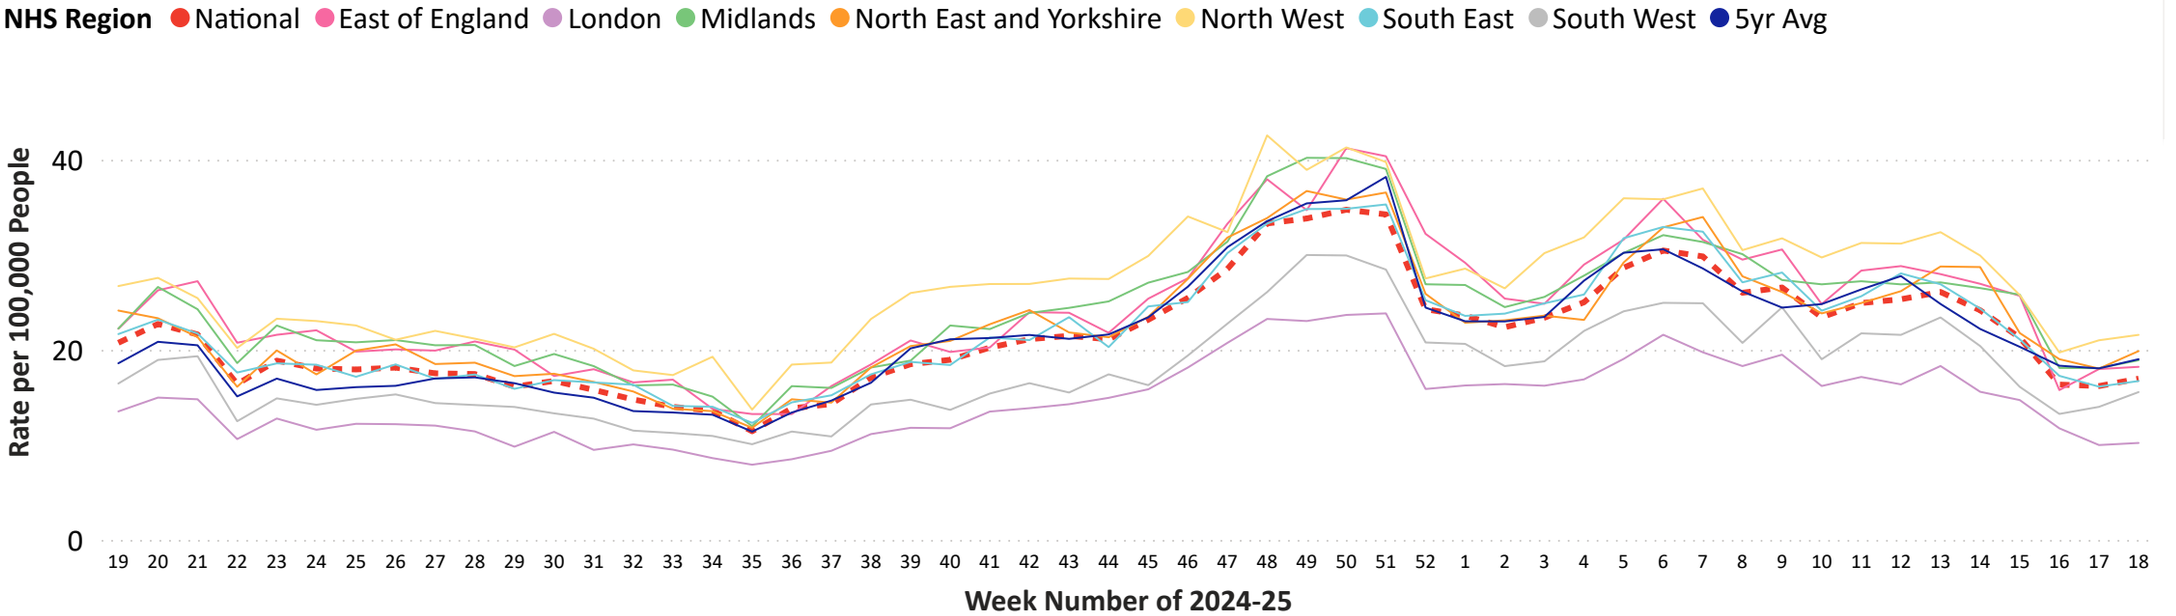

URTI - Tonsillitis/Pharyngitis: national incidence by region by week

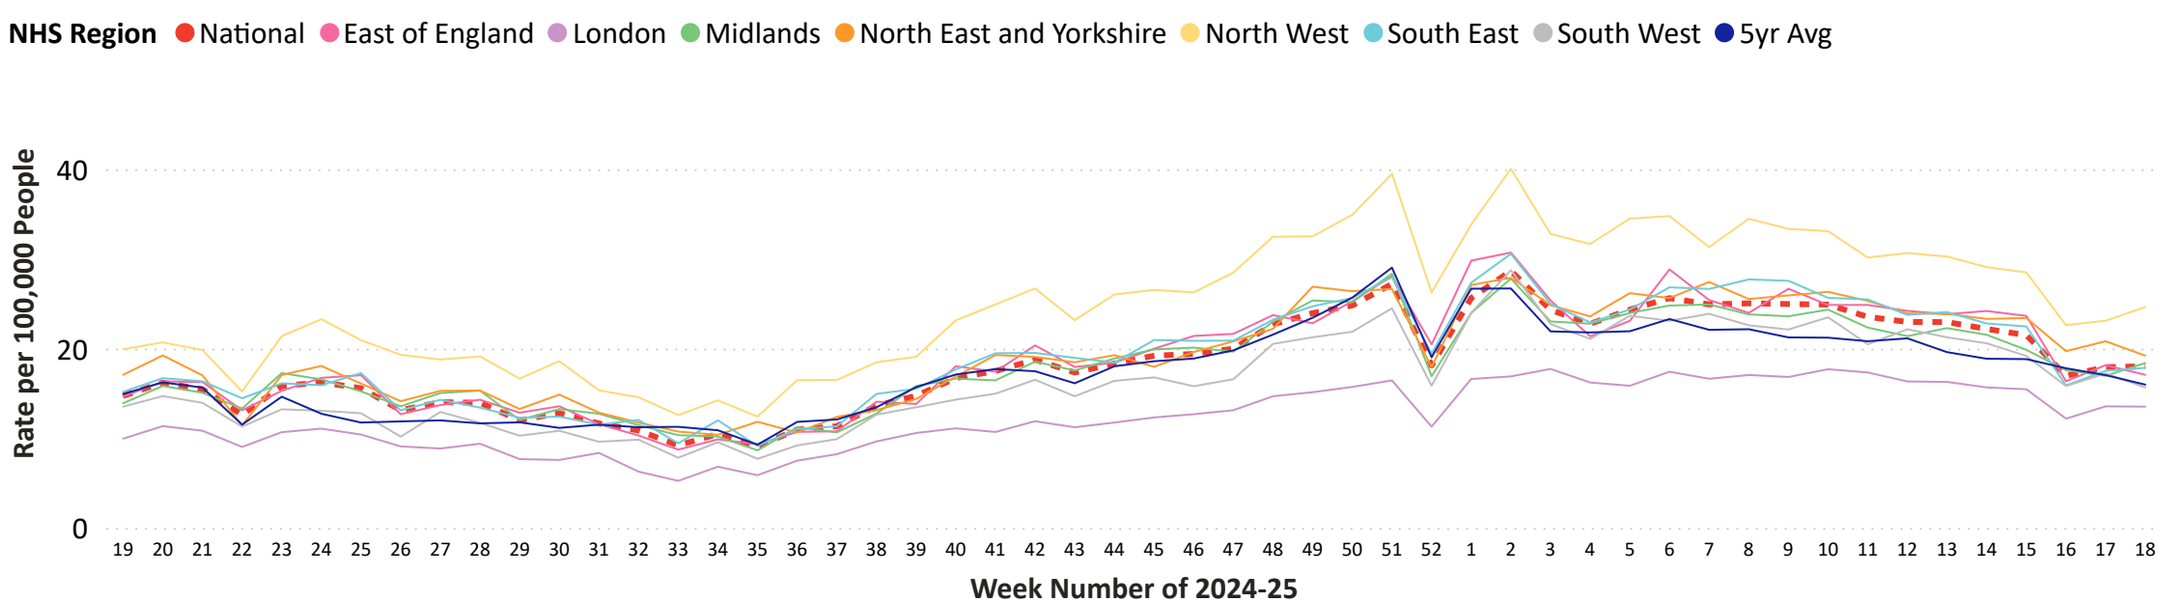

1. Surveillance of Respiratory Infections by Region for 2024-25:

URTI - Otitis Media: national incidence by region by week

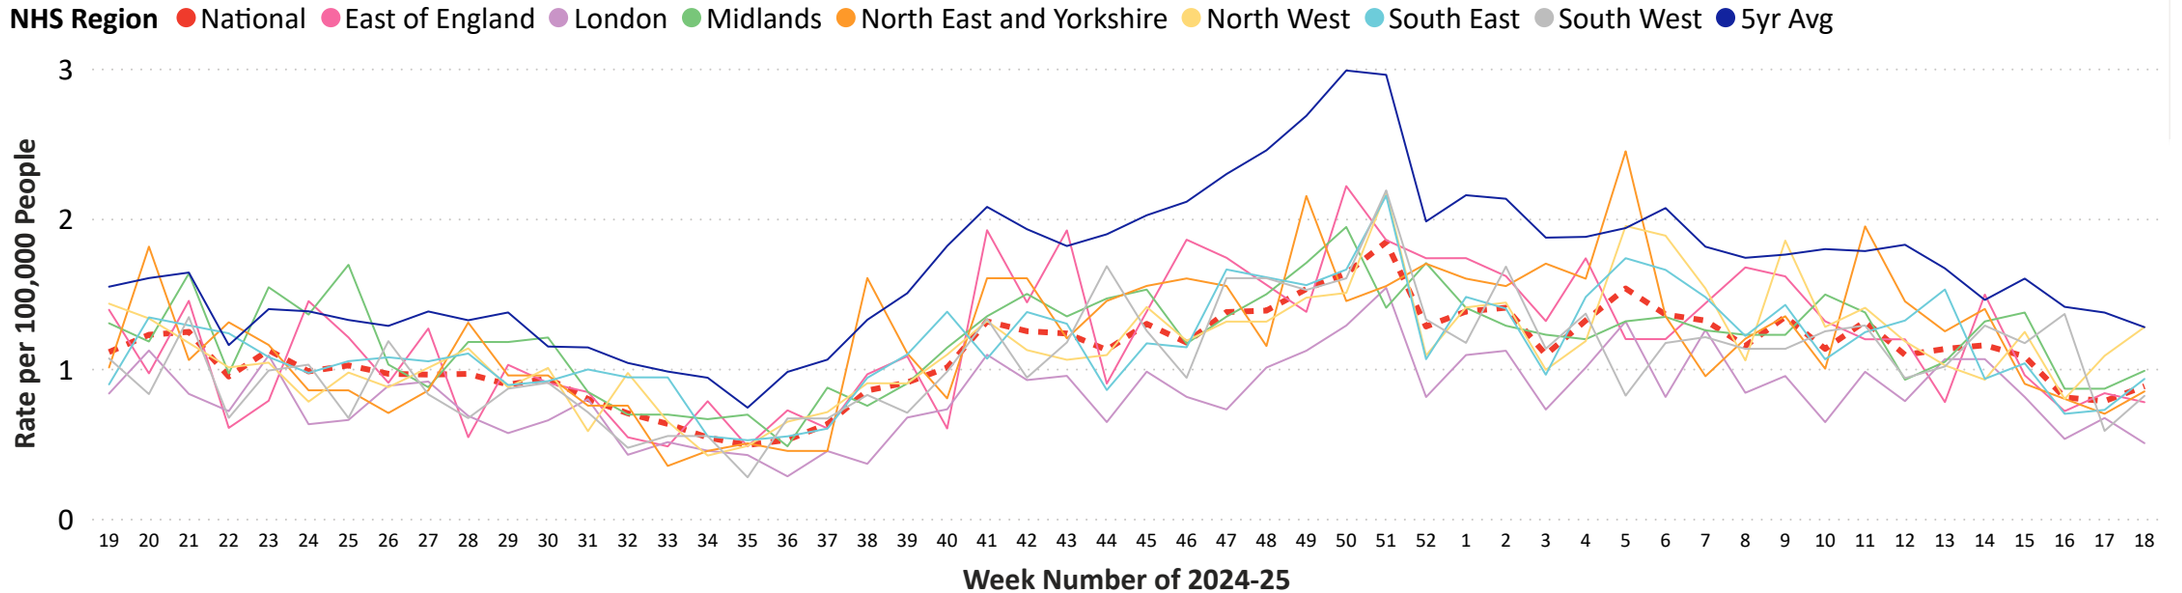

URTI - Sinusitis: national incidence by region by week

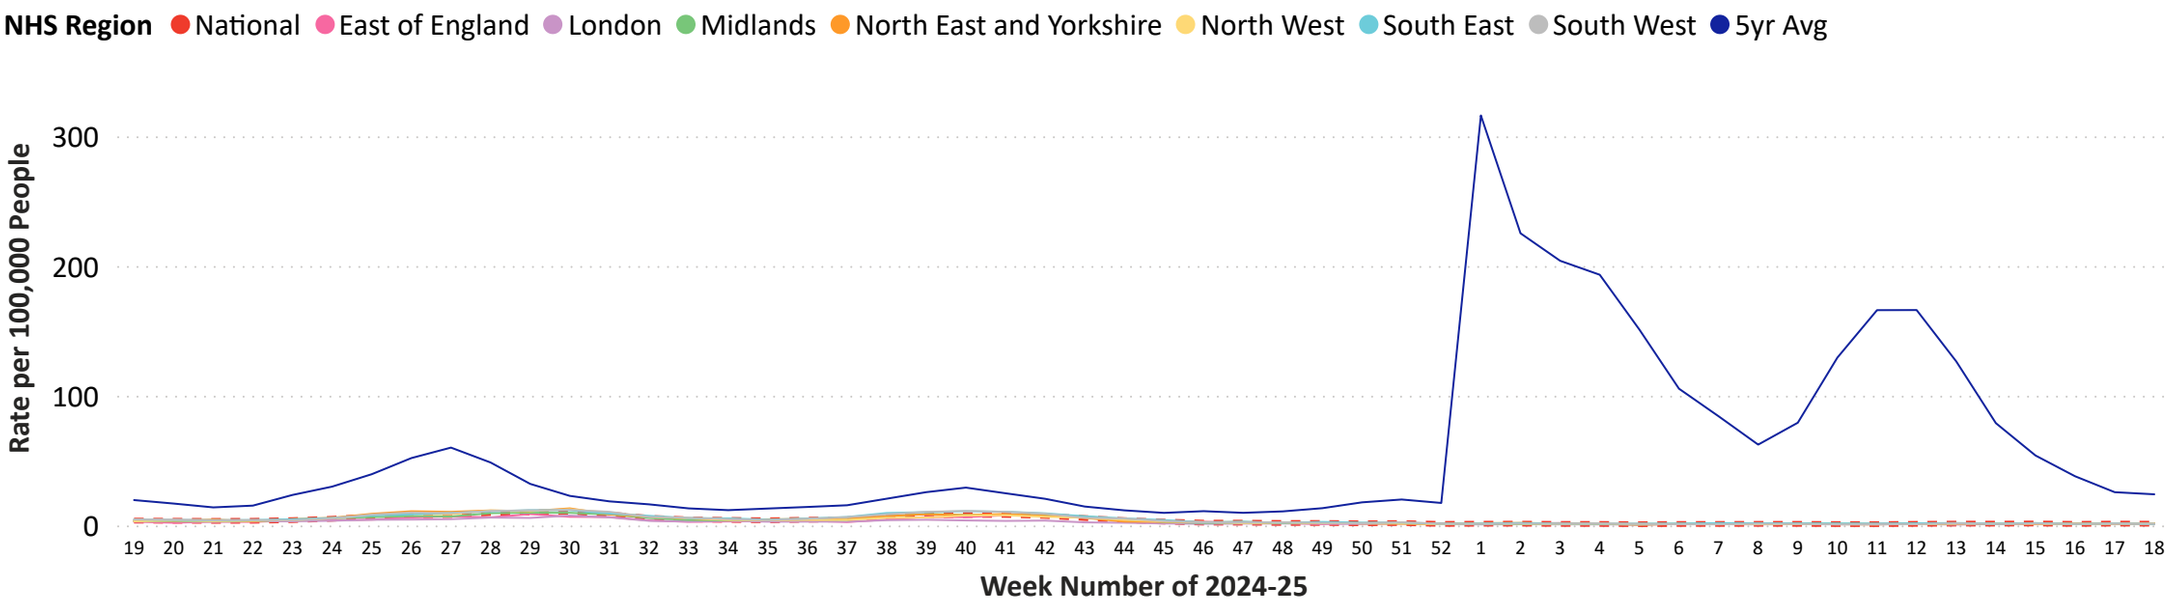

1. Surveillance of Respiratory Infections by Region for 2024-25:

URTI - Laryngitis: national incidence by region by week

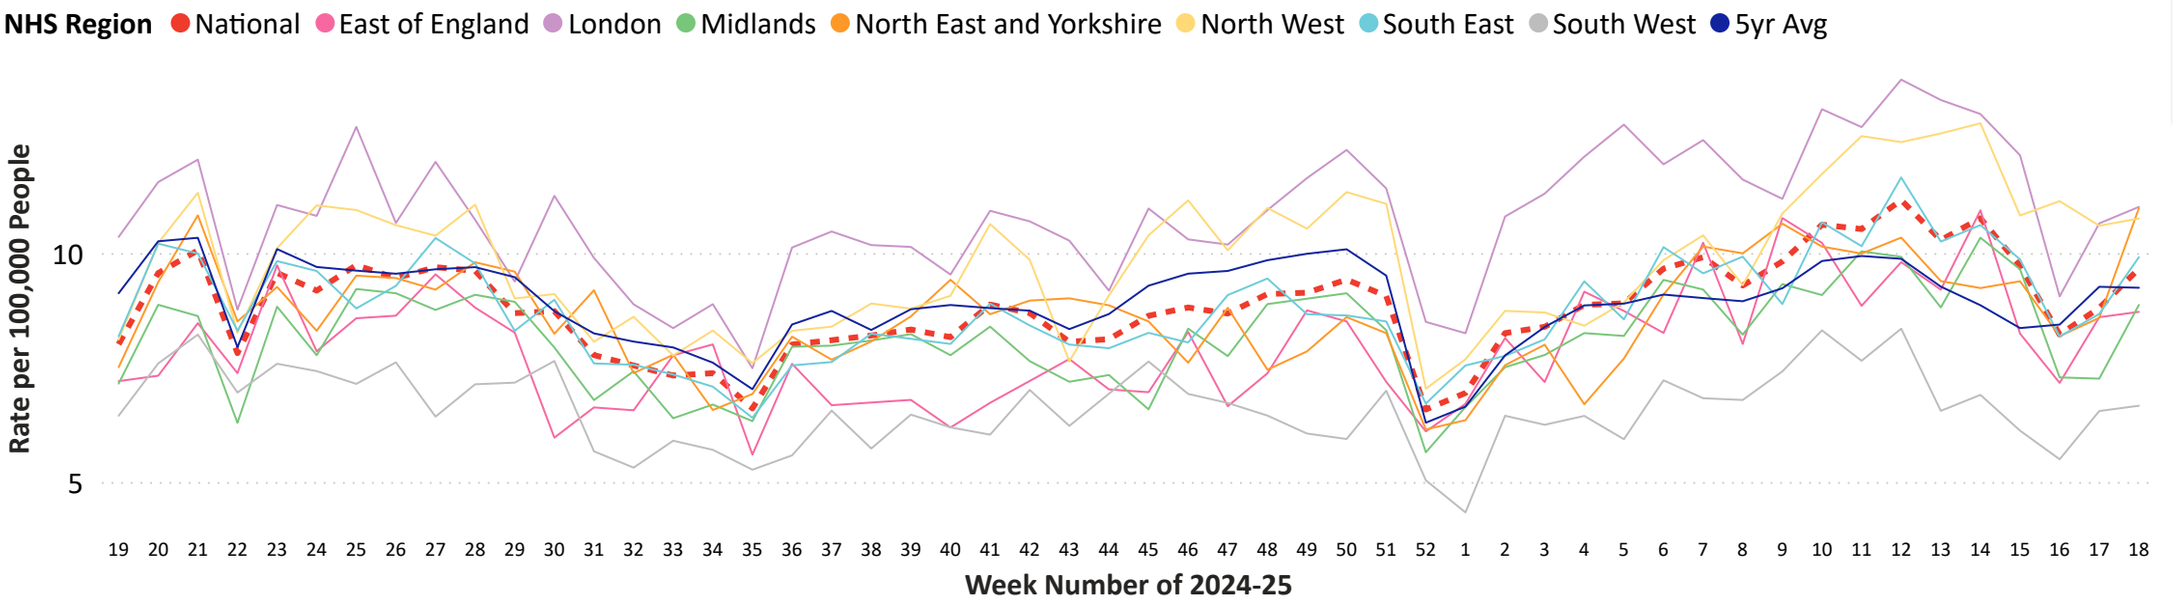

COVID-19: national incidence by region by week

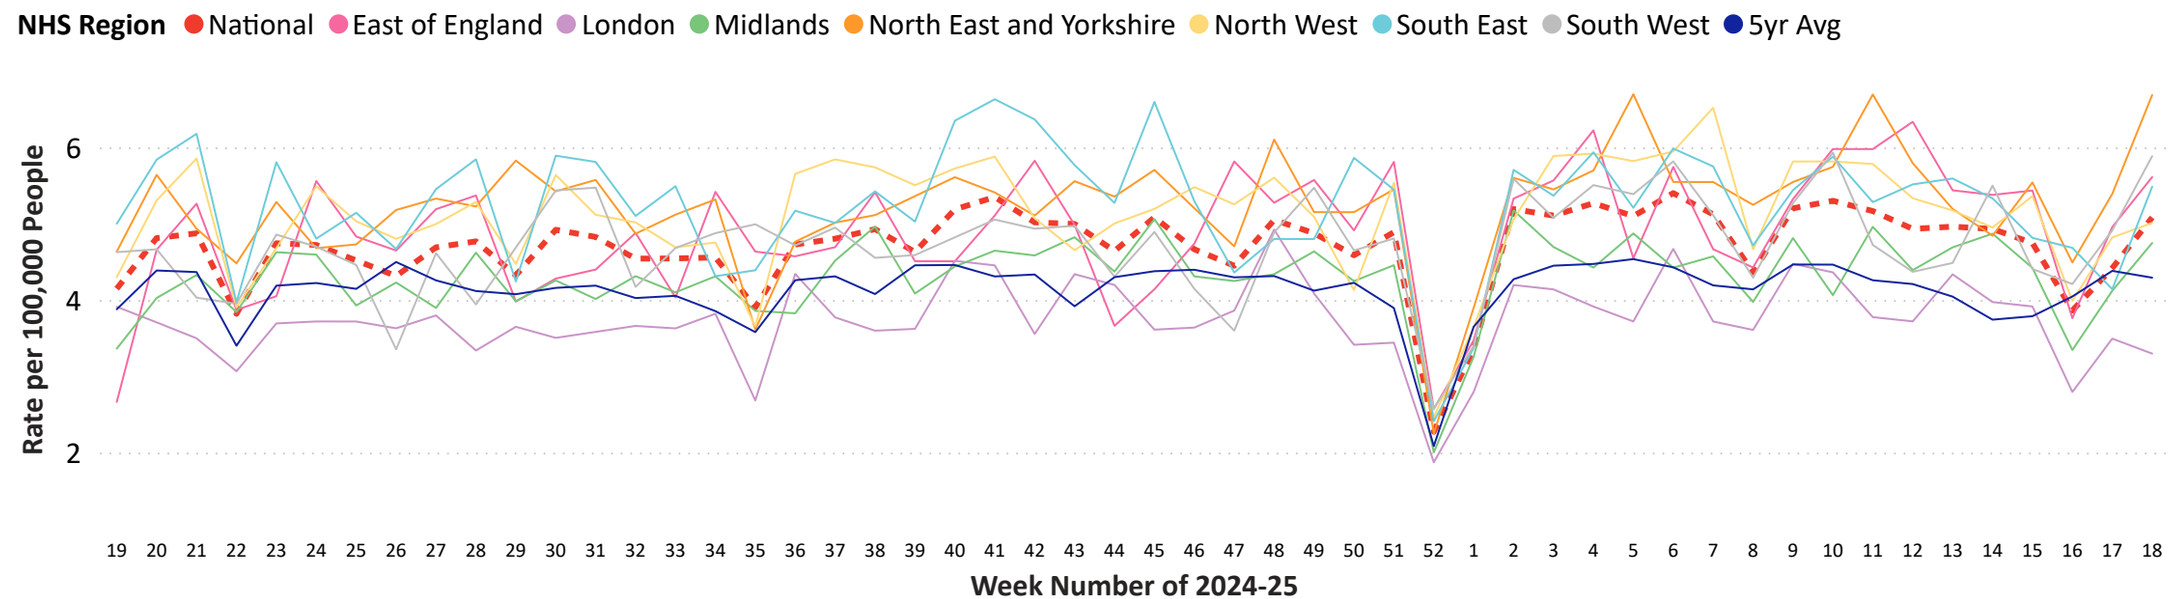

2. Surveillance of Water and Food Borne Disorders by Region for 2024-25:

Intestinal Infections (all ages): national incidence by region by week

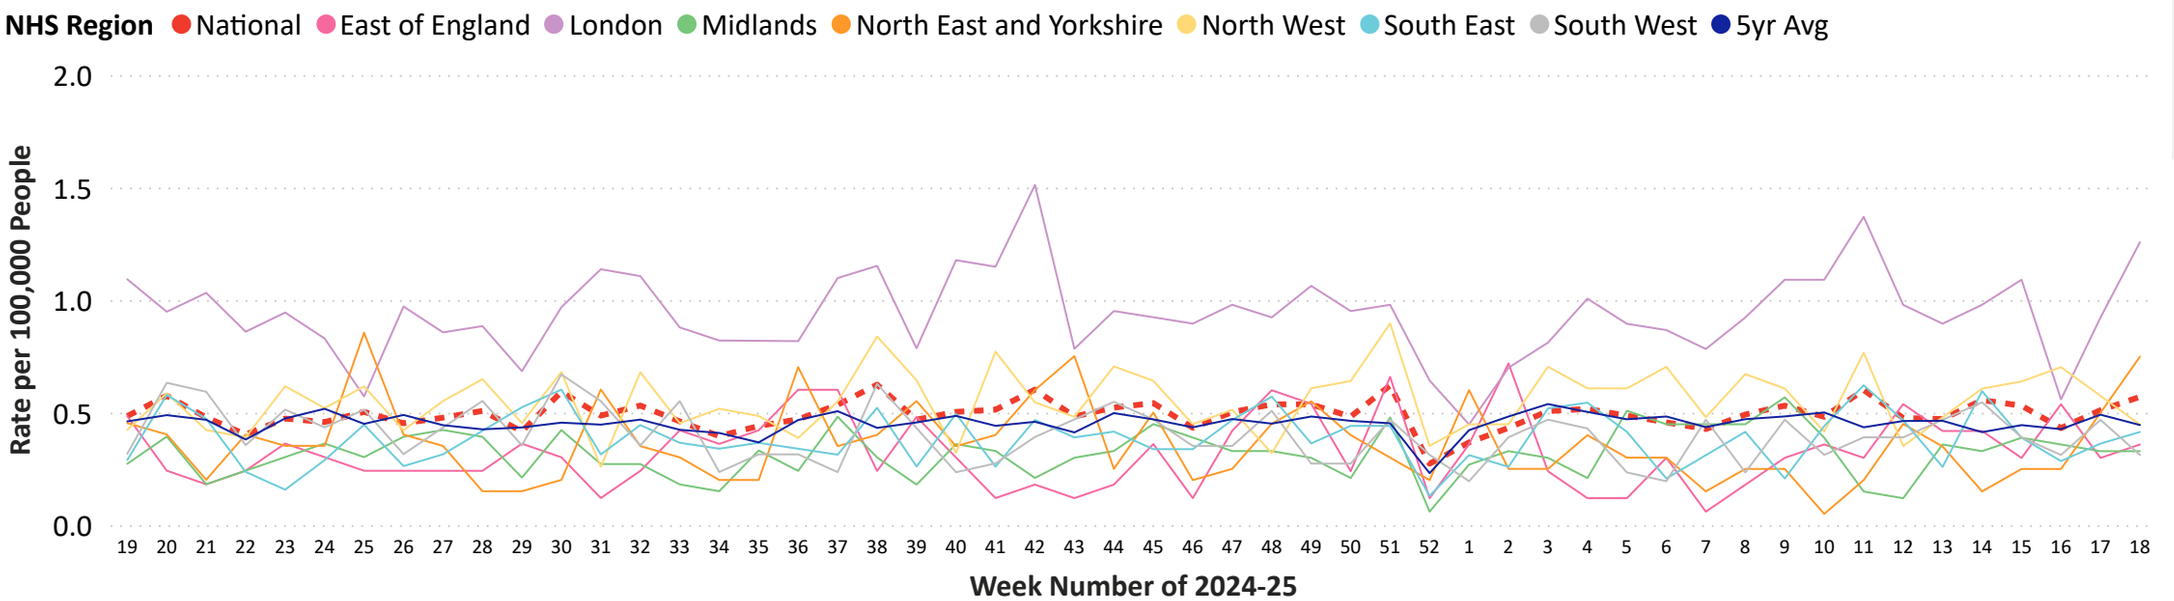

Non-infective Enteritis / Colitis: national incidence by region by week

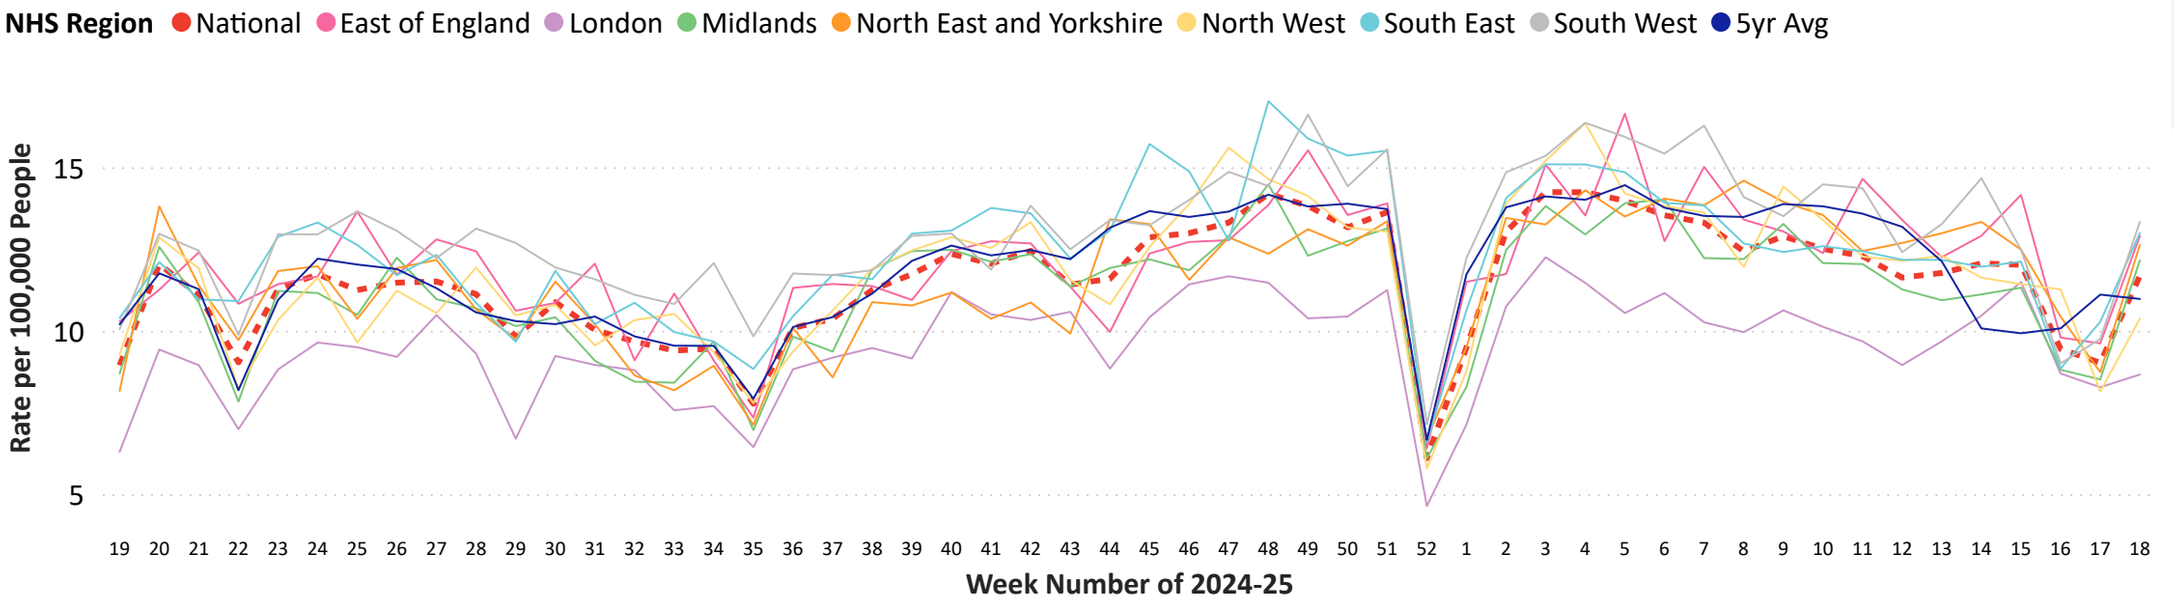

2. Surveillance of Water and Food Borne Disorders by Region for 2024-25:

Viral Hepatitis: national incidence by region by week

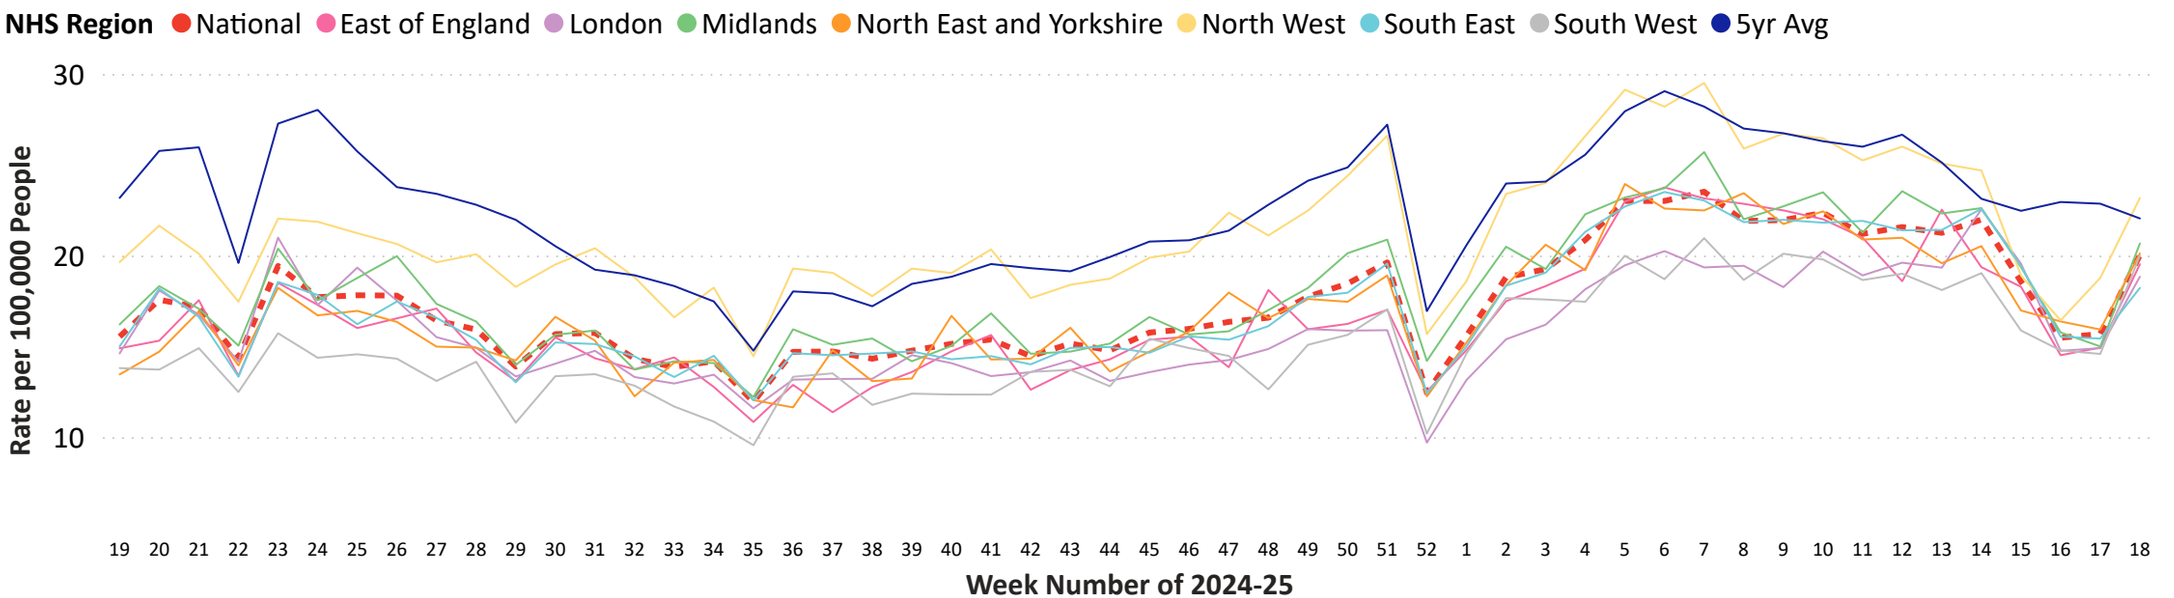

3. Surveillance of Environmentally Sensitive Disorders by Region for 2024-25:

Asthma: national incidence by region by week

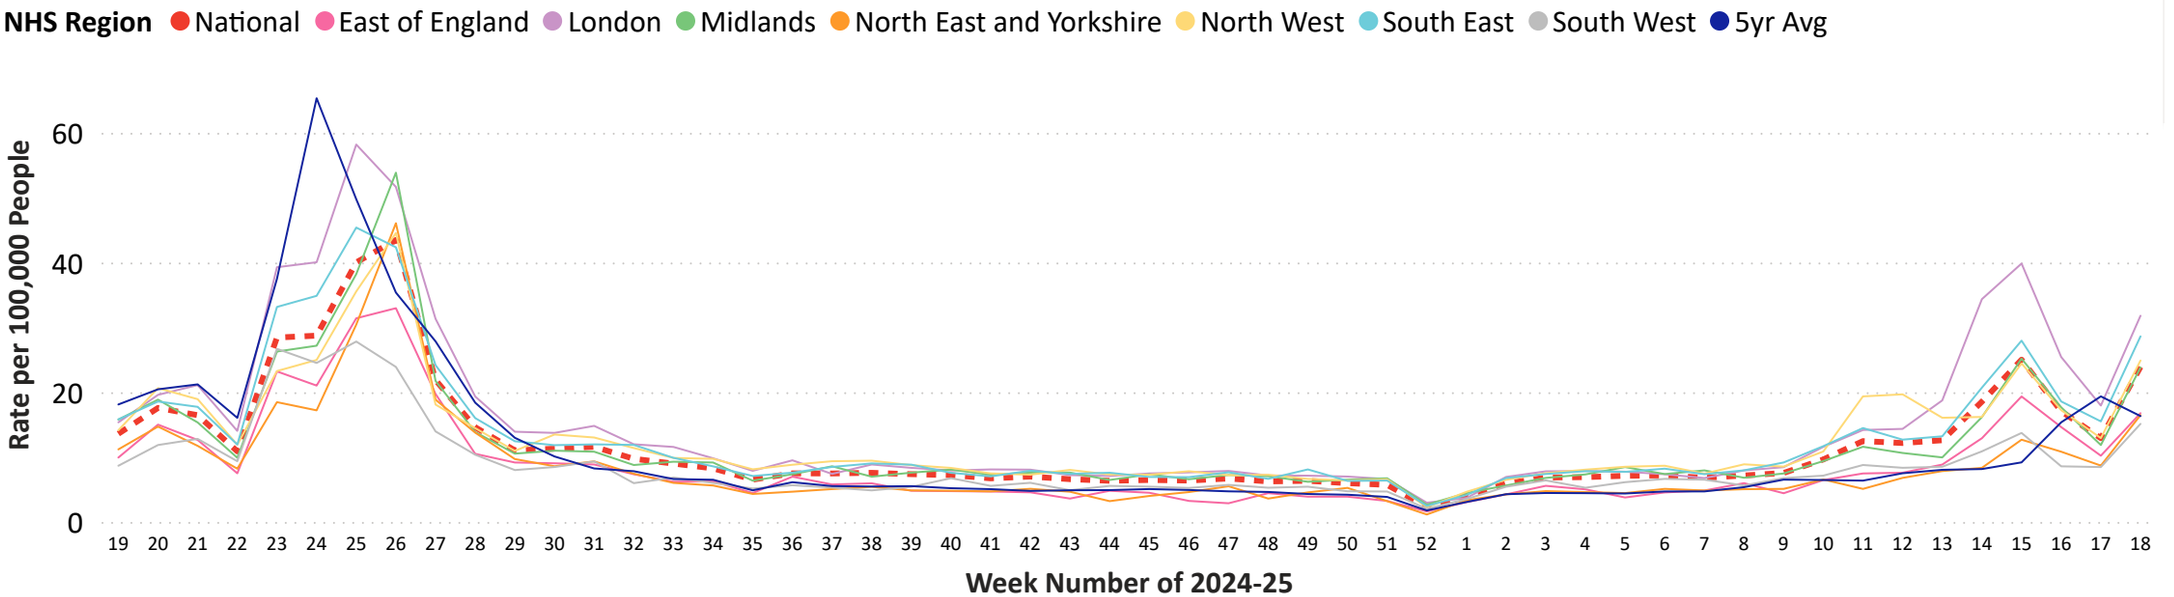

Conjunctivitis: national incidence by region by week

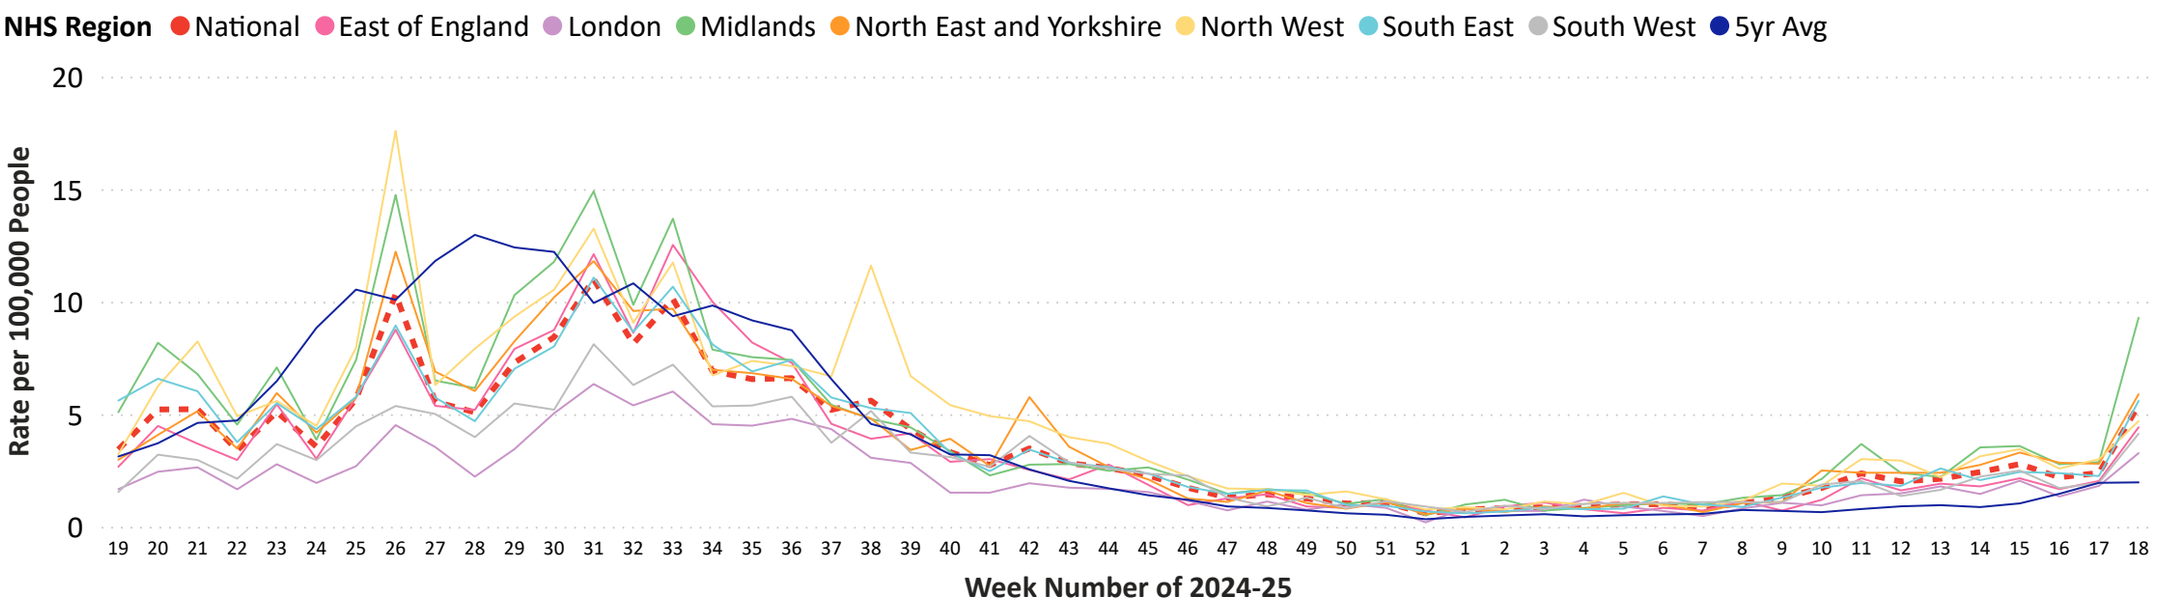

3. Surveillance of Environmentally Sensitive Disorders by Region for 2024-25:

Allergic Rhinitis (Hayfever): national incidence by region by week

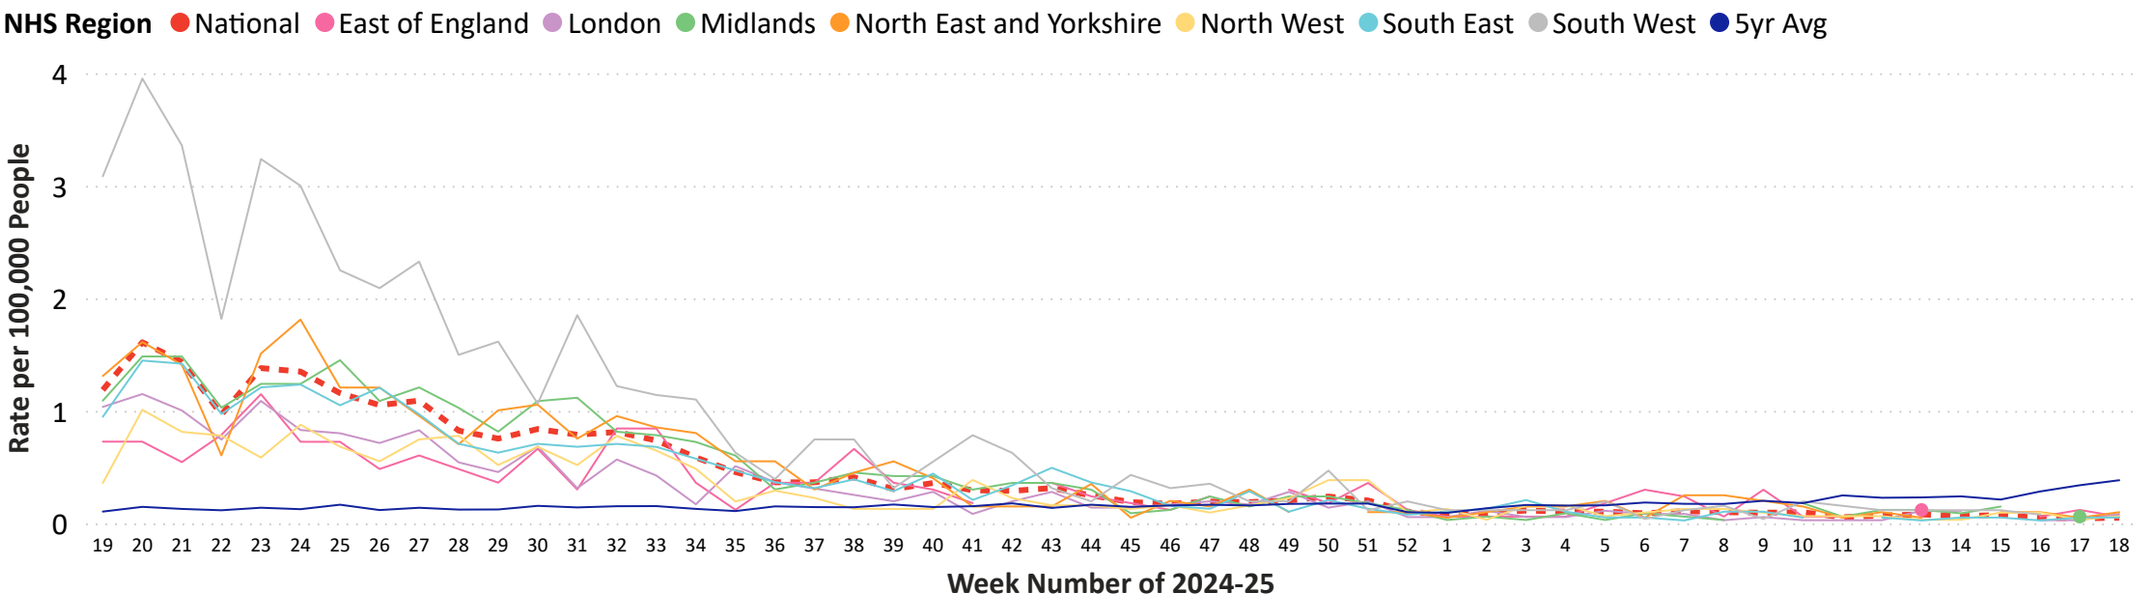

Infected Insect Bites: national incidence by region by week

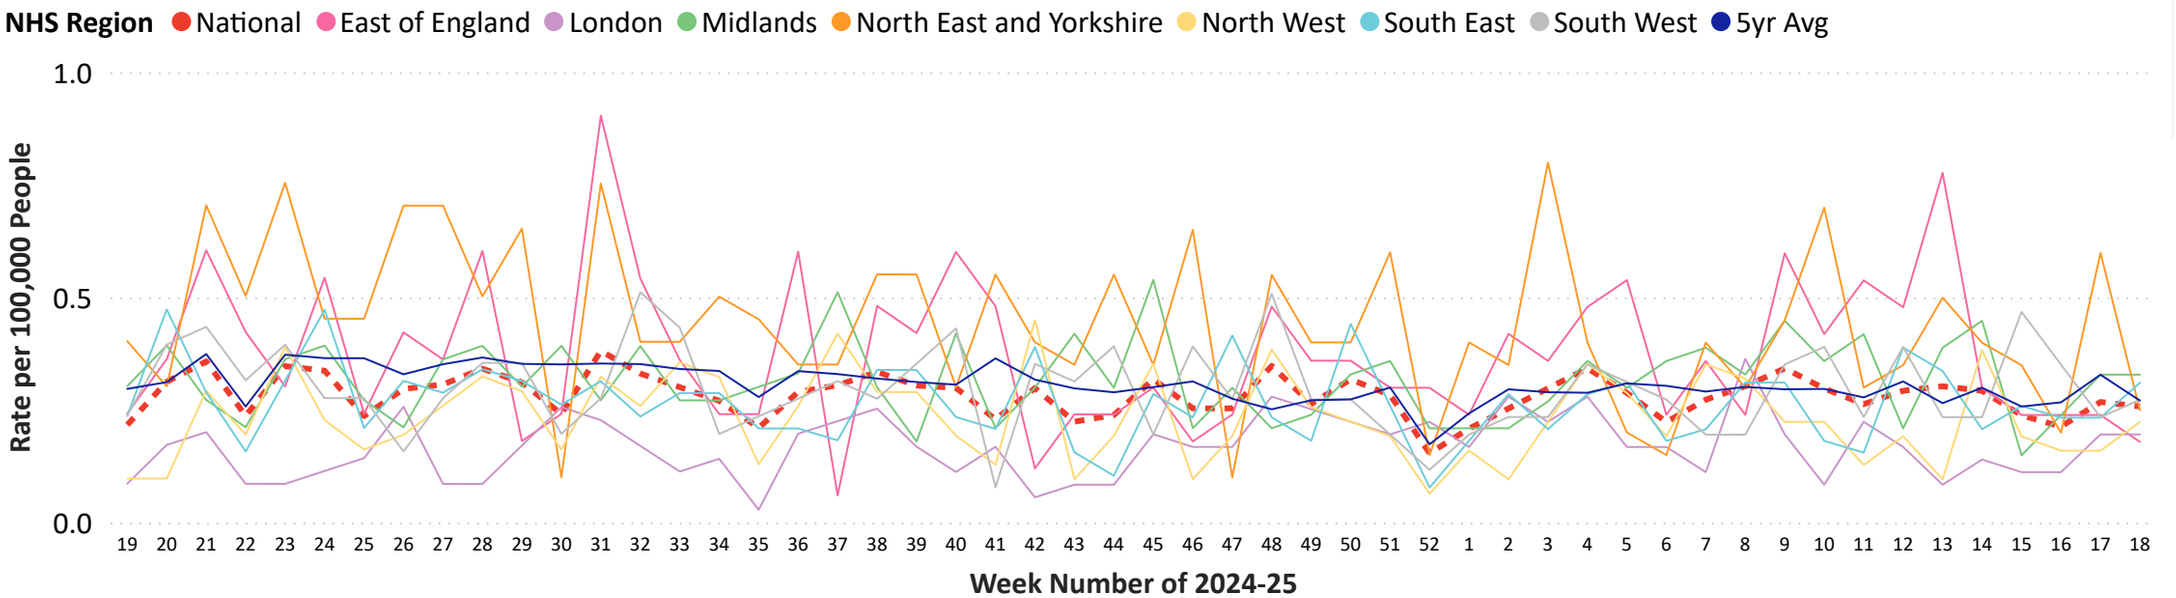

4. Surveillance of Vaccine Sensitive Disorders by Region for 2024-25:

Whooping Cough: national incidence by region by week

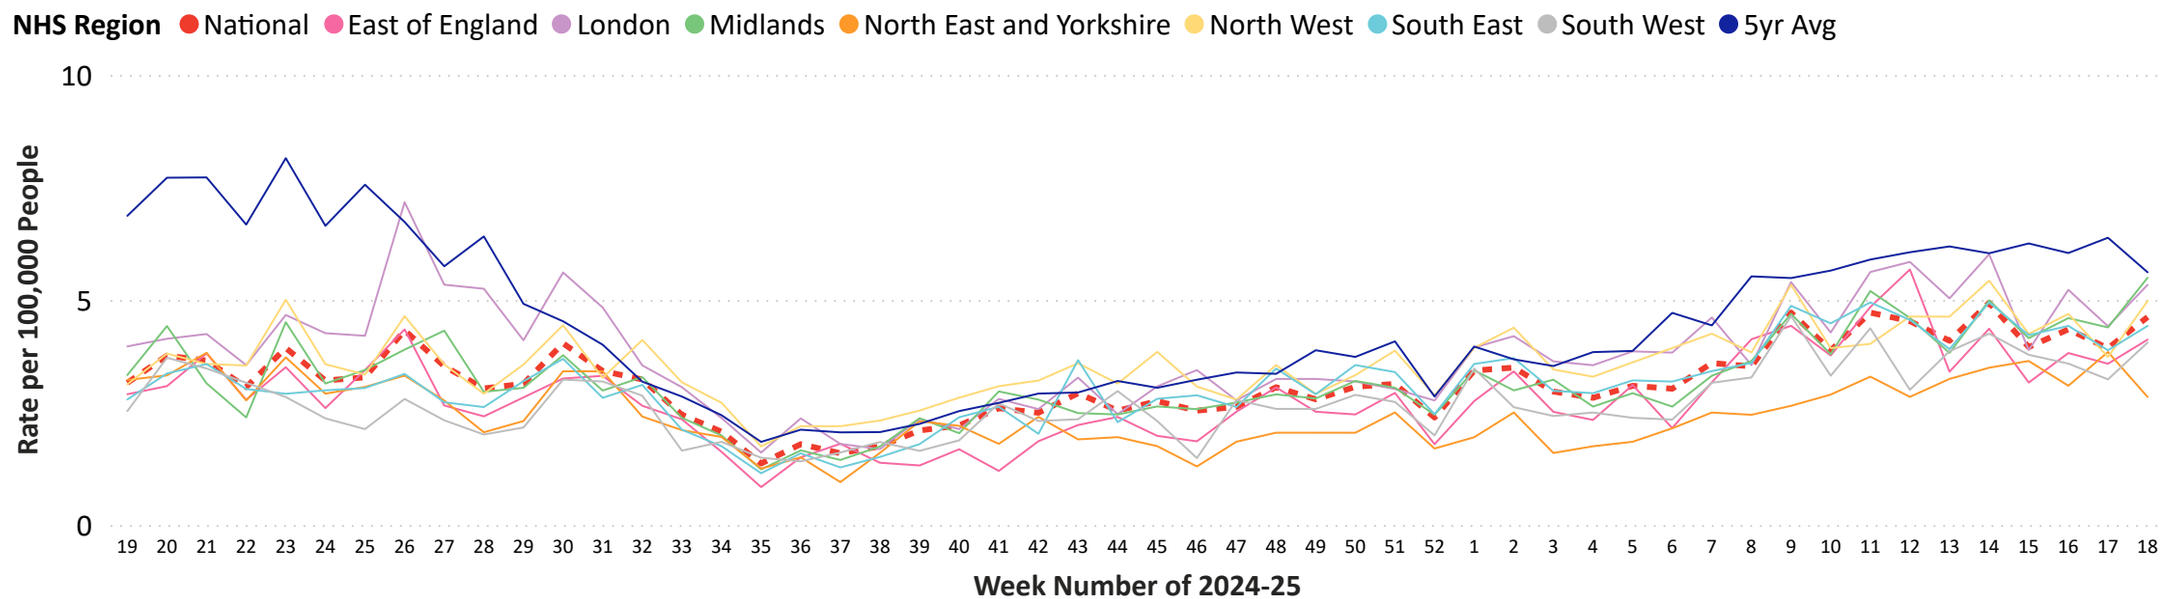

5. Surveillance of Skin Contagions by Region for 2024-25:

Bullous Dermatoses: national incidence by region by week

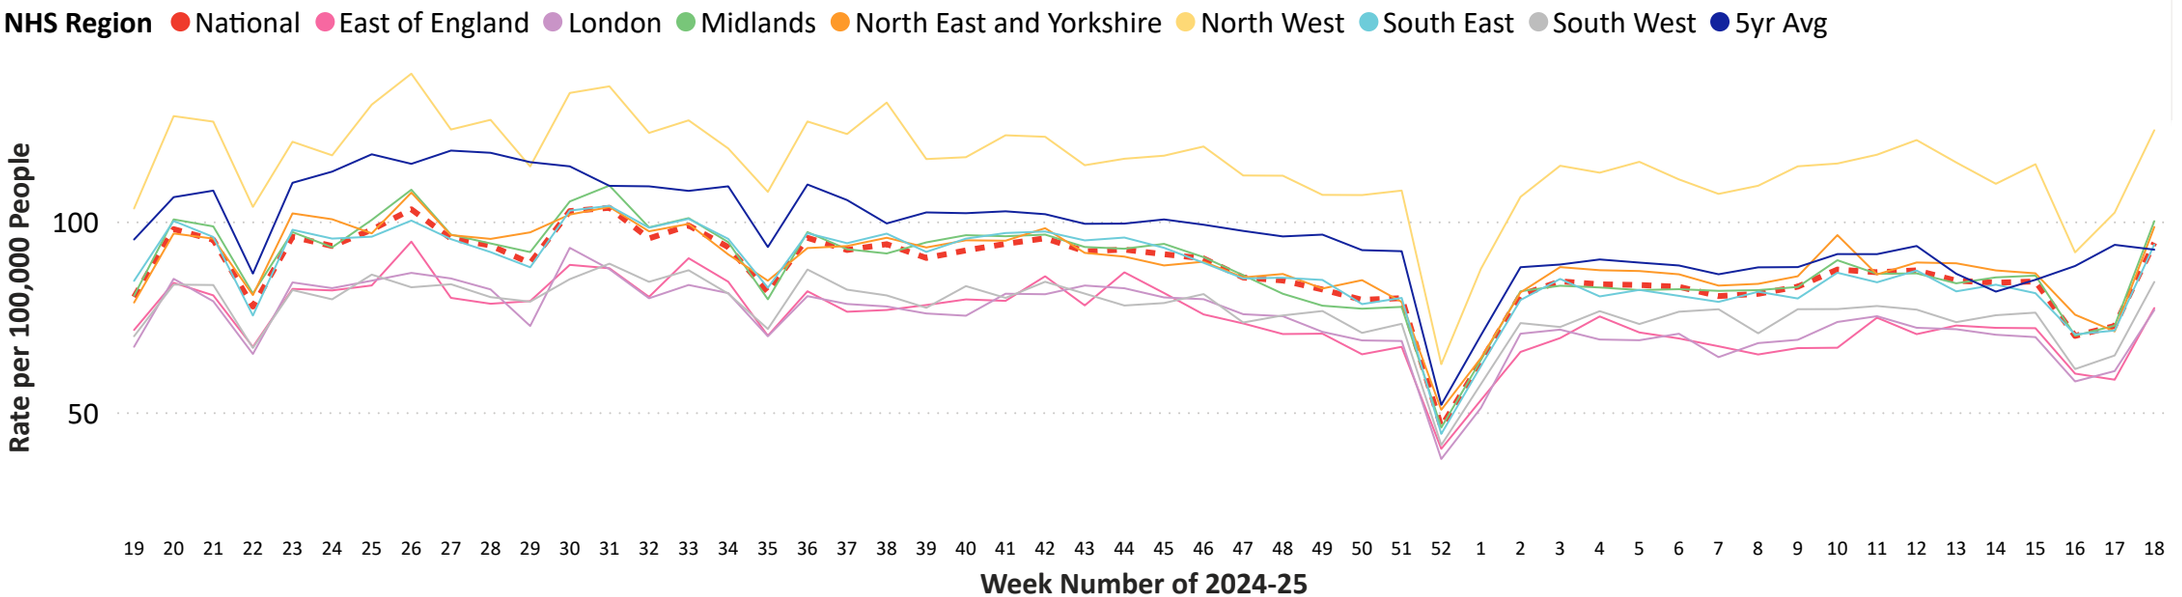

Chickenpox: national incidence by region by week

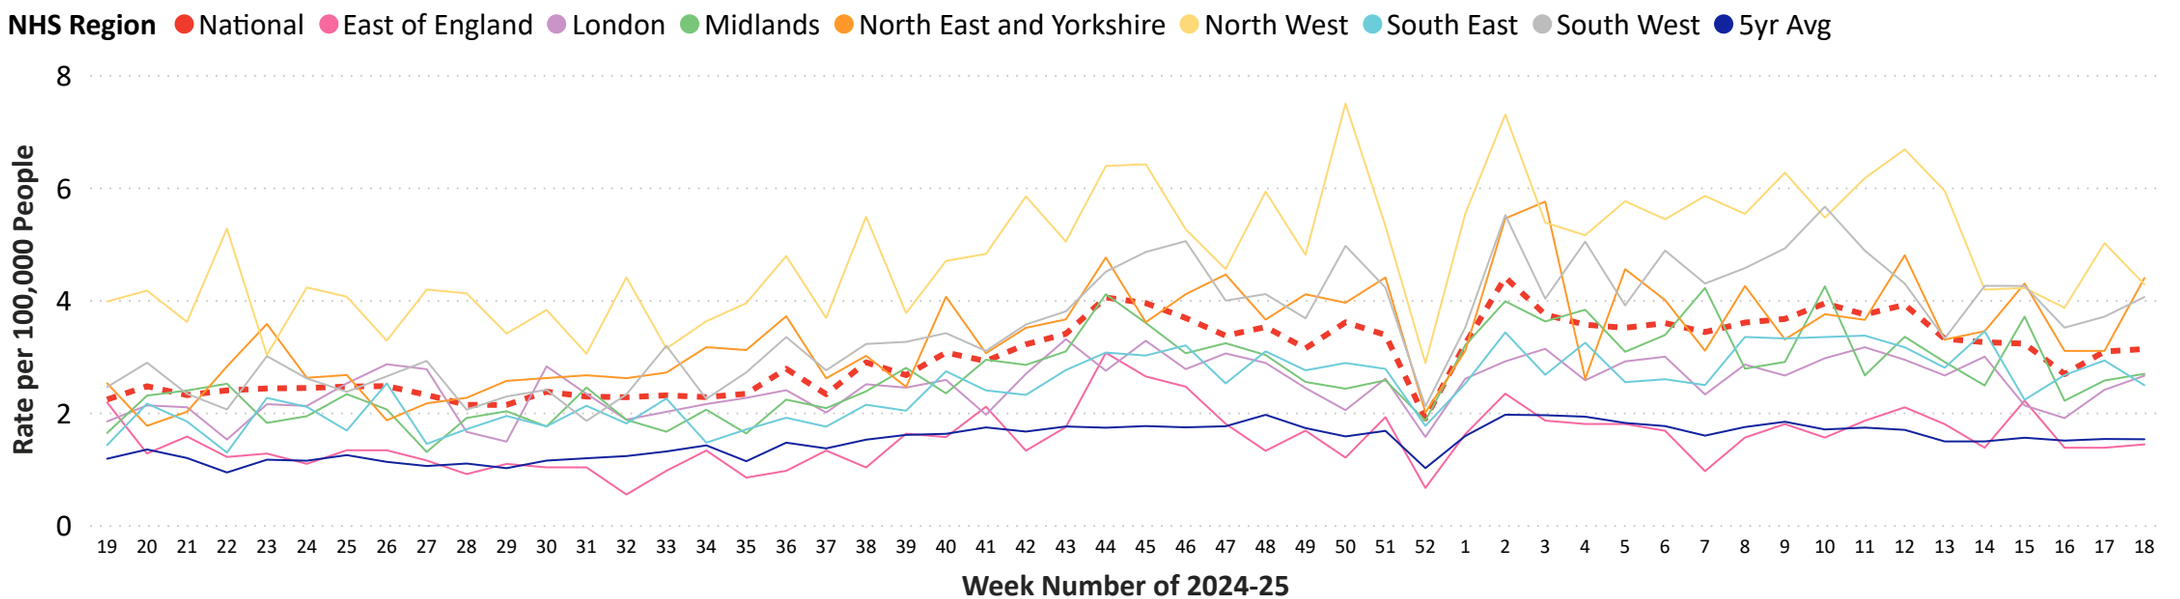

5. Surveillance of Skin Contagions by Region for 2024-25:

Skin / subcutaneous infections: national incidence by region by week

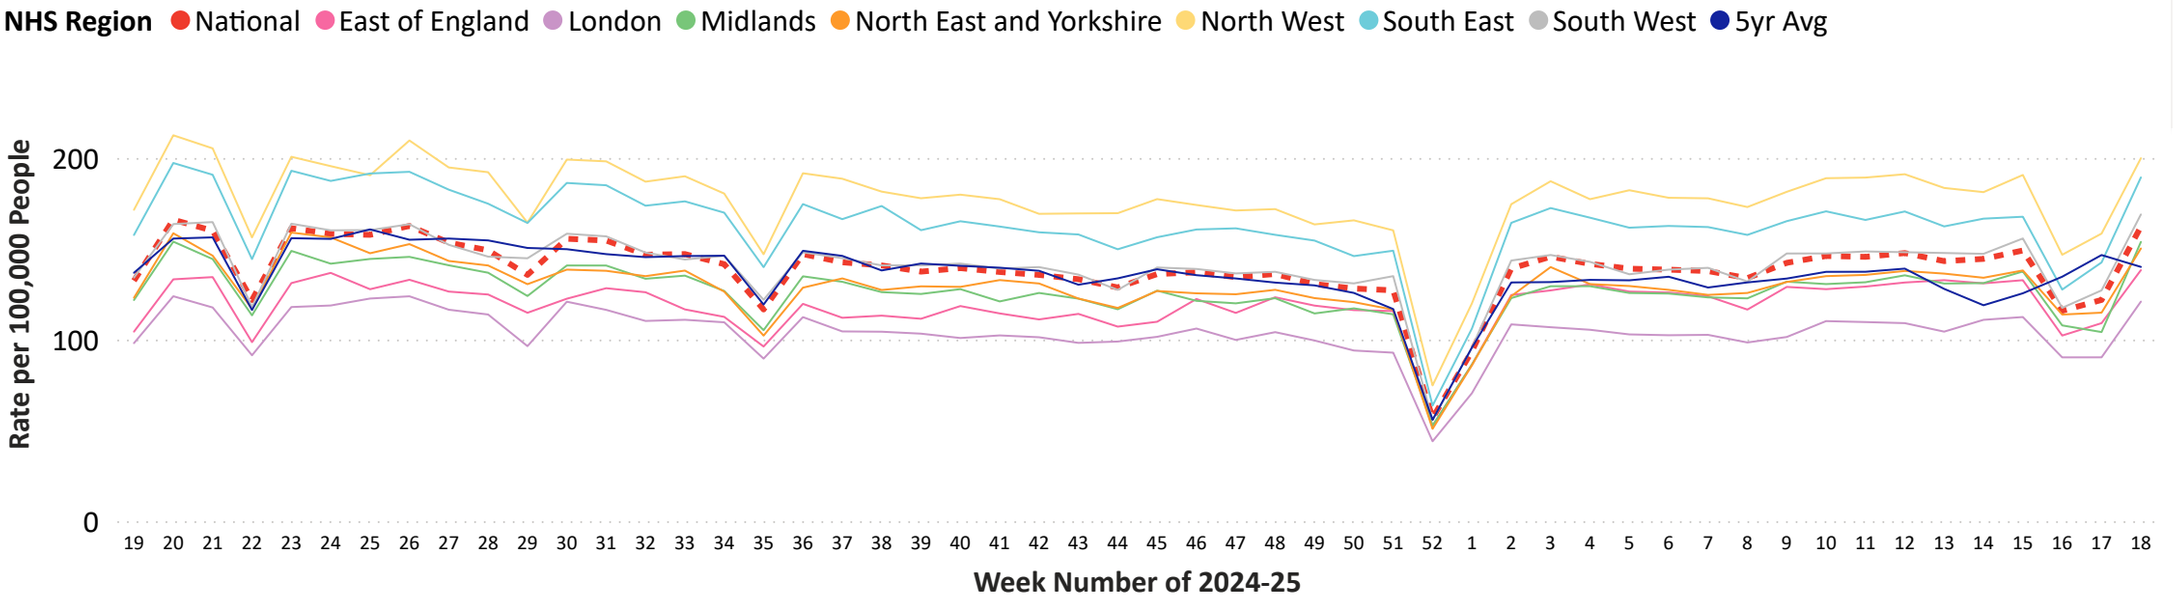

Scabies: national incidence by region by week

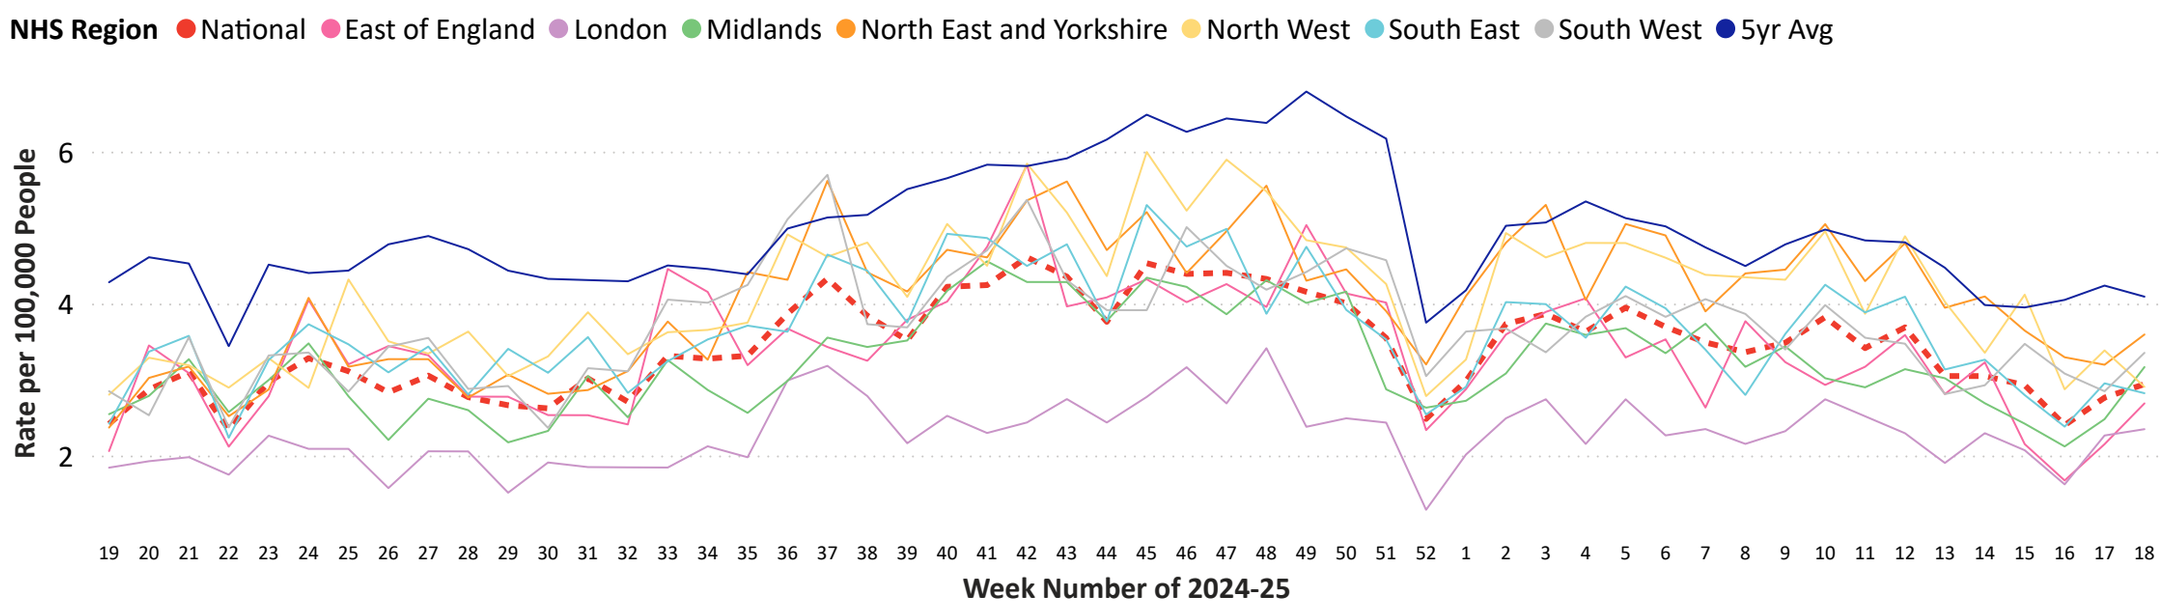

5. Surveillance of Skin Contagions by Region for 2024-25:

Skin symptoms: national incidence by region by week

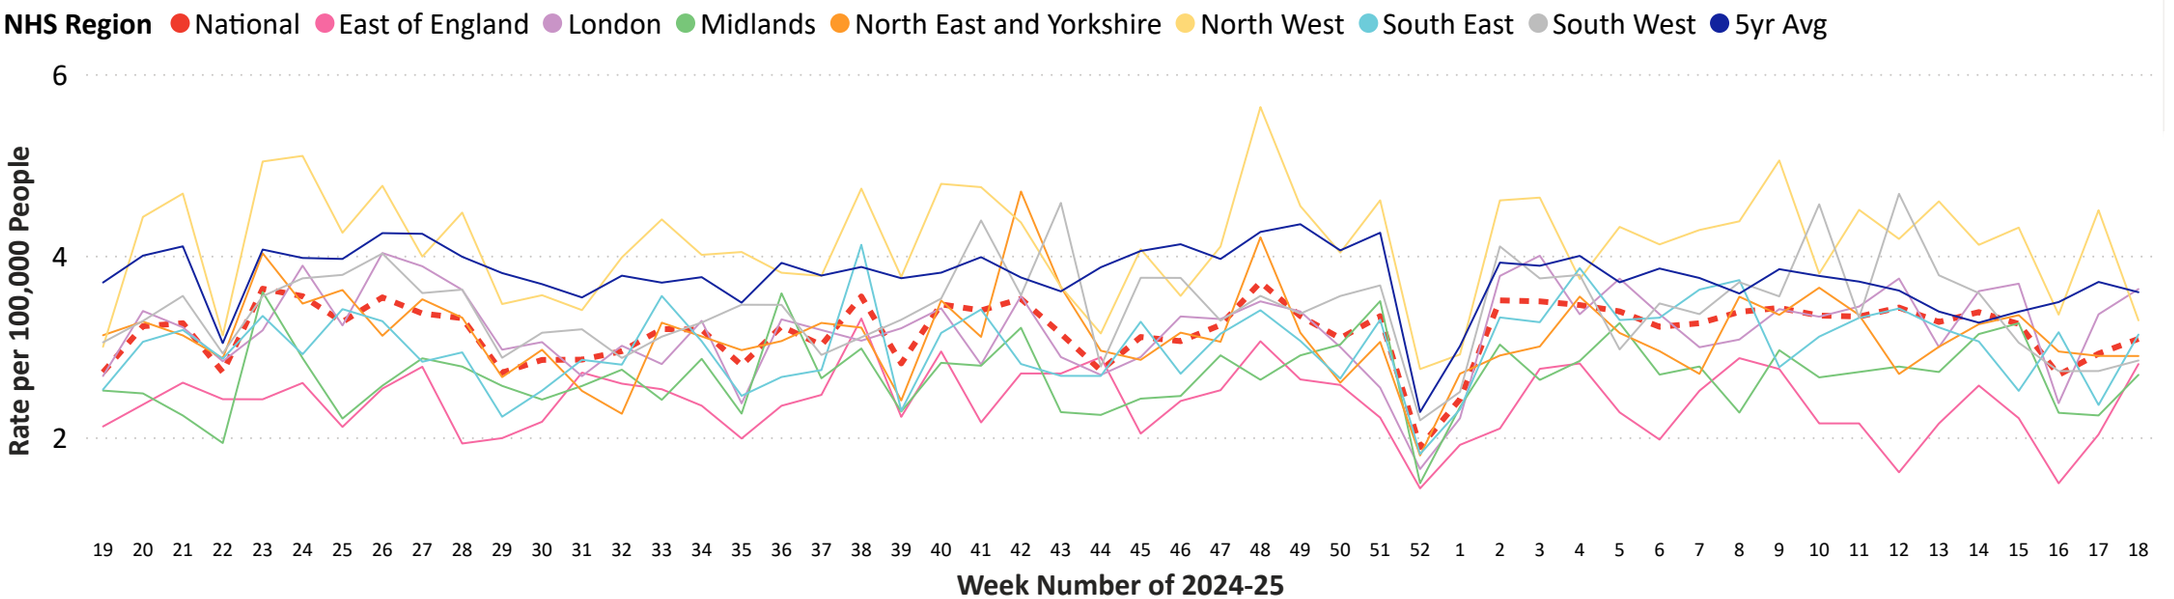

Impetigo: national incidence by region by week

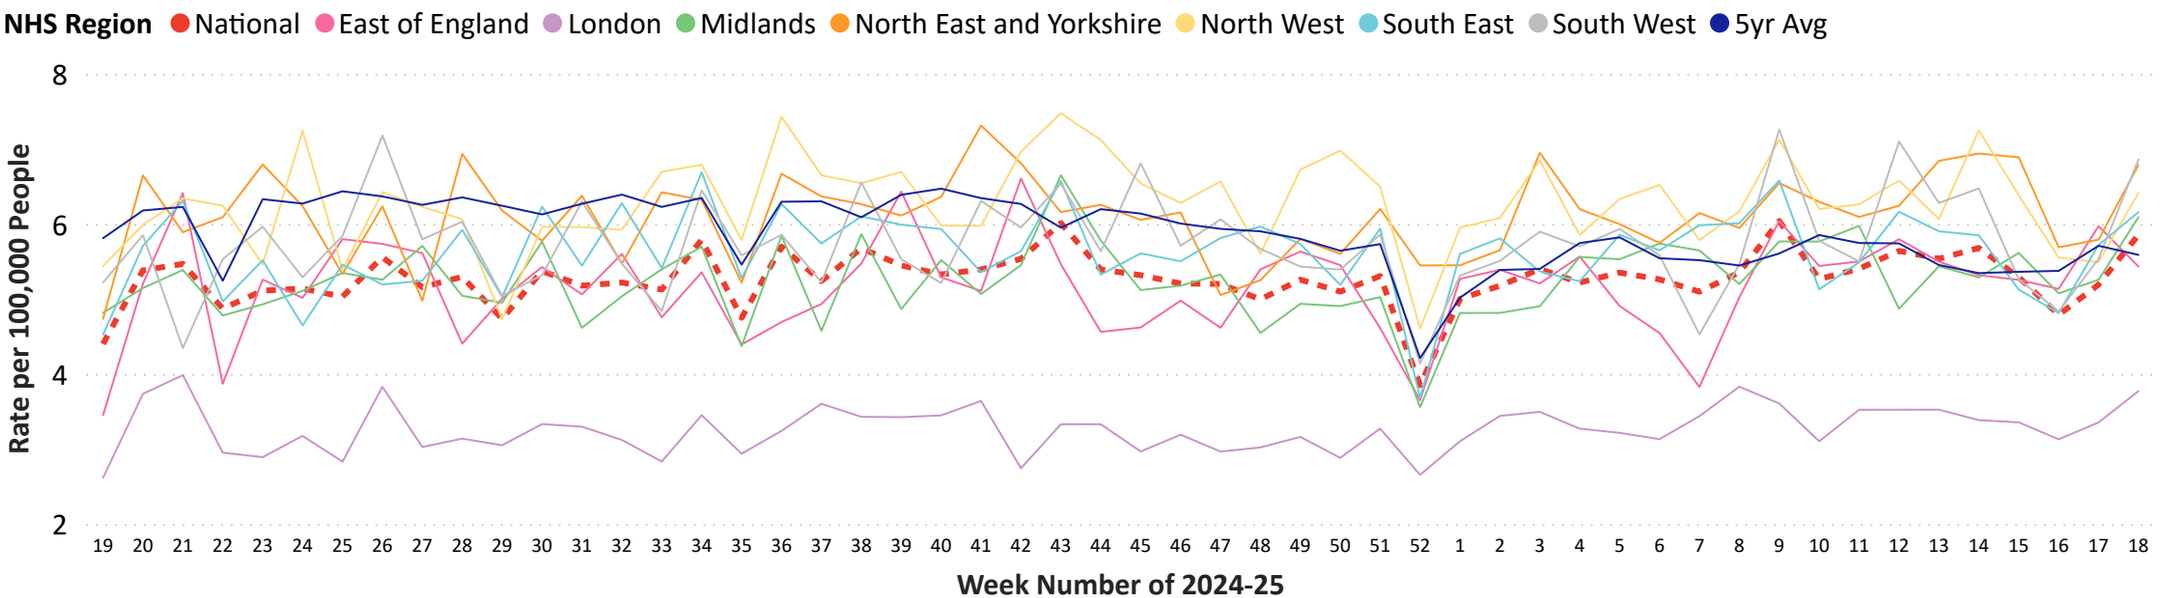

5. Surveillance of Skin Contagions by Region for 2024-25:

Herpes Simplex: national incidence by region by week

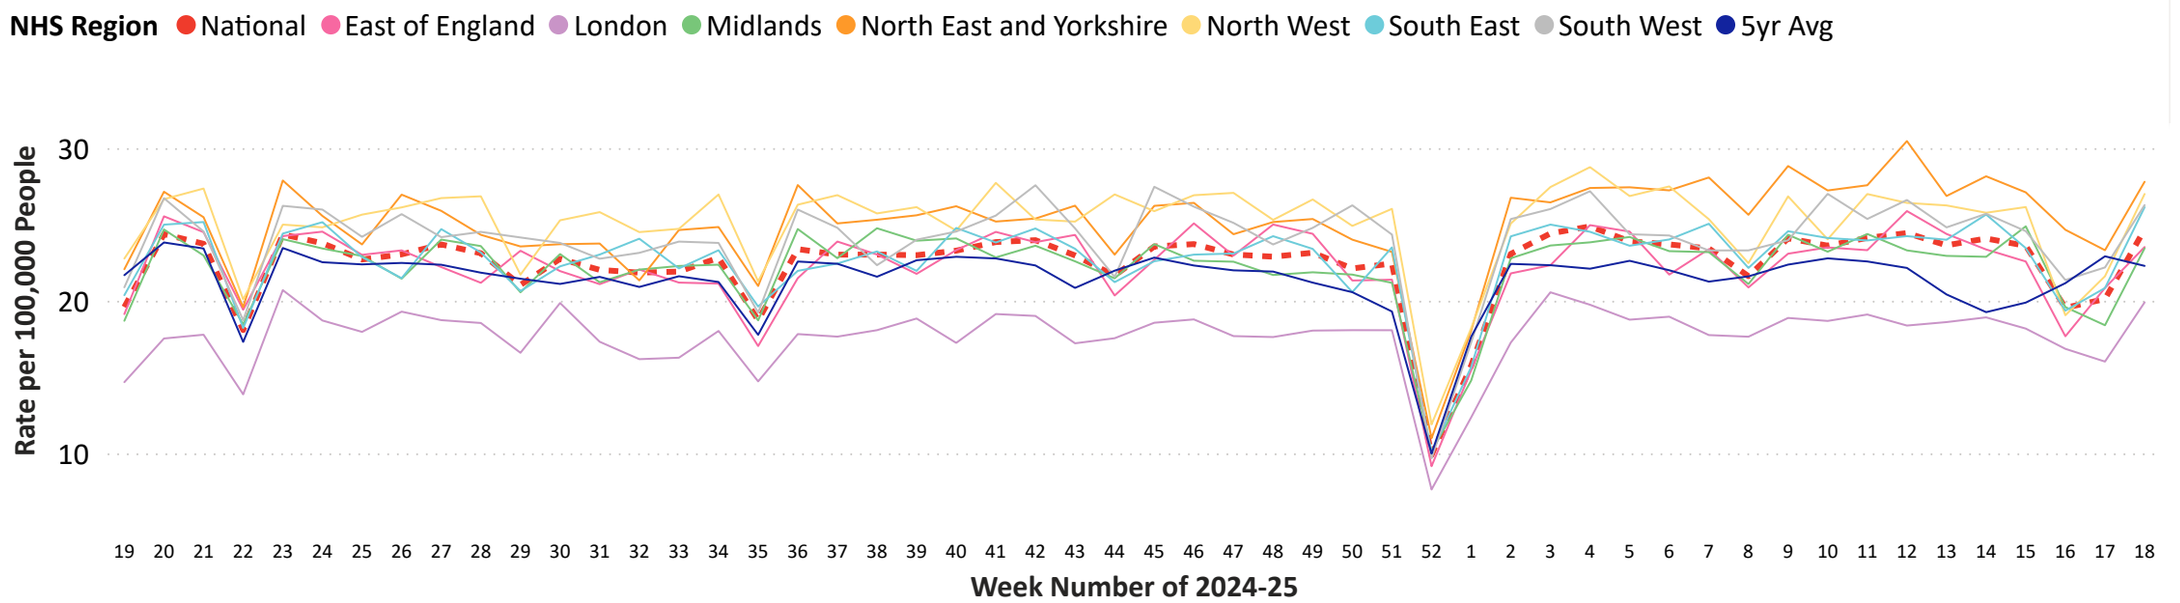

Herpes Zoster: national incidence by region by week

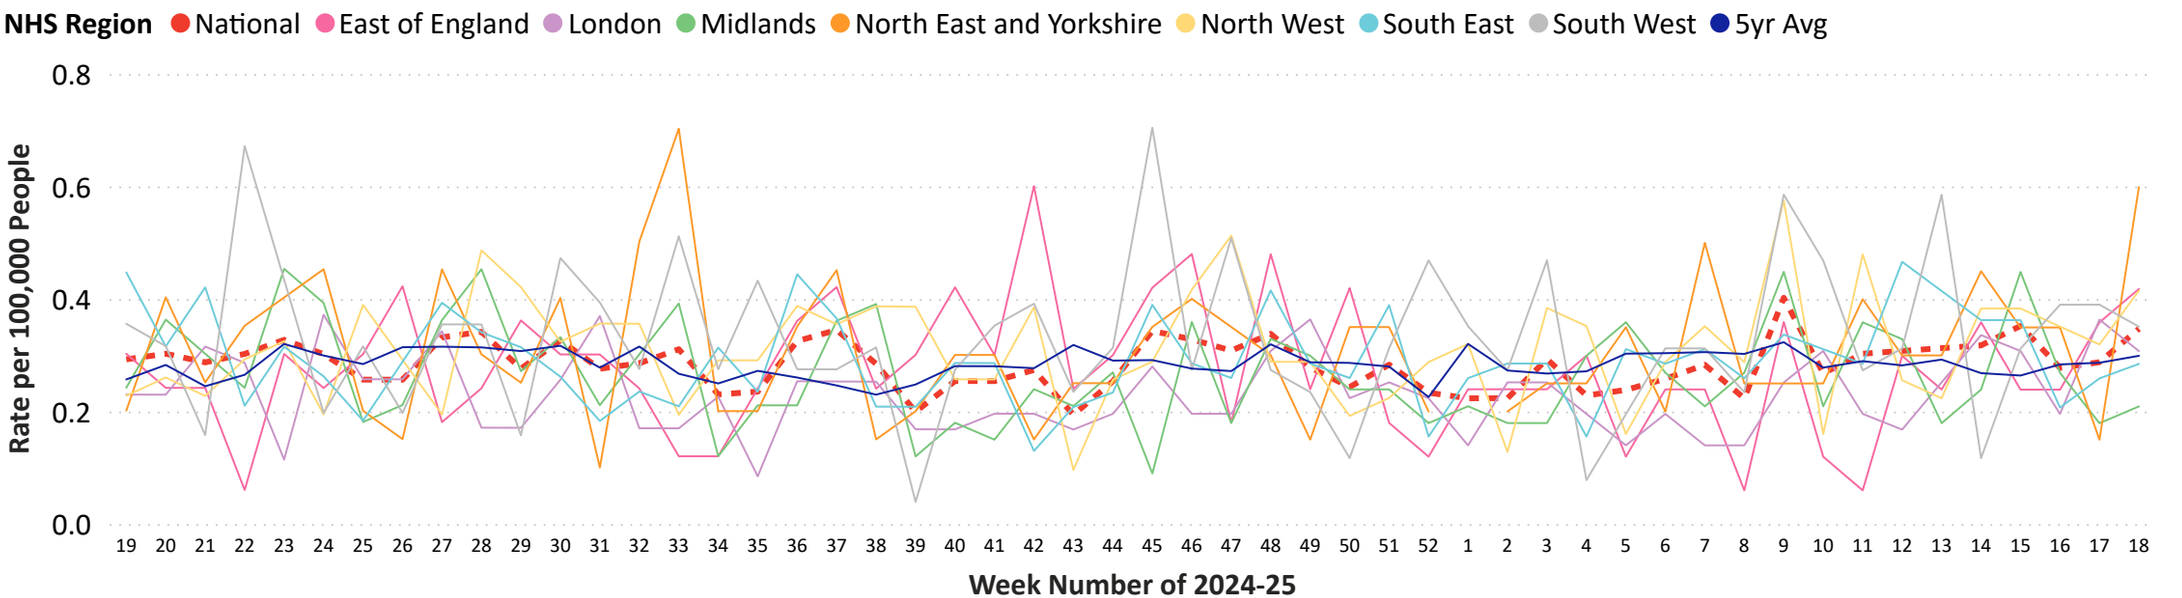

6. Surveillance of Disorders Affecting the Nervous System by Region for 2024-25:

Peripheral Neuropathy: national incidence by region by week

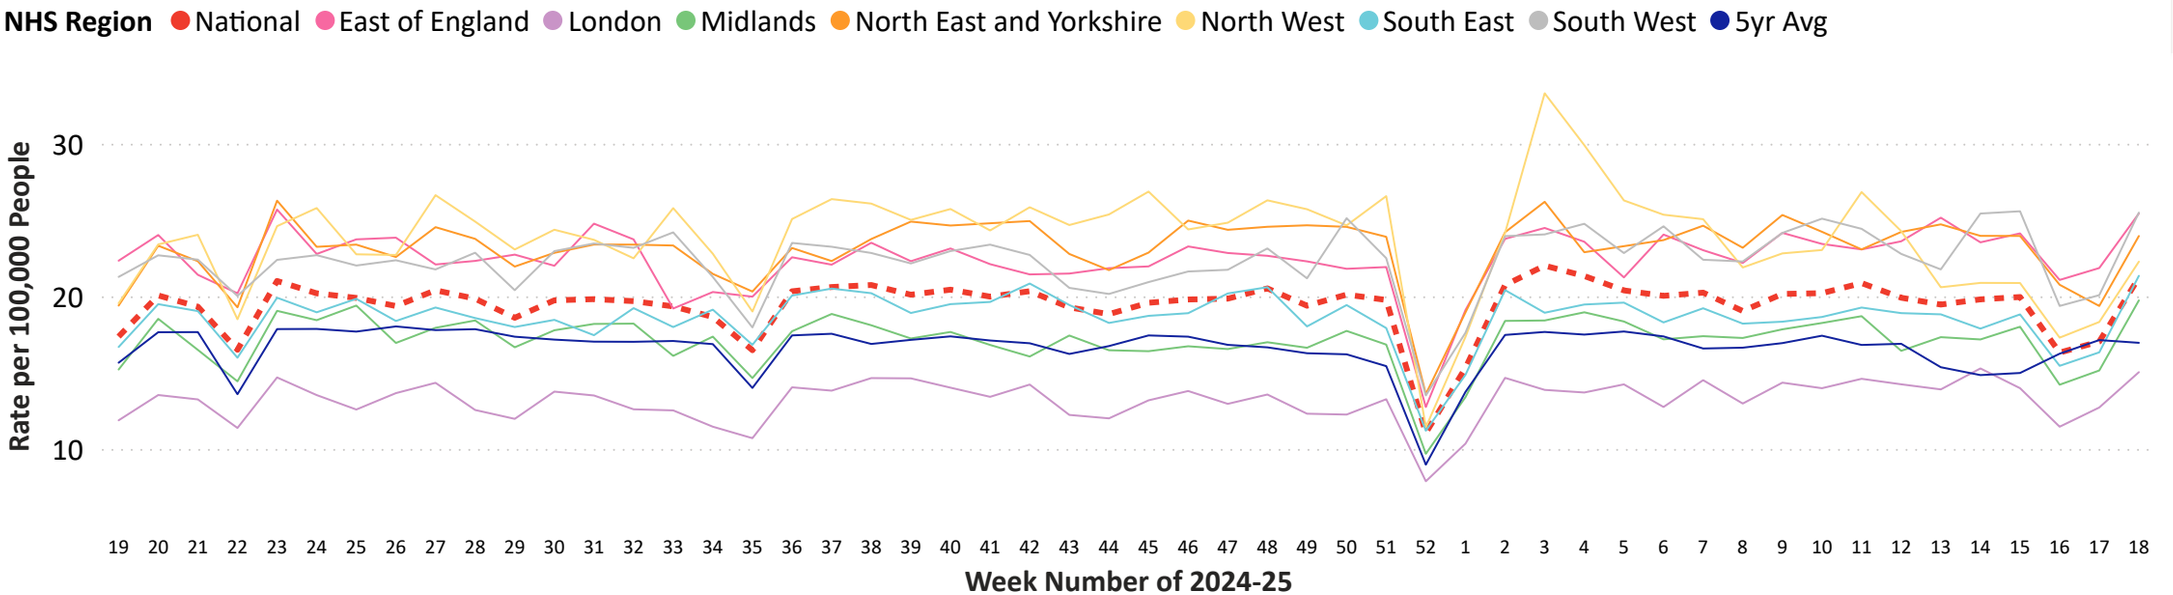

Meningitis / Encephalitis: national incidence by region by week

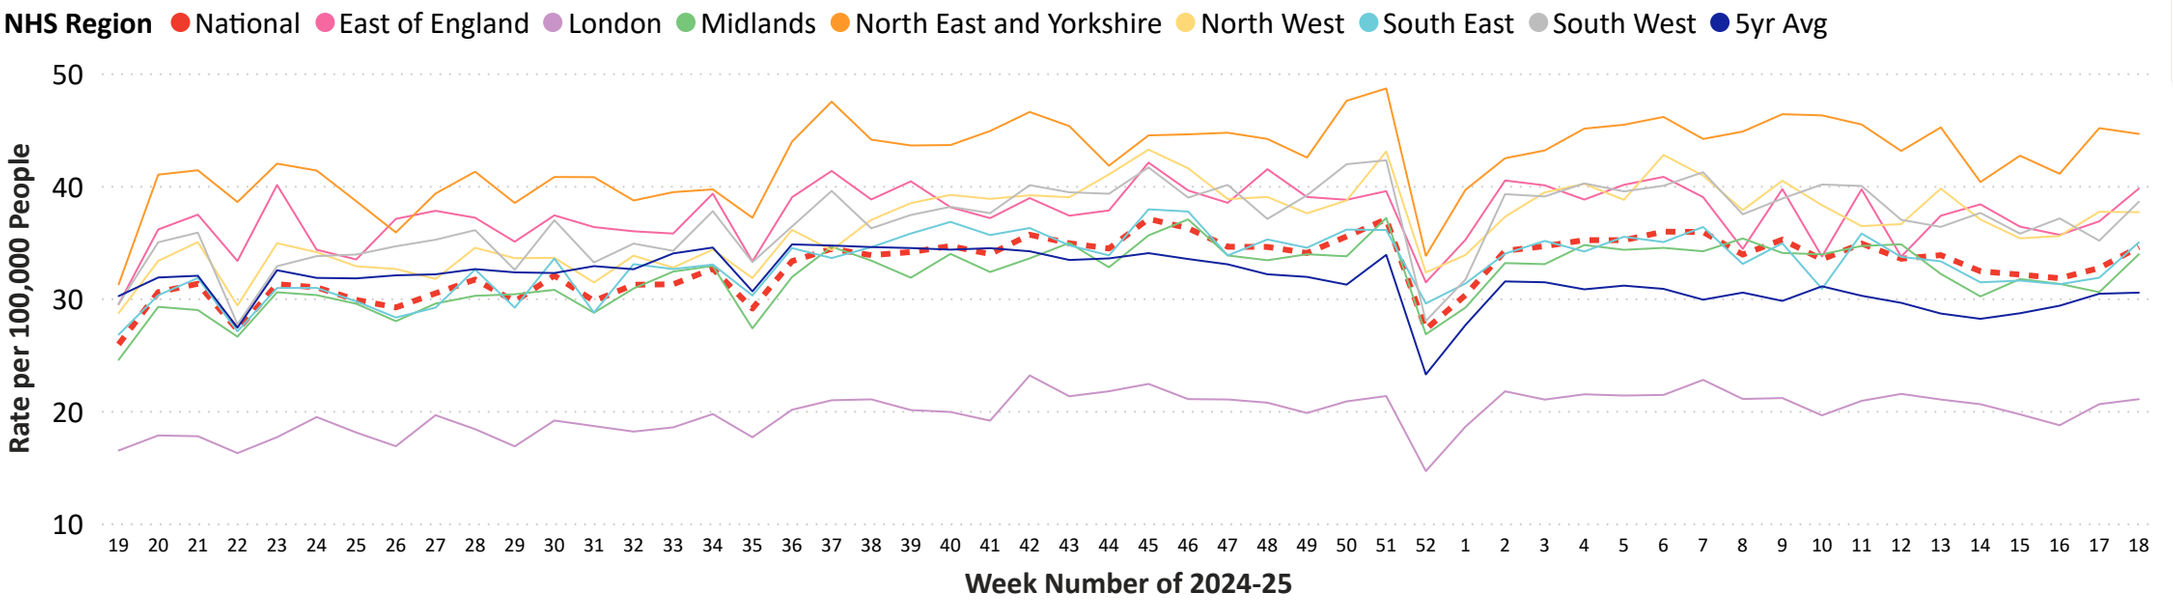

6. Surveillance of Disorders Affecting the Nervous System by Region for 2024-25:

Musculoskeletal symptoms: national incidence by region by week

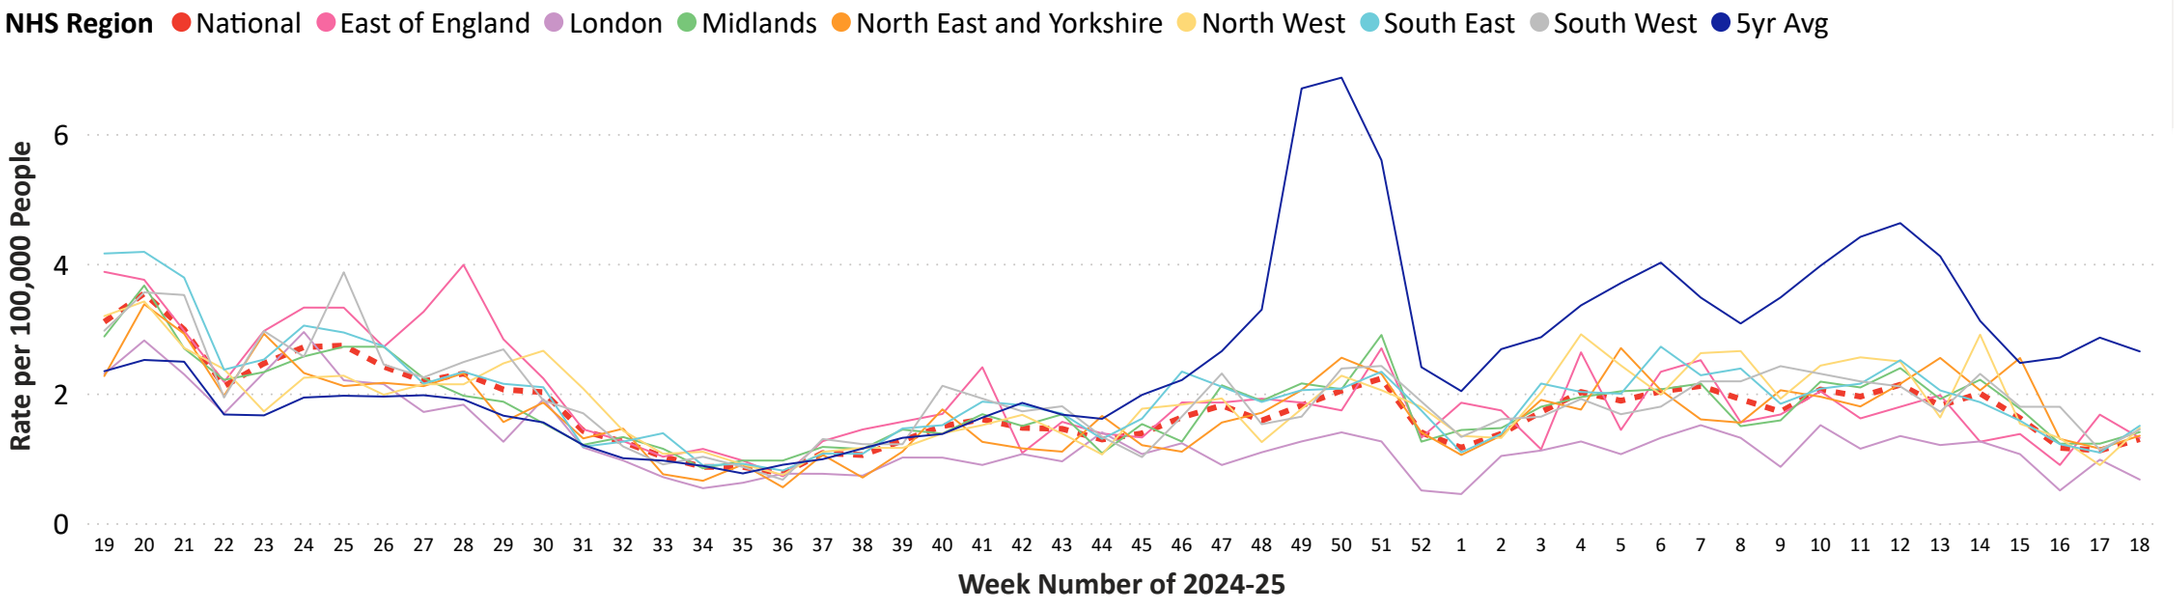

7. Surveillance of Genitourinary System Disorders by Region for 2024-25:

Urinary Tract Infections: national incidence by region by week

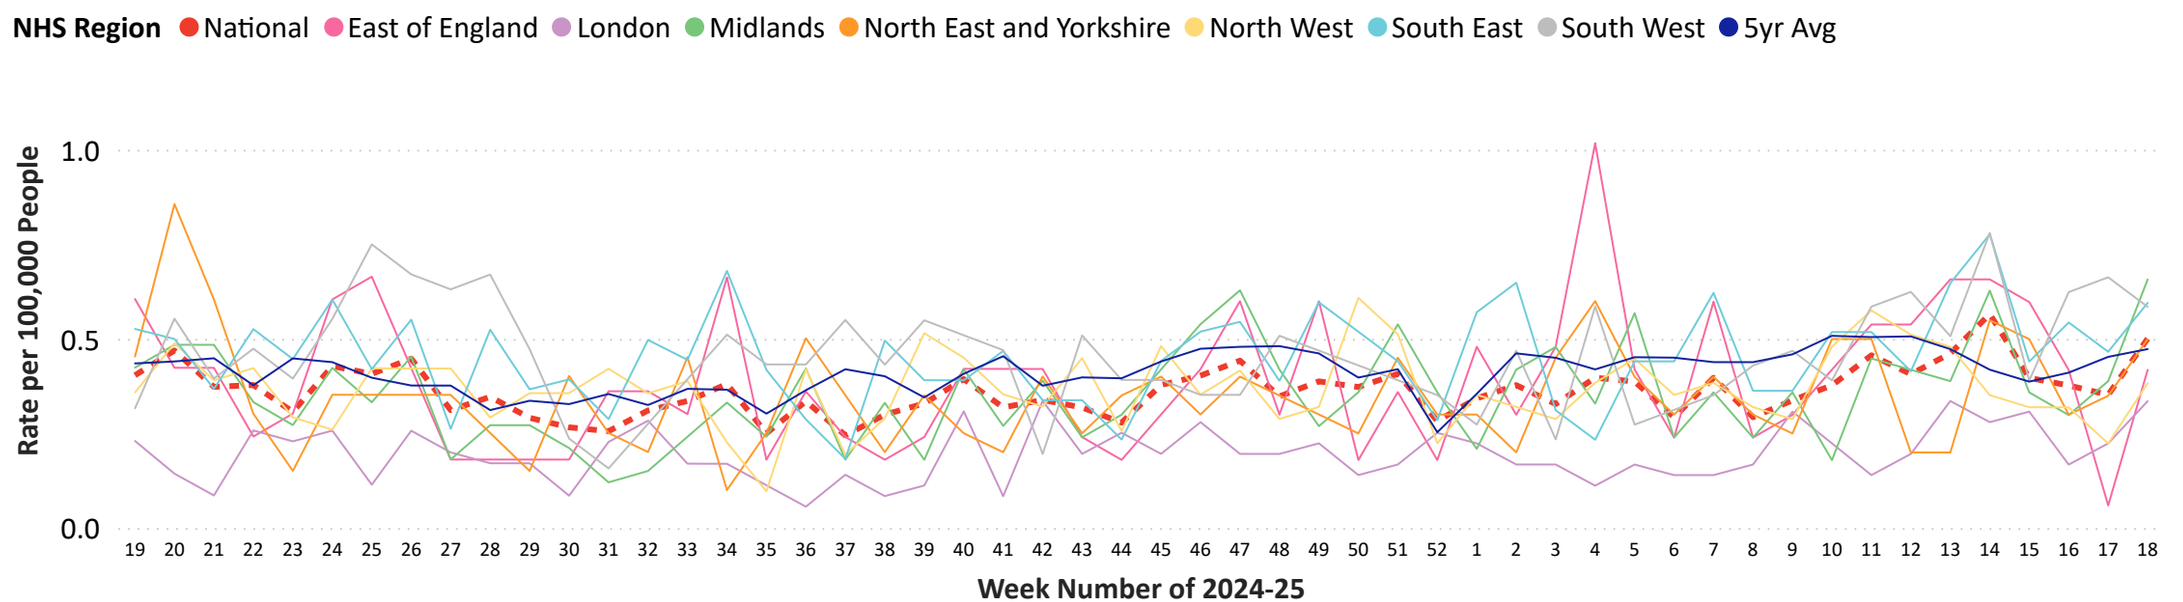

8. Surveillance of Other Disorders by Region for 2024-25:

Strep throat / peritonsillar abscess: national incidence by region by week

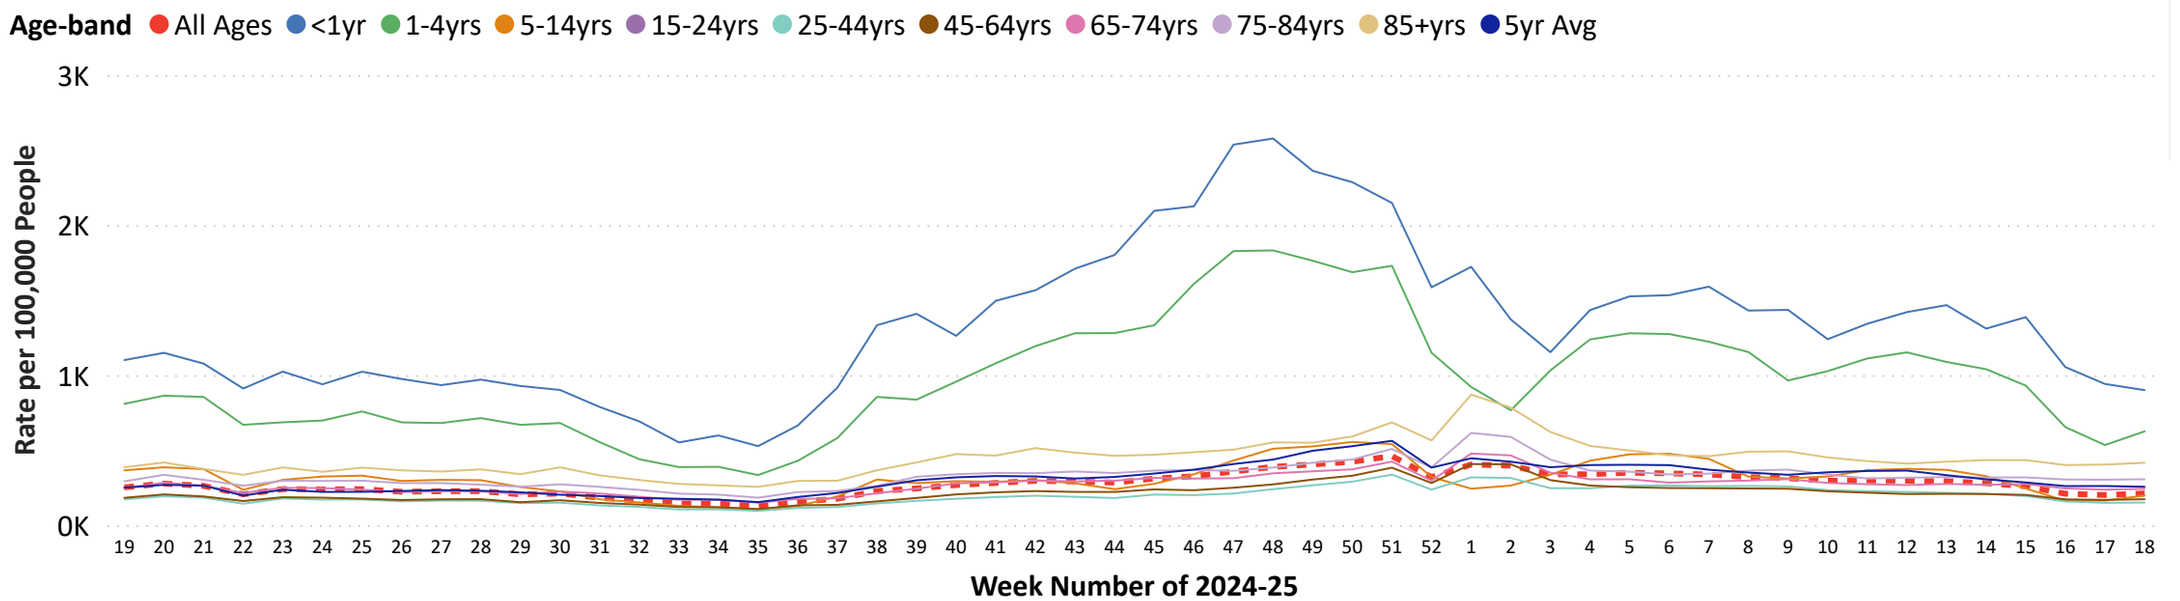

Infectious Mononucleosis: national incidence by region by week

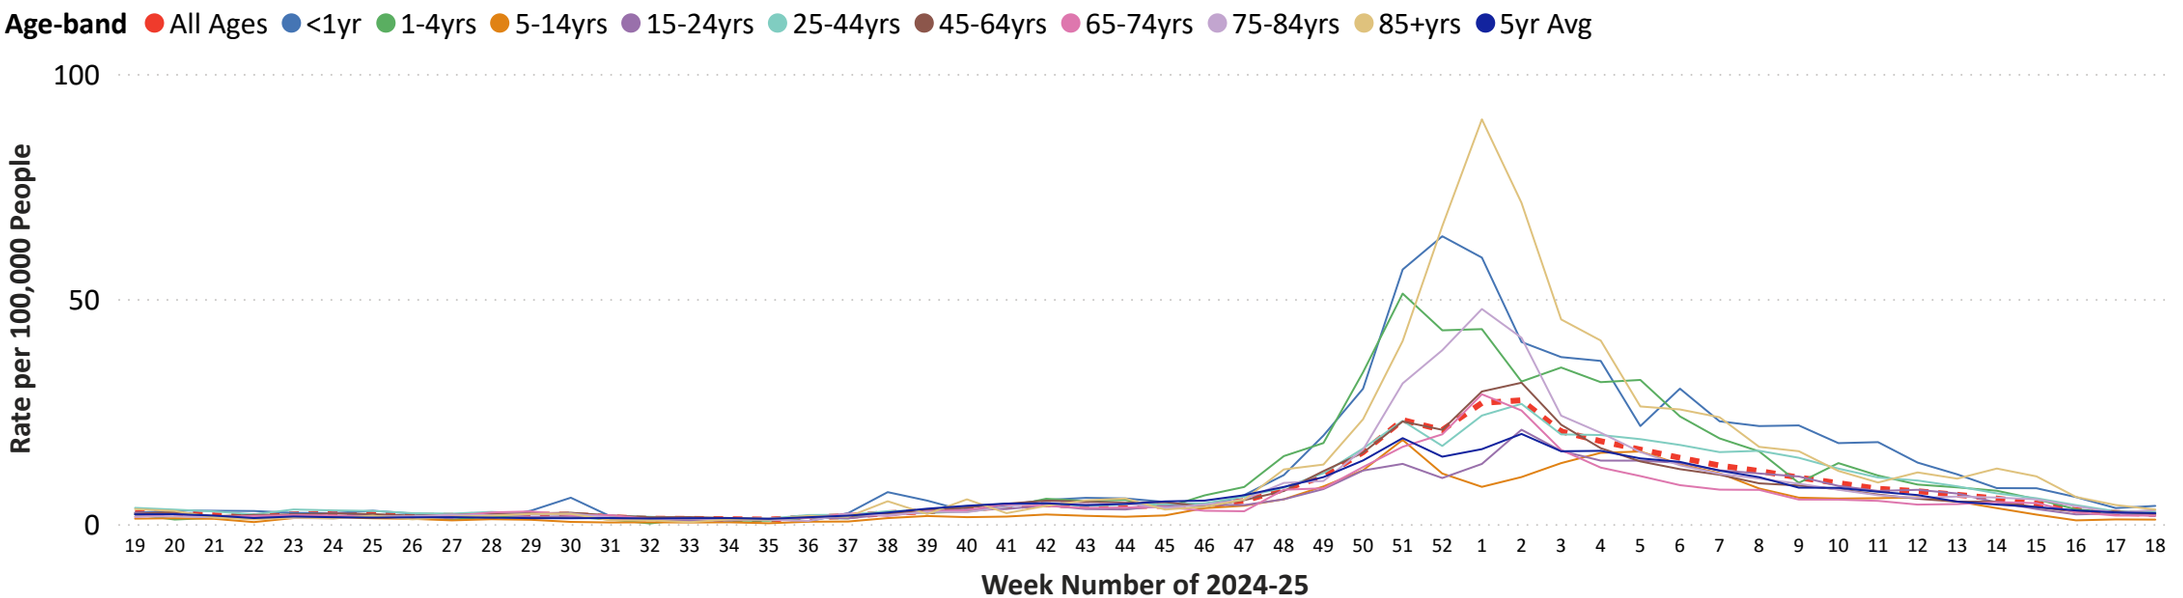

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

Acute Respiratory Infections (ARI): national incidence by age-band by week

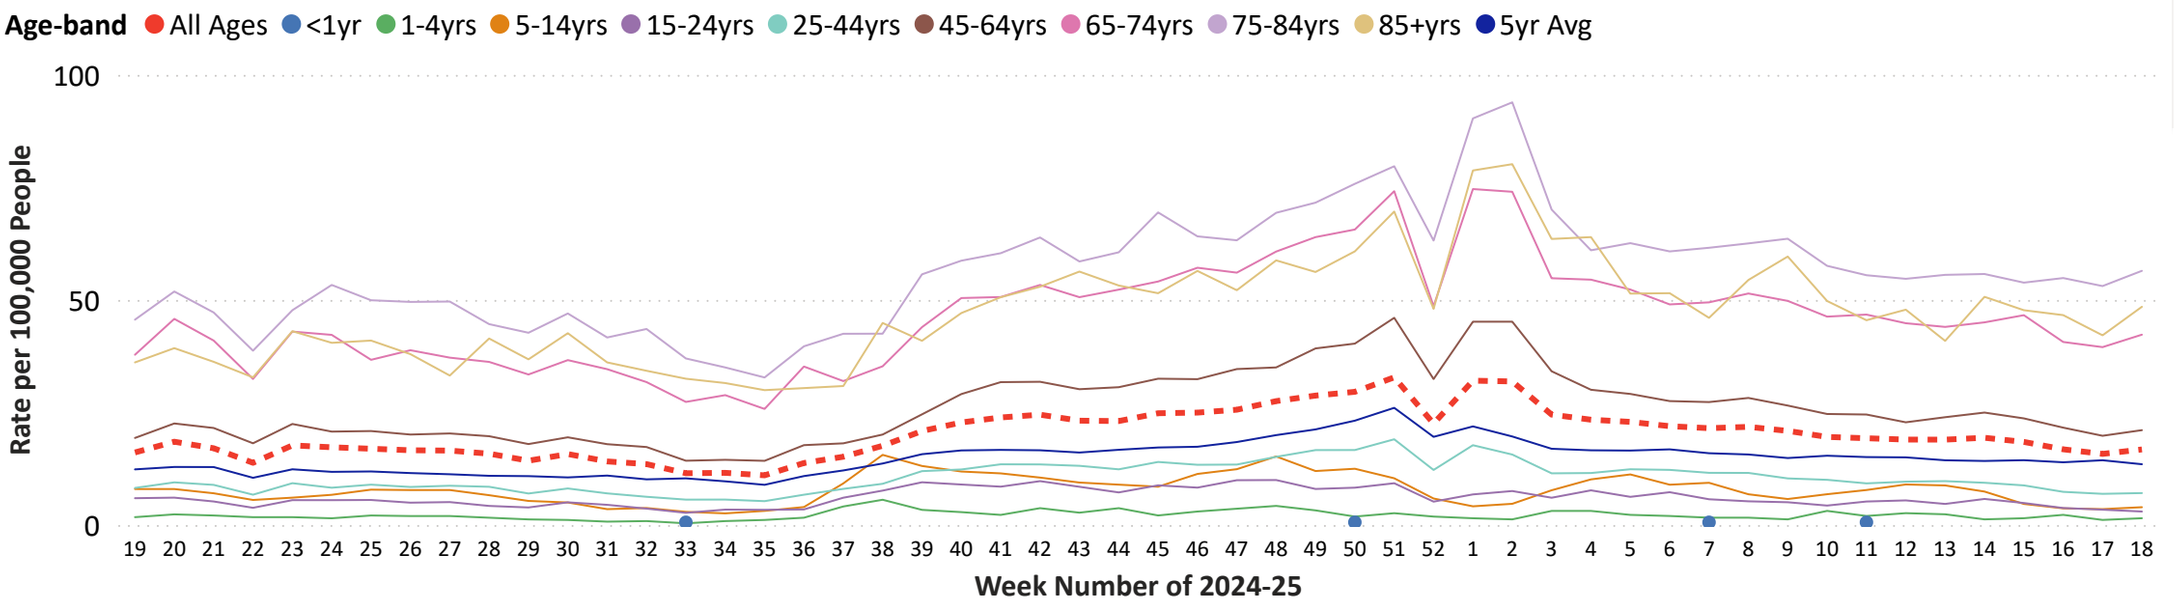

Influenza-like illness (ILI): national incidence by age-band by week

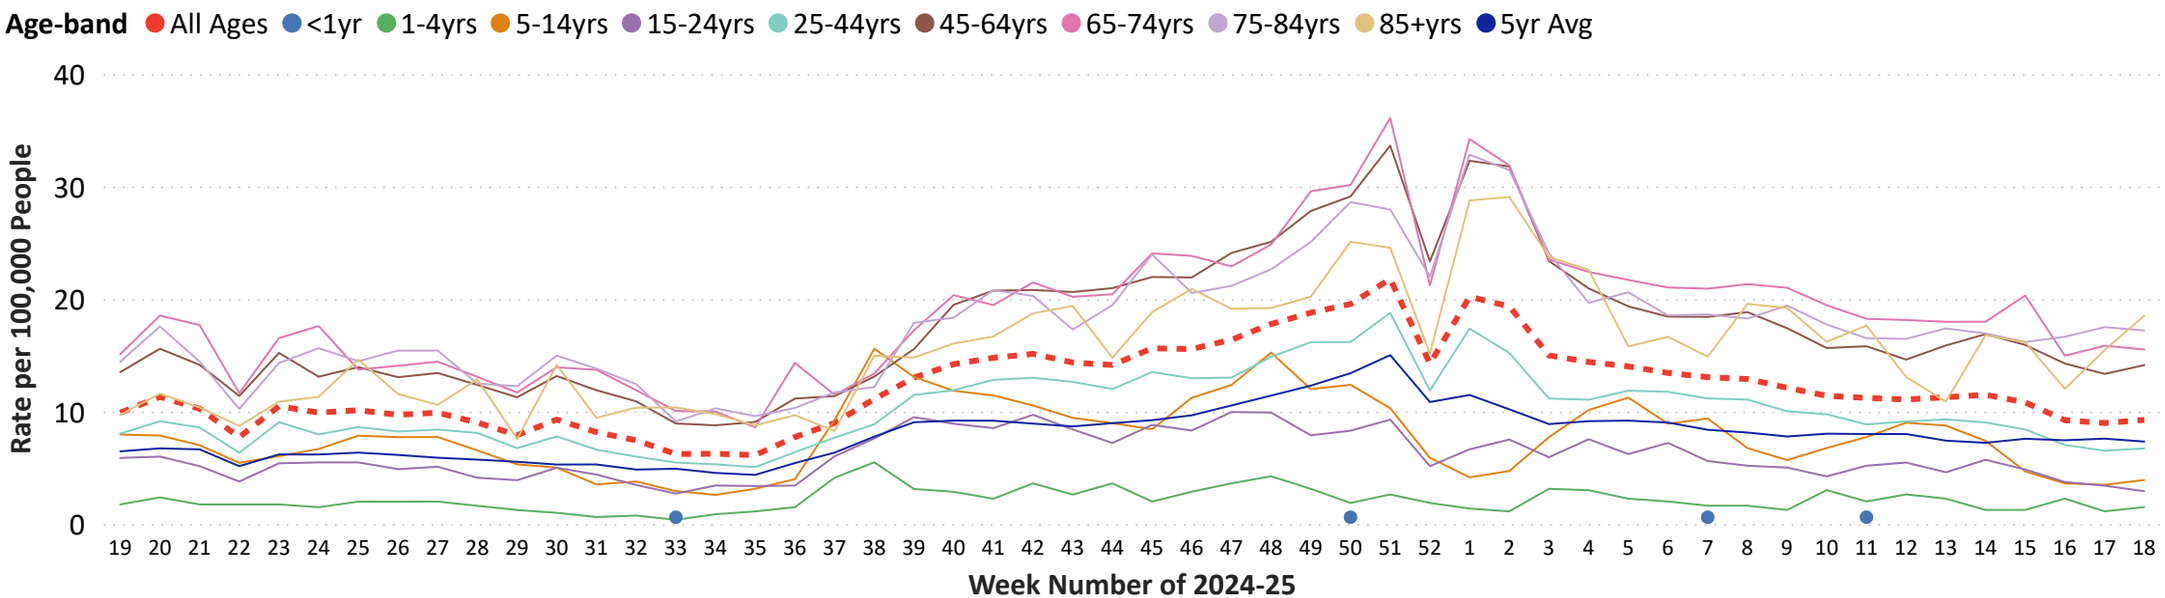

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

Exacerbations of chronic lung disease (ECLD): national incidence by age-band by week

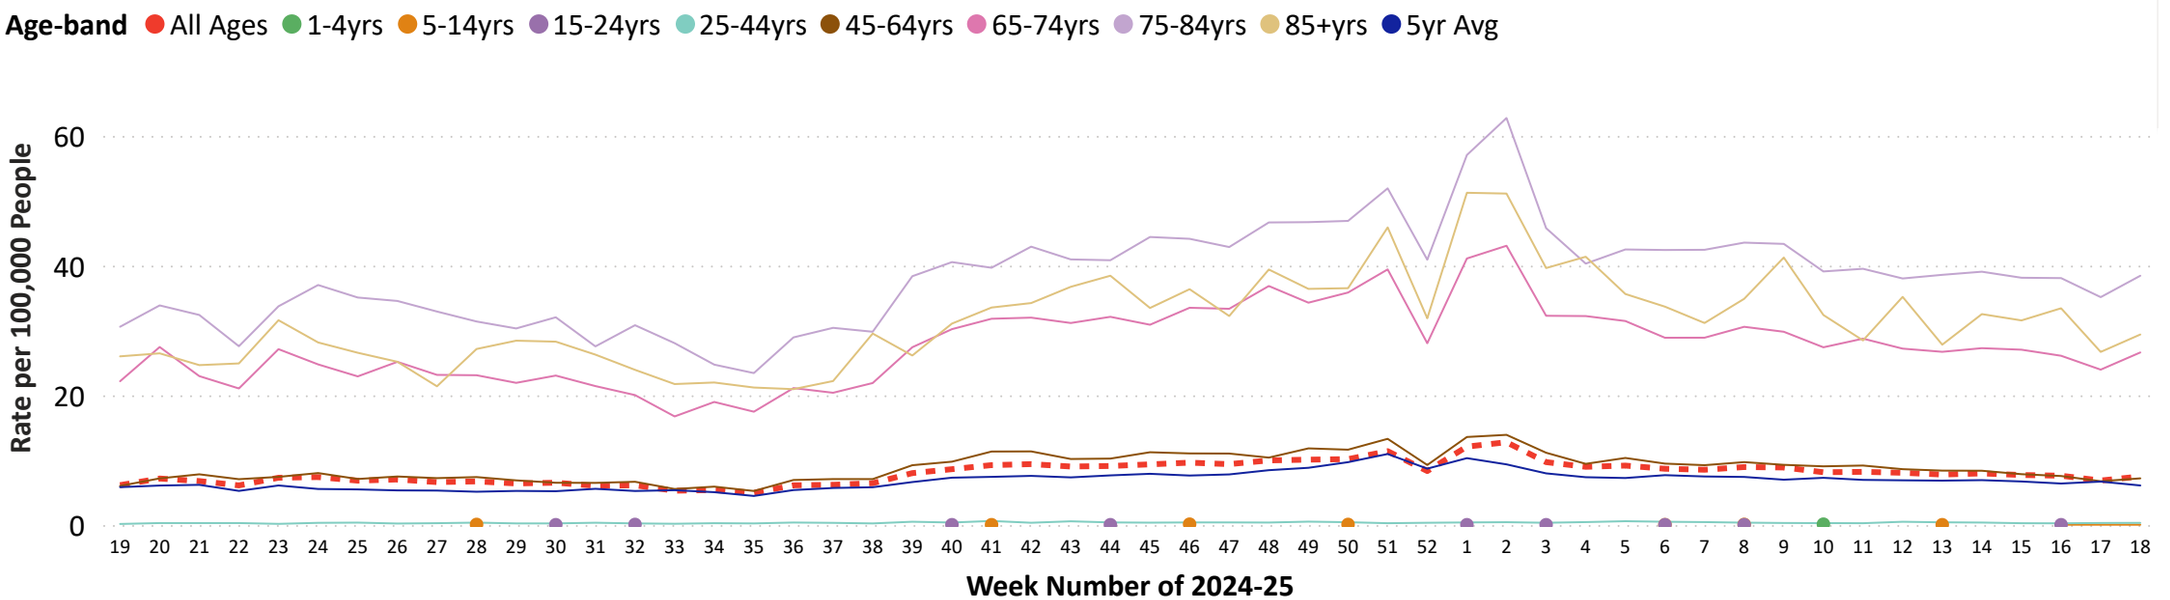

ECLD - Asthma Exacerbations: national incidence by age-band by week

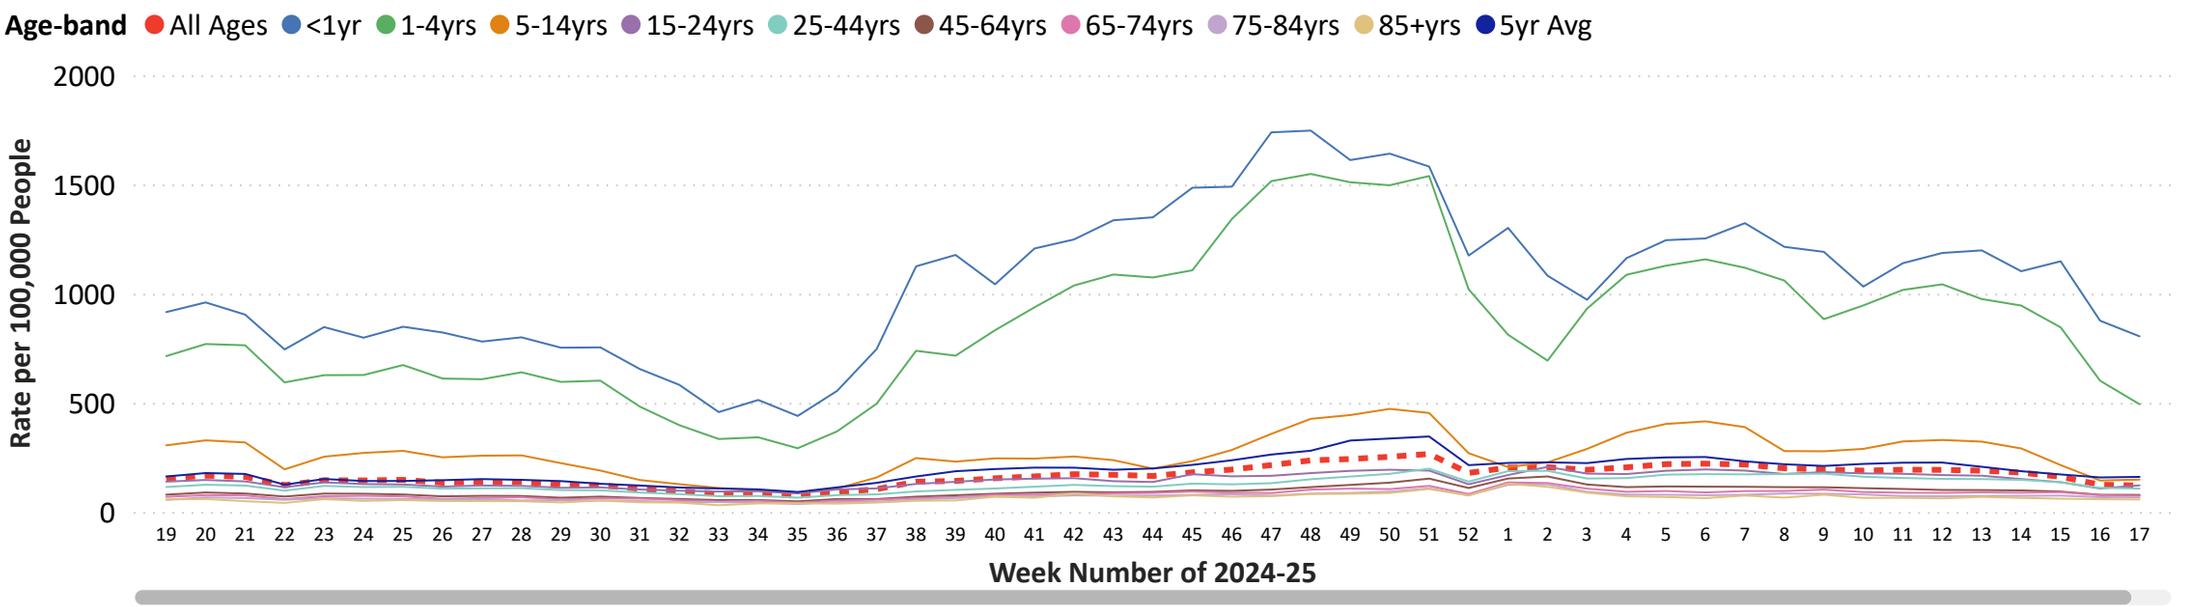

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

ECLD - COPD Exacerbations: national incidence by age-band by week

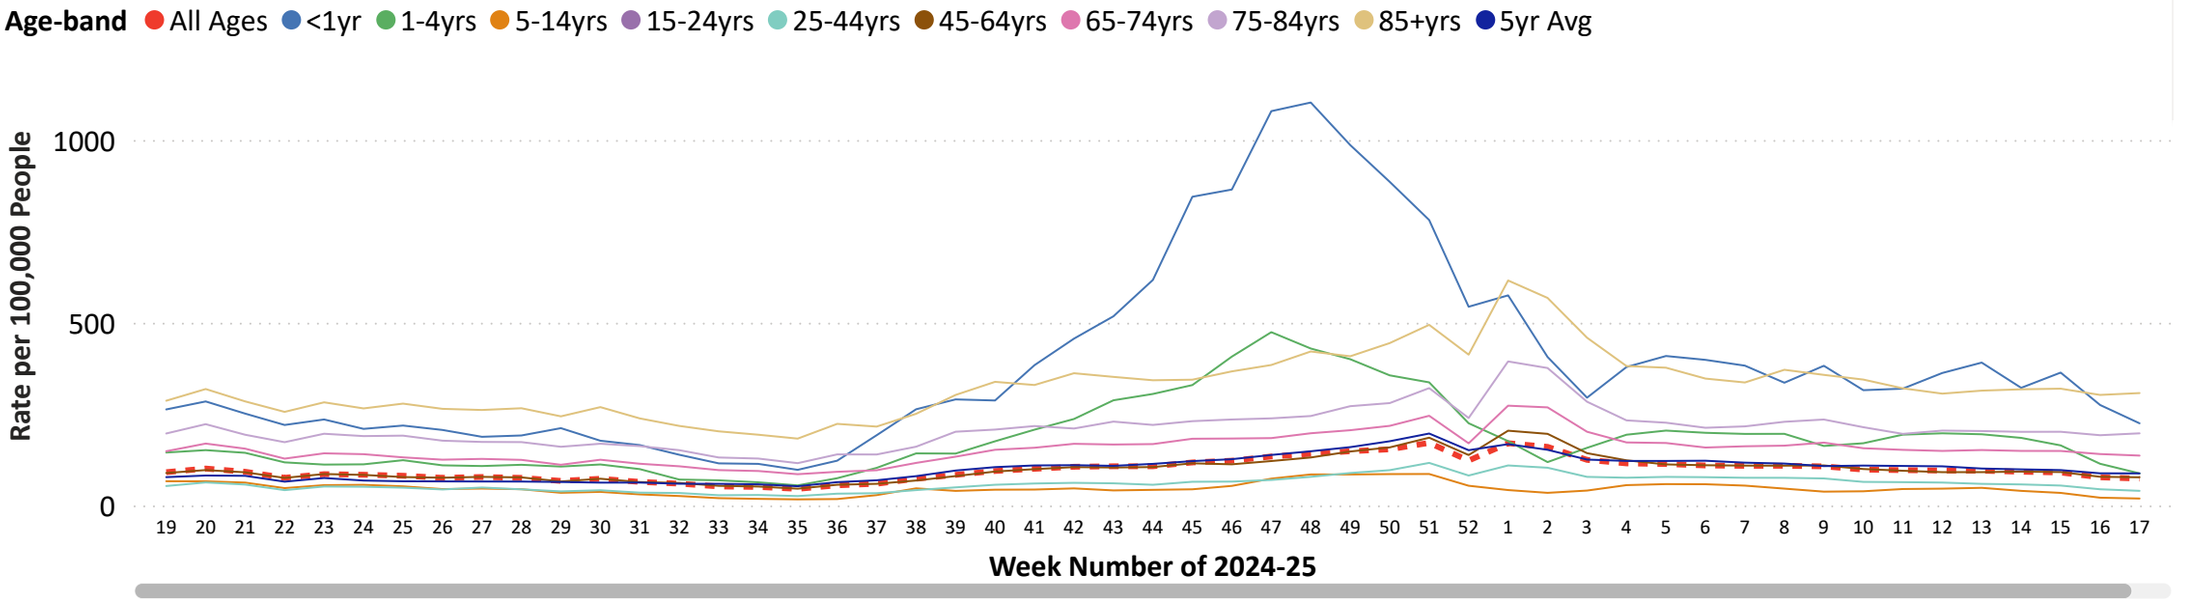

Upper respiratory tract infections (URTI): national incidence by age-band by week

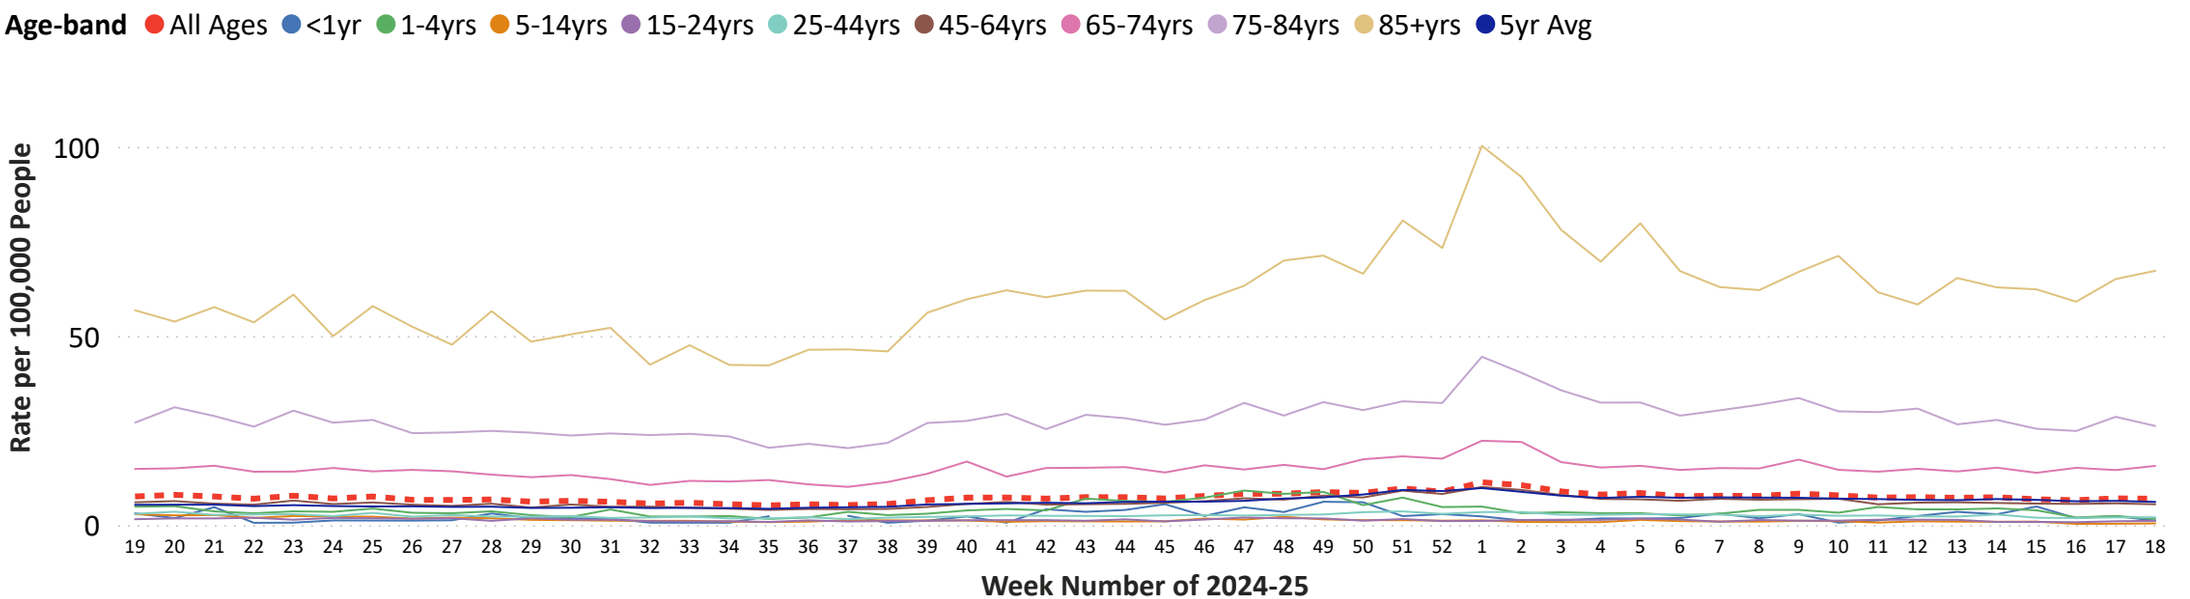

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

Lower respiratory tract infections (LRTI): national incidence by age-band by week

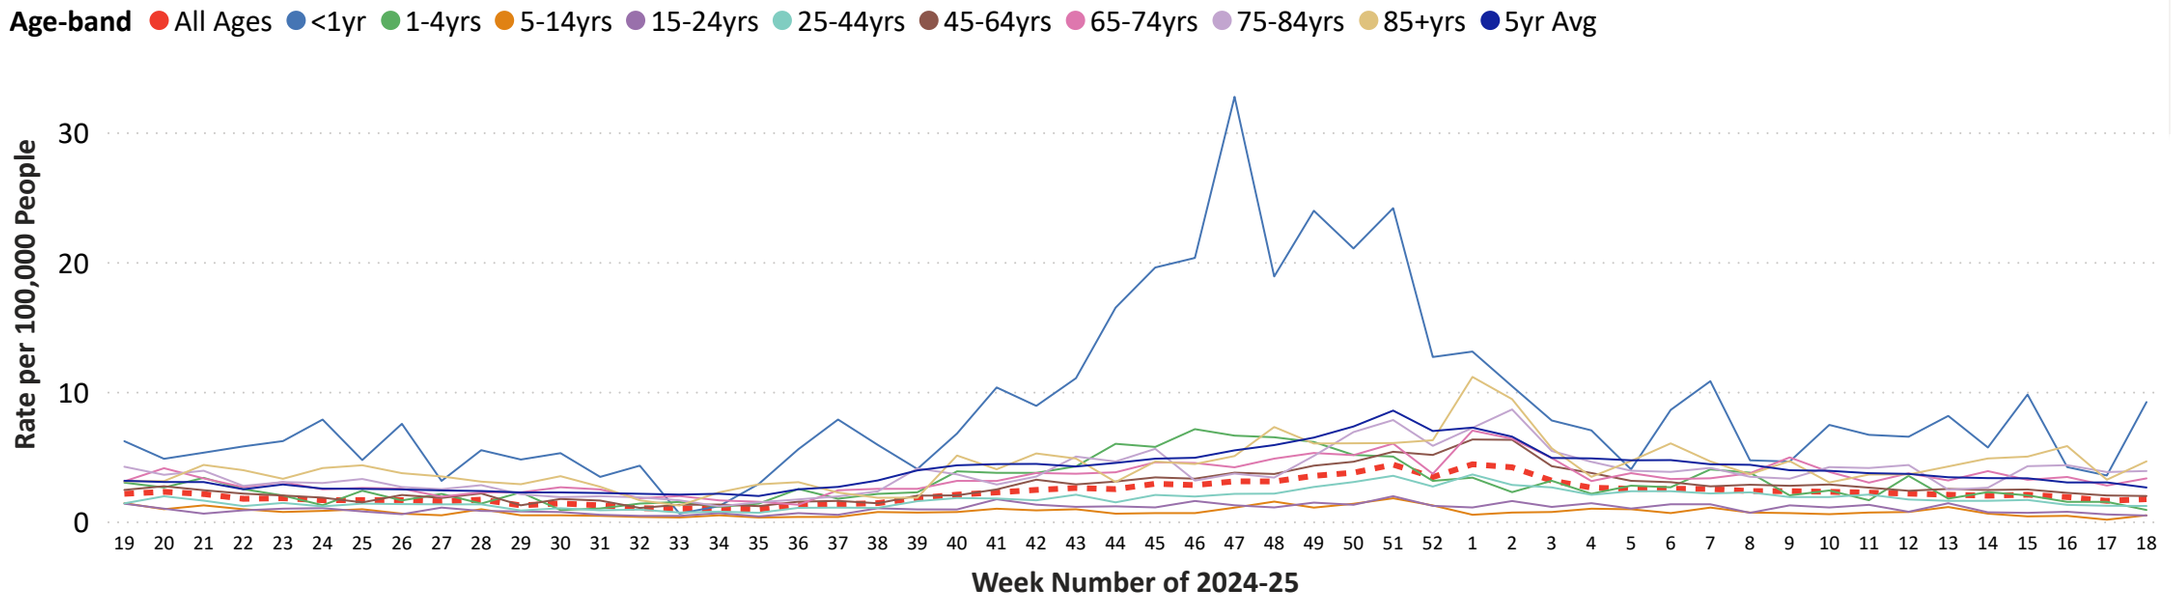

LRTI - Pneumonia: national incidence by age-band by week

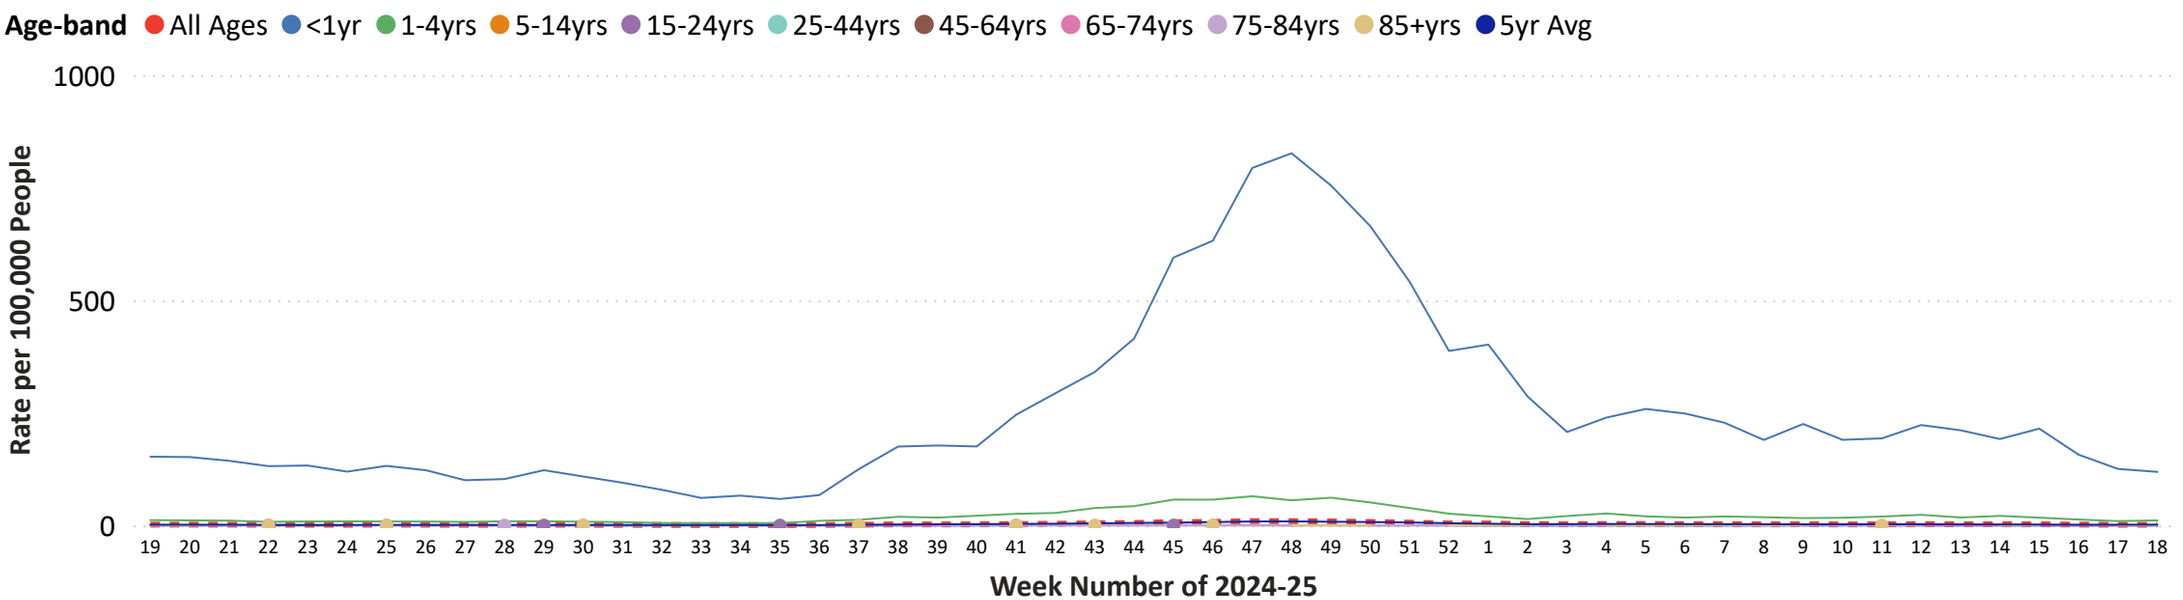

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

LRTI - Acute Bronchitis: national incidence by age-band by week

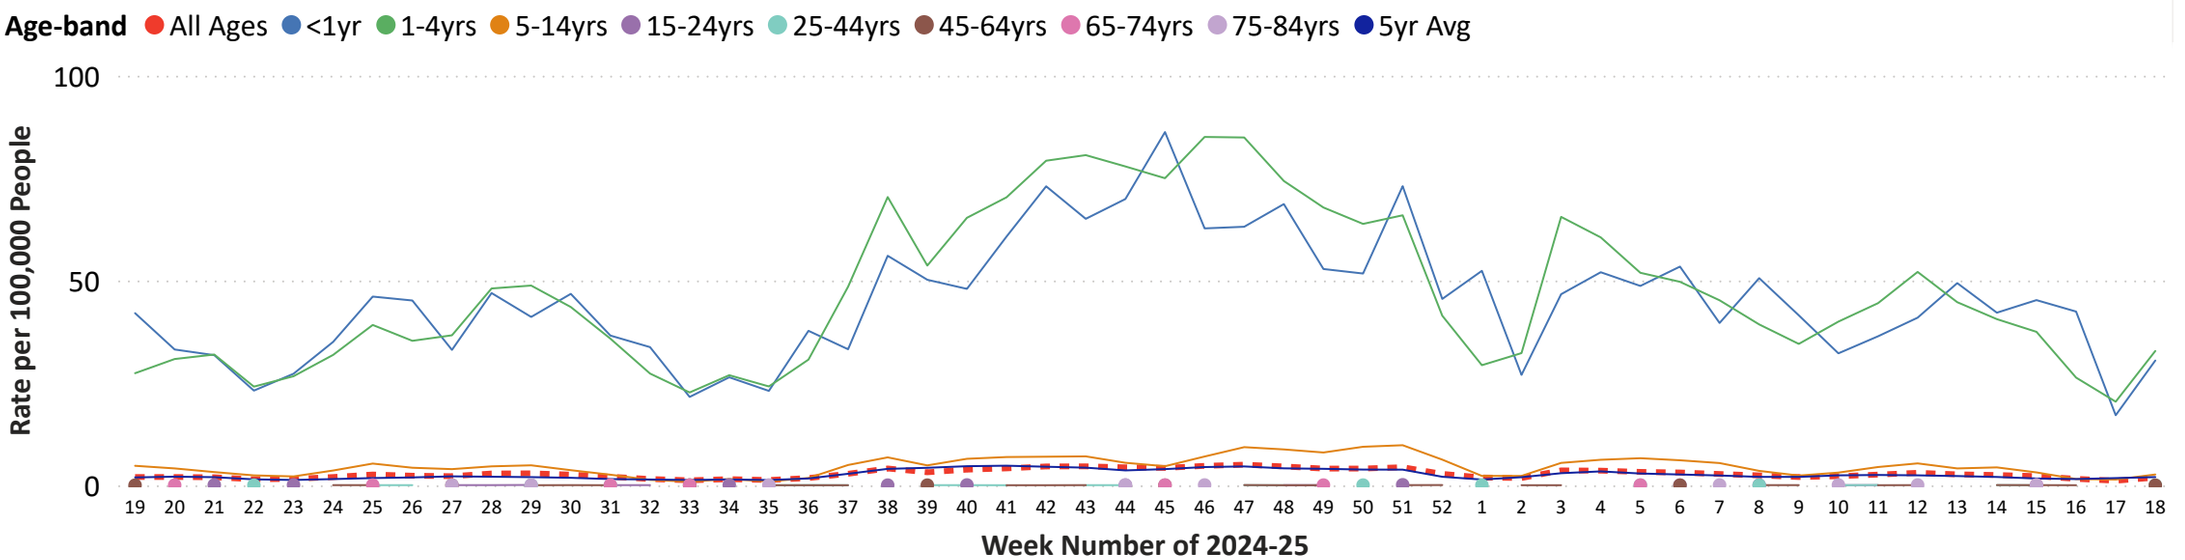

LRTI - Bronchiolitis: national incidence by age-band by week

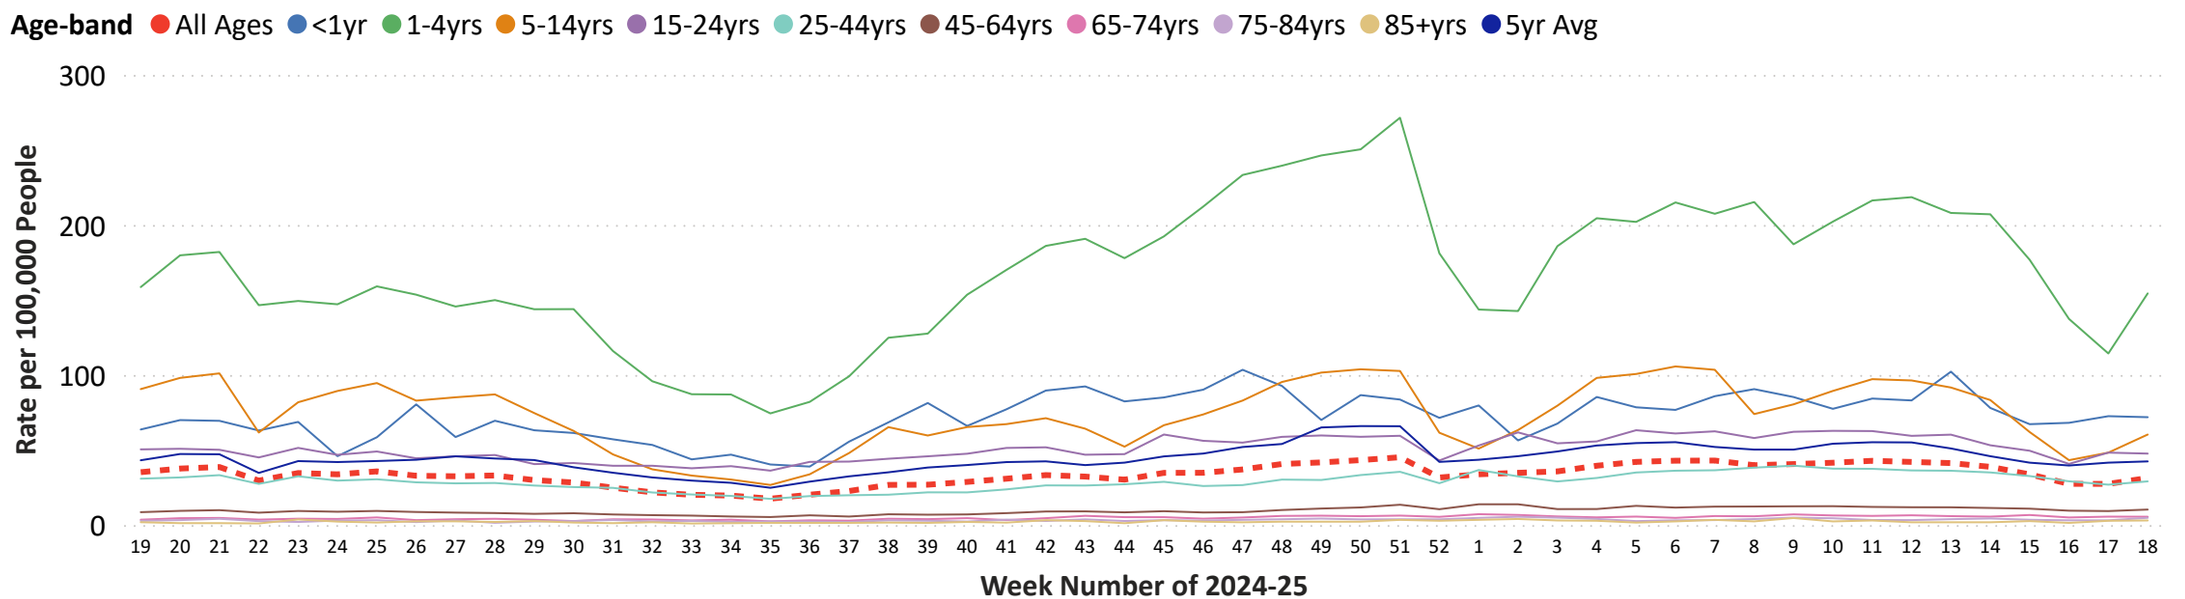

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

URTI - Croup: national incidence by age-band by week

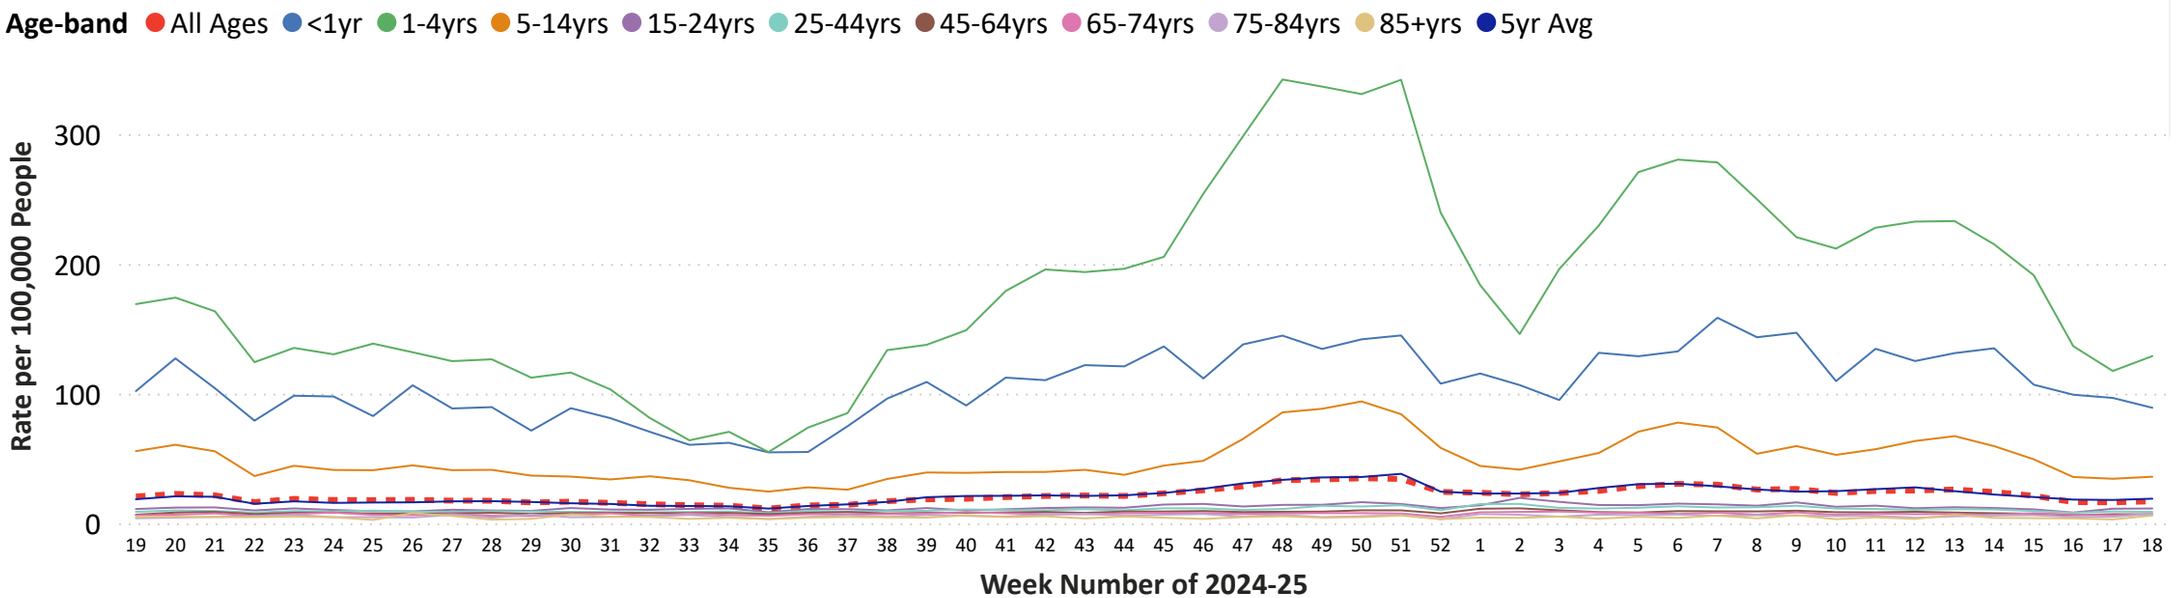

URTI - Tonsillitis/Pharyngitis: national incidence by age-band by week

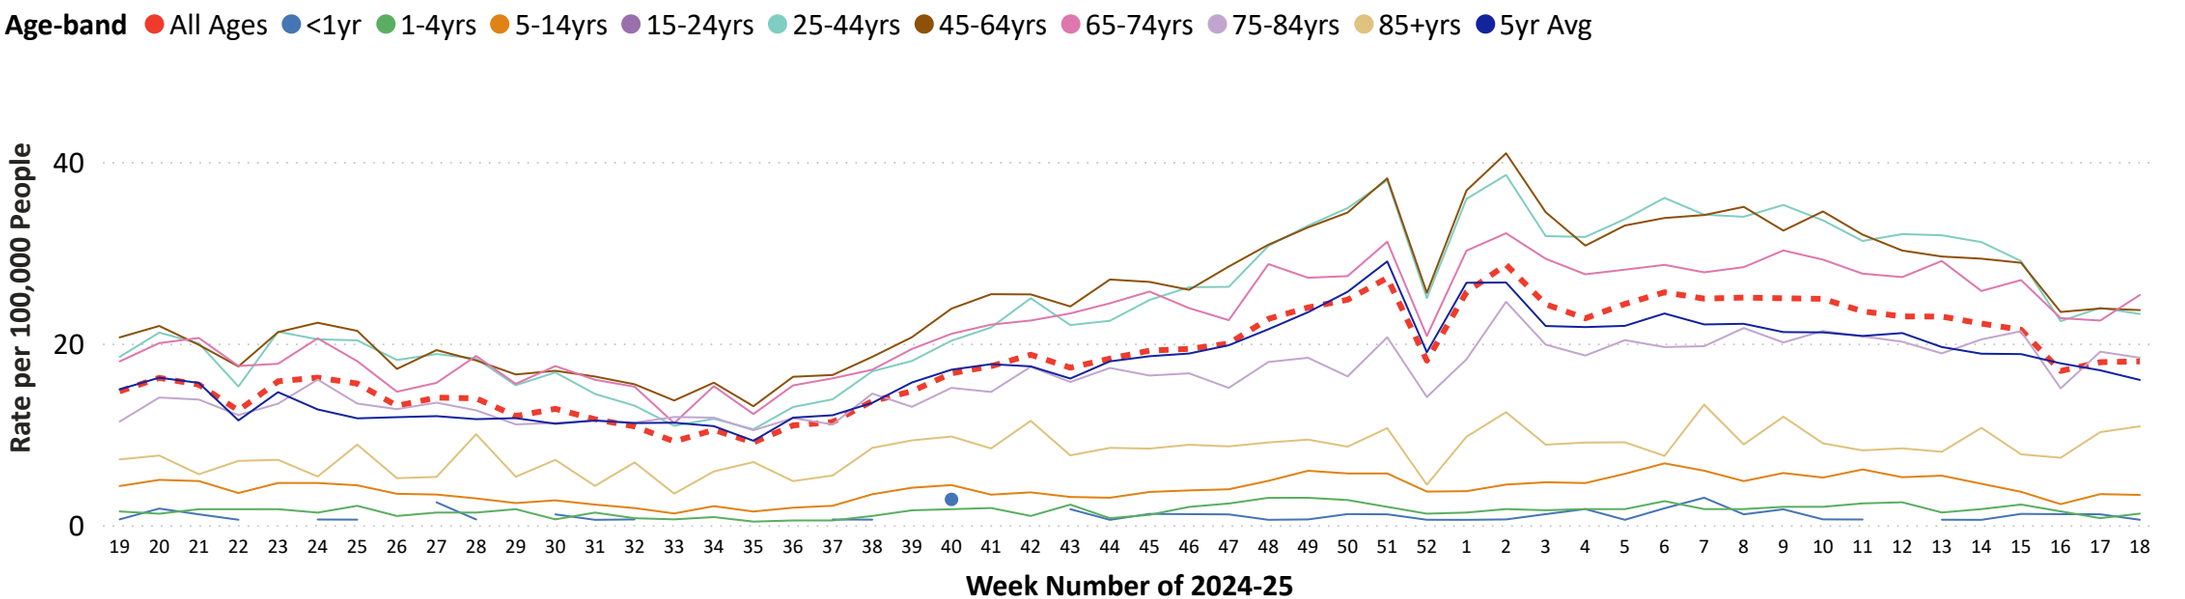

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

URTI - Otitis Media: national incidence by age-band by week

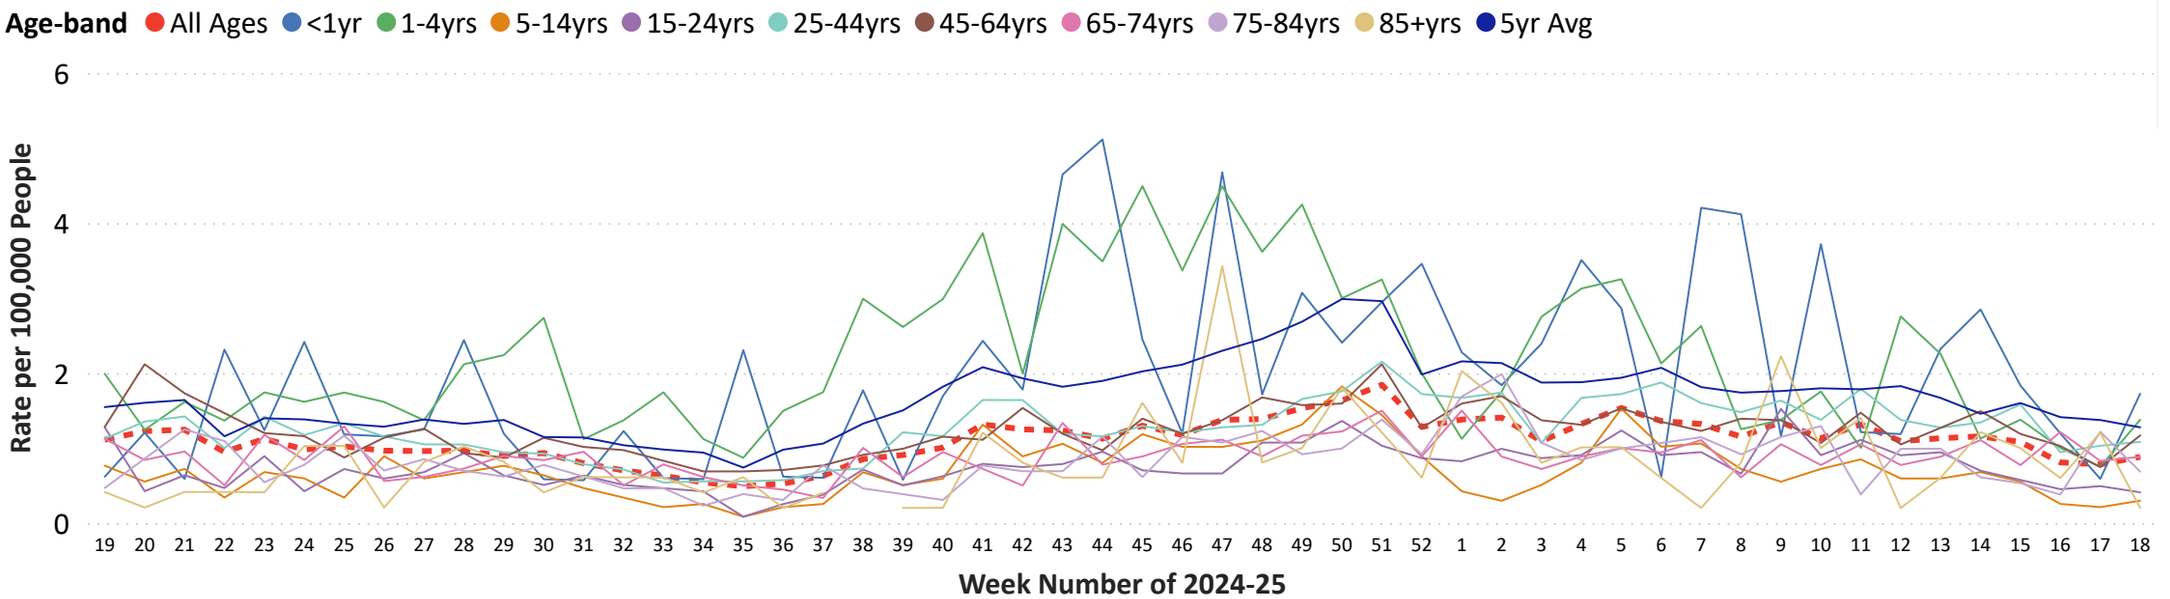

URTI - Sinusitis: national incidence by age-band by week

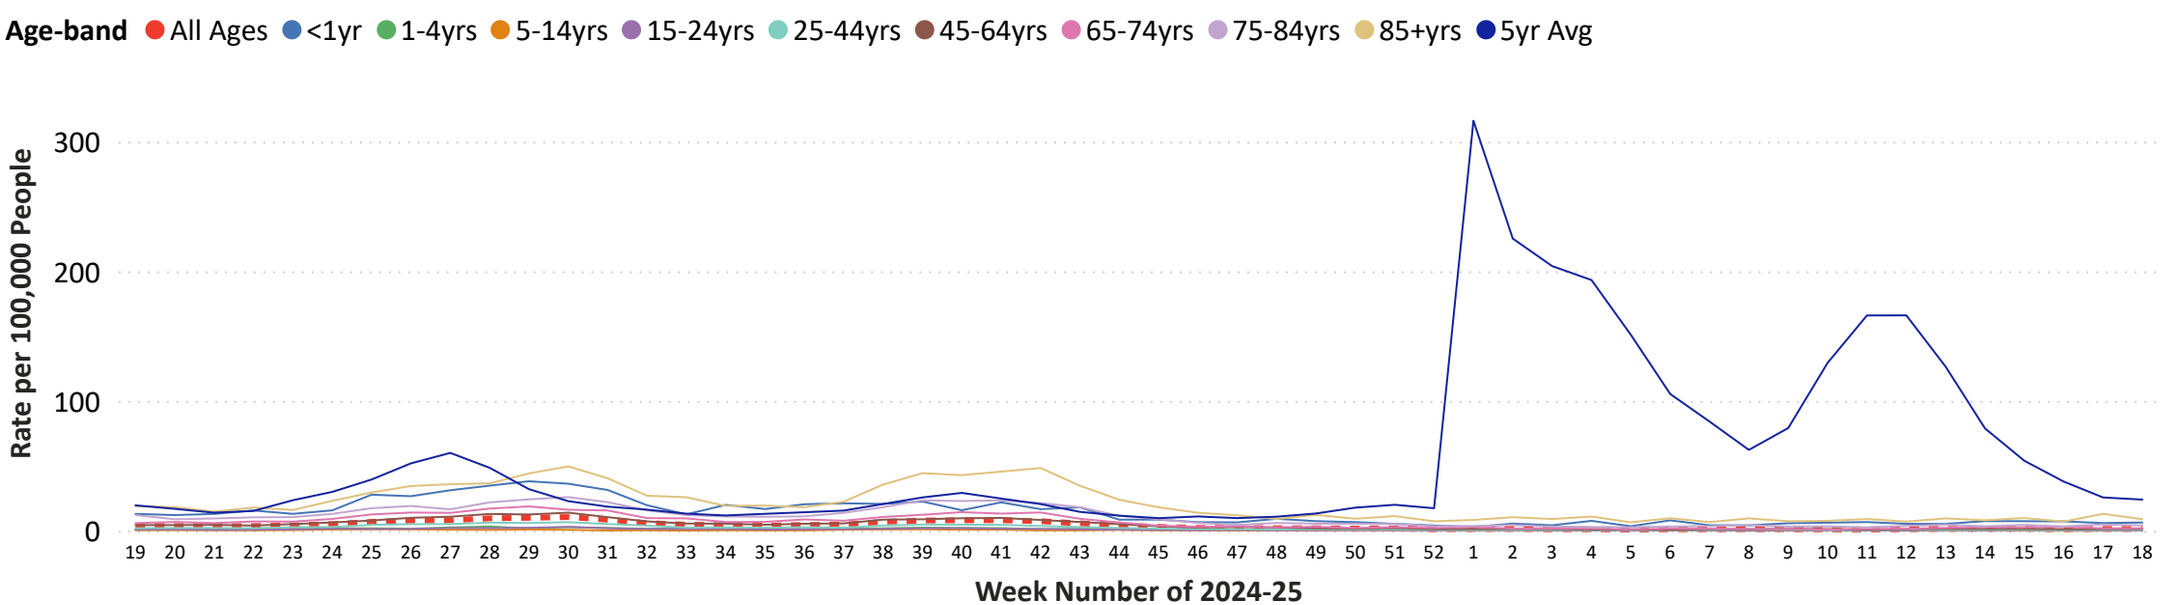

1. Surveillance of Respiratory Infections by Age-band for 2024-25:

URTI - Laryngitis: national incidence by age-band by week

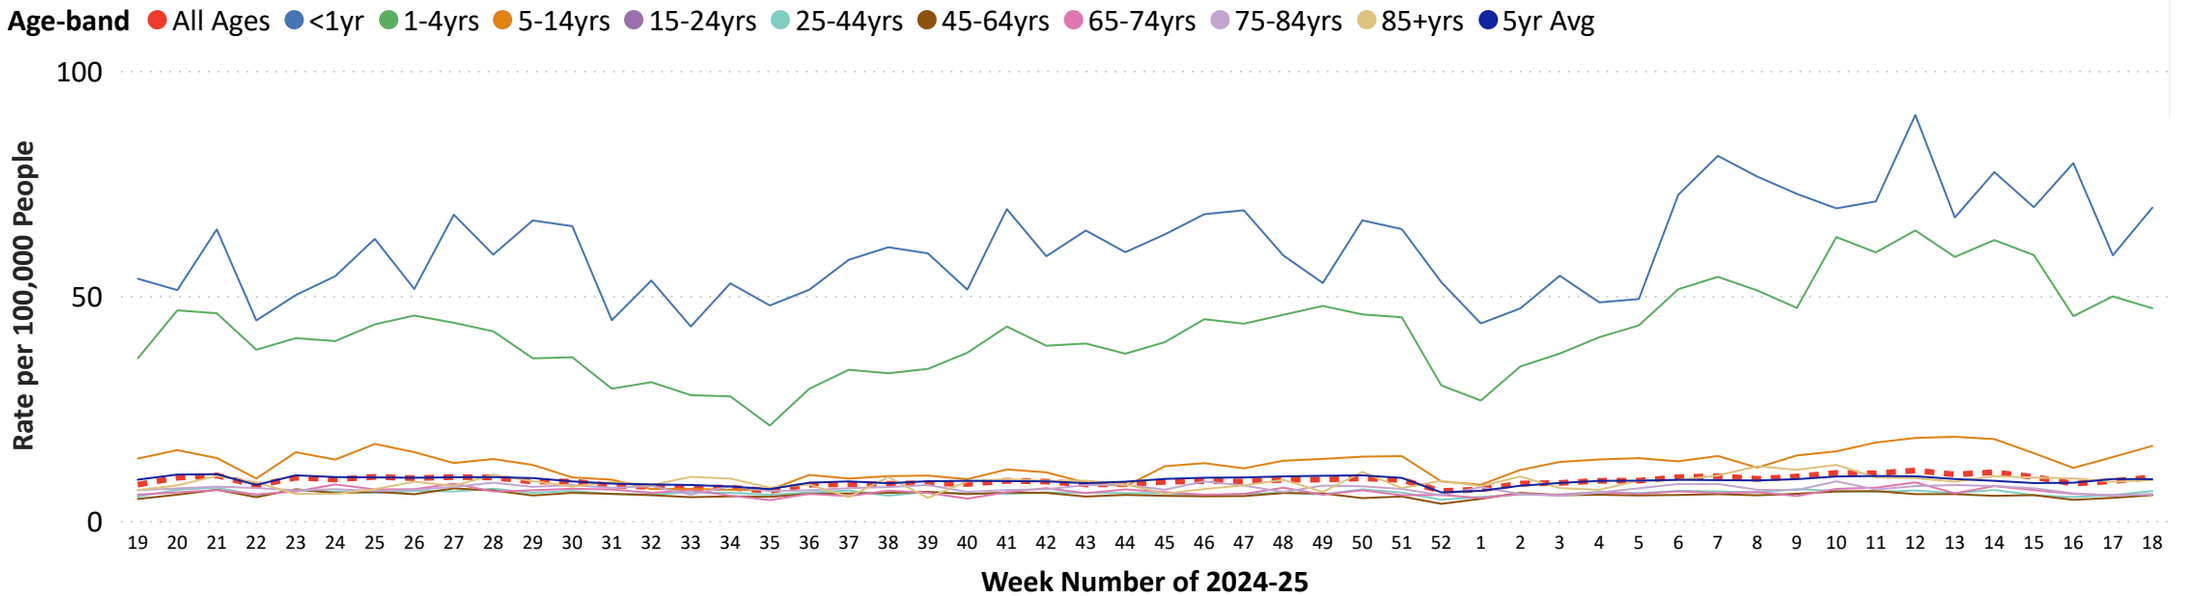

COVID-19: national incidence by age-band by week

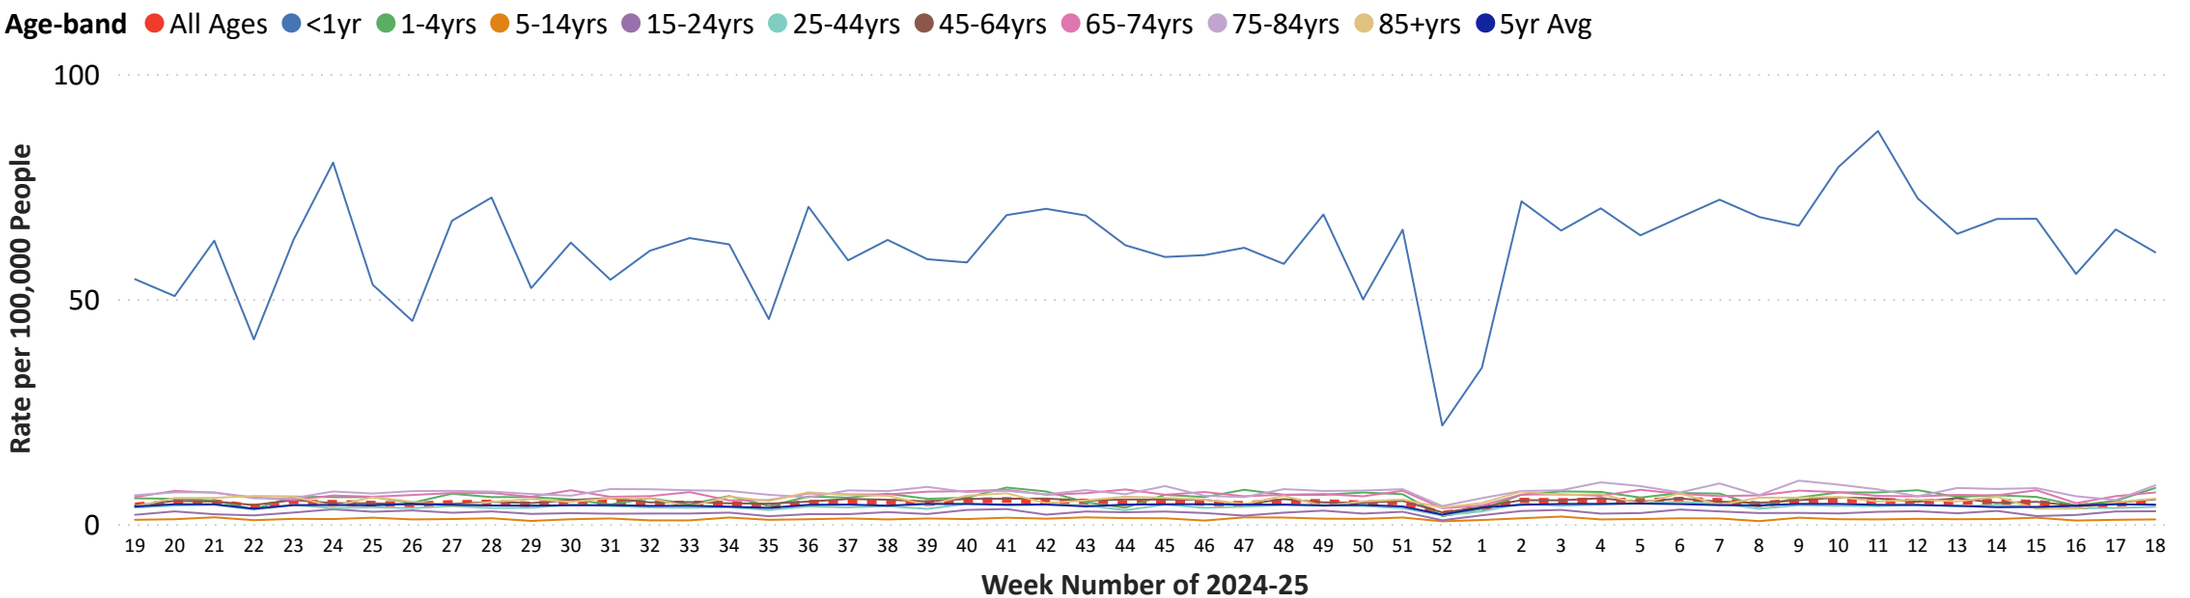

2. Surveillance of Water and Food Borne Disorders by Age-band for 2024-25:

Intestinal Infections: national incidence by age-band by week

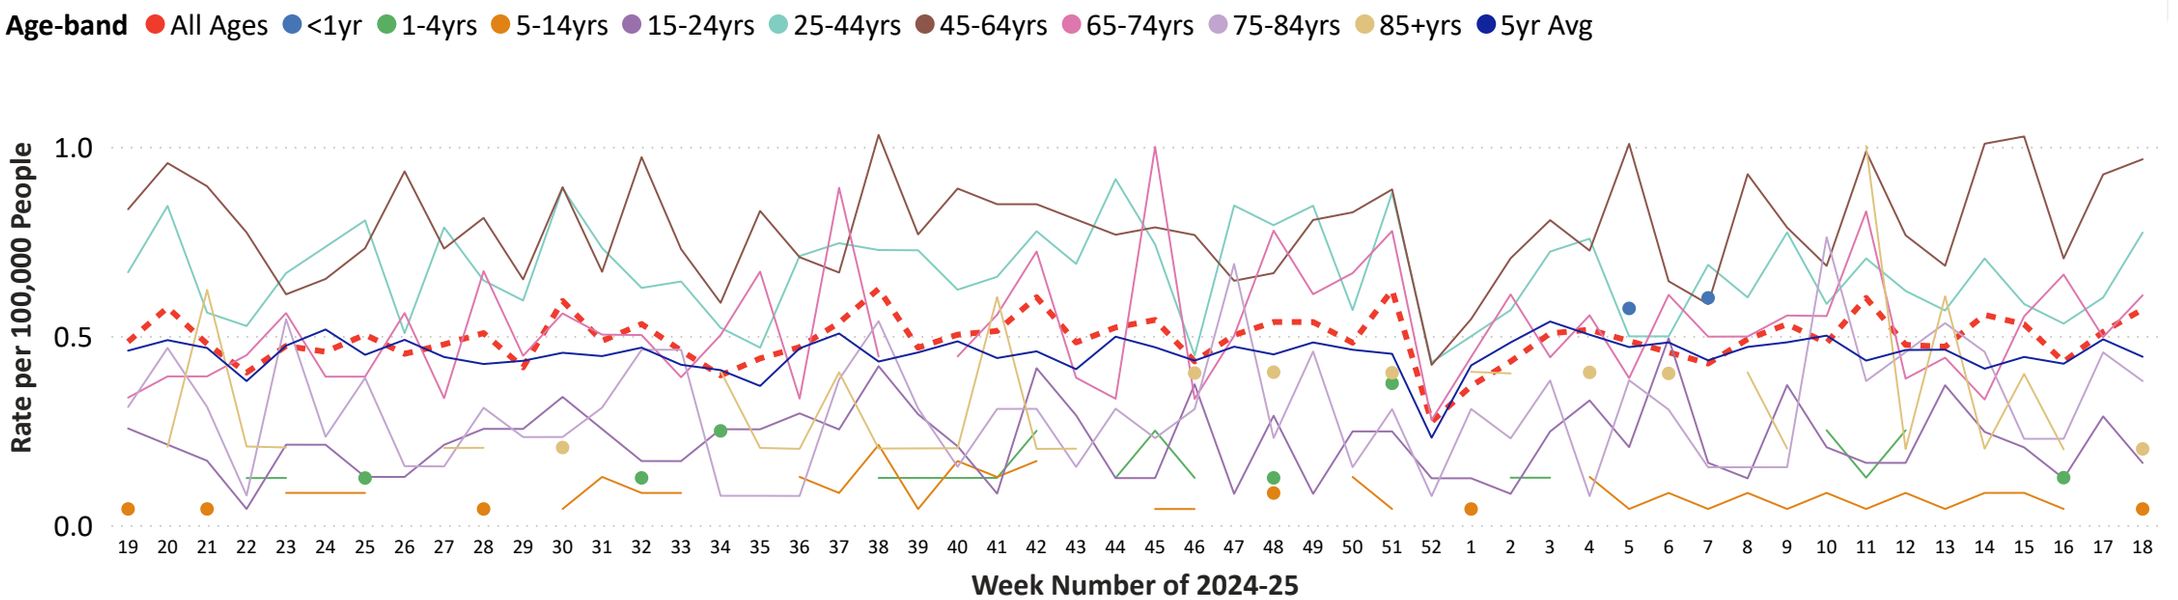

Non-infective Enteritis / Colitis: national incidence by age-band by week

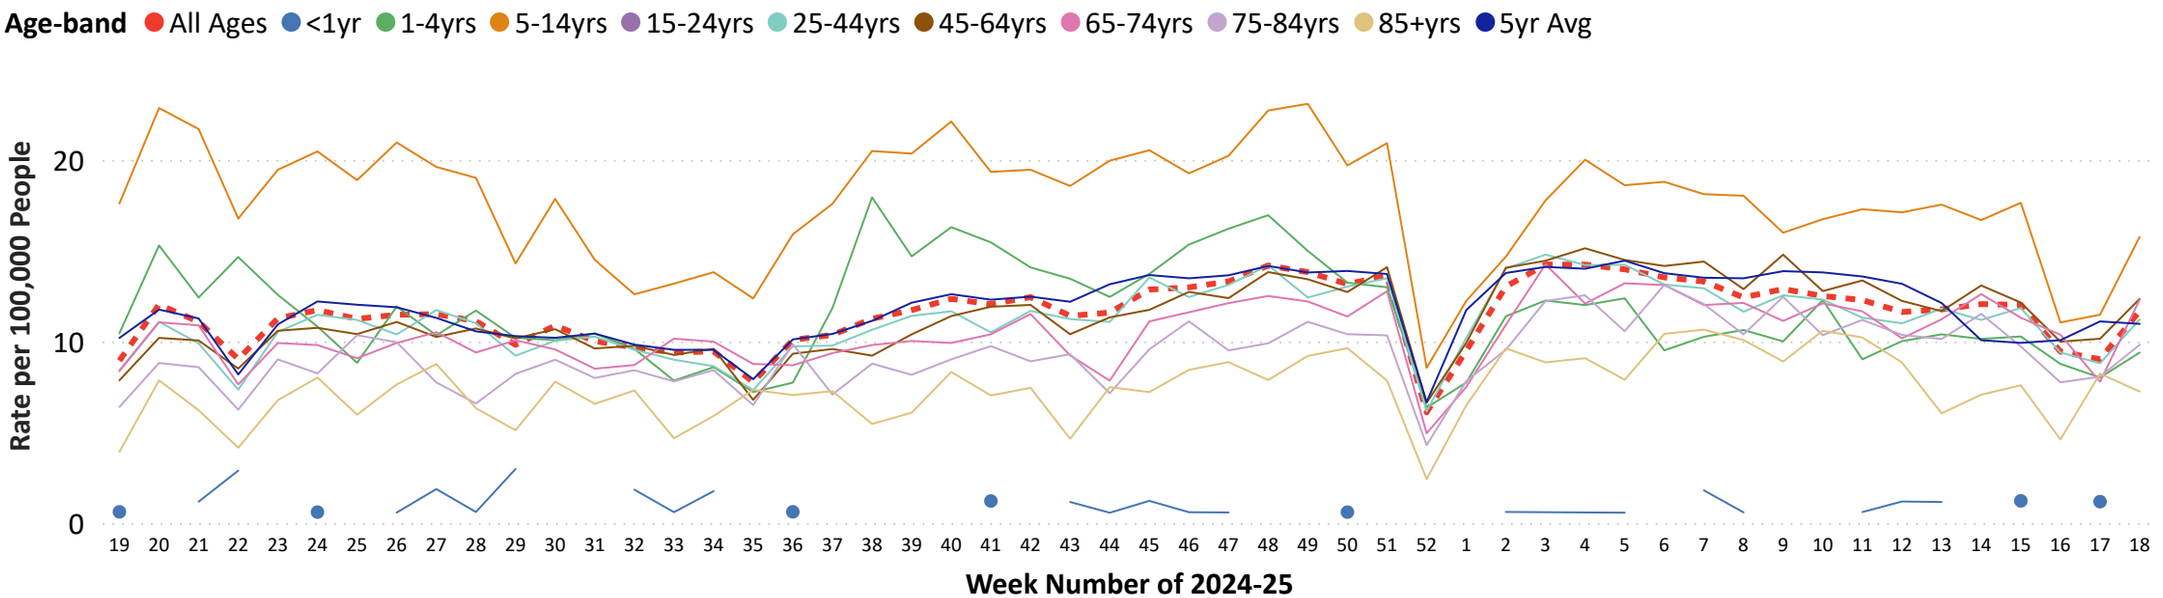

2. Surveillance of Water and Food Borne Disorders by Age-band for 2024-25:

Viral Hepatitis: national incidence by age-band by week

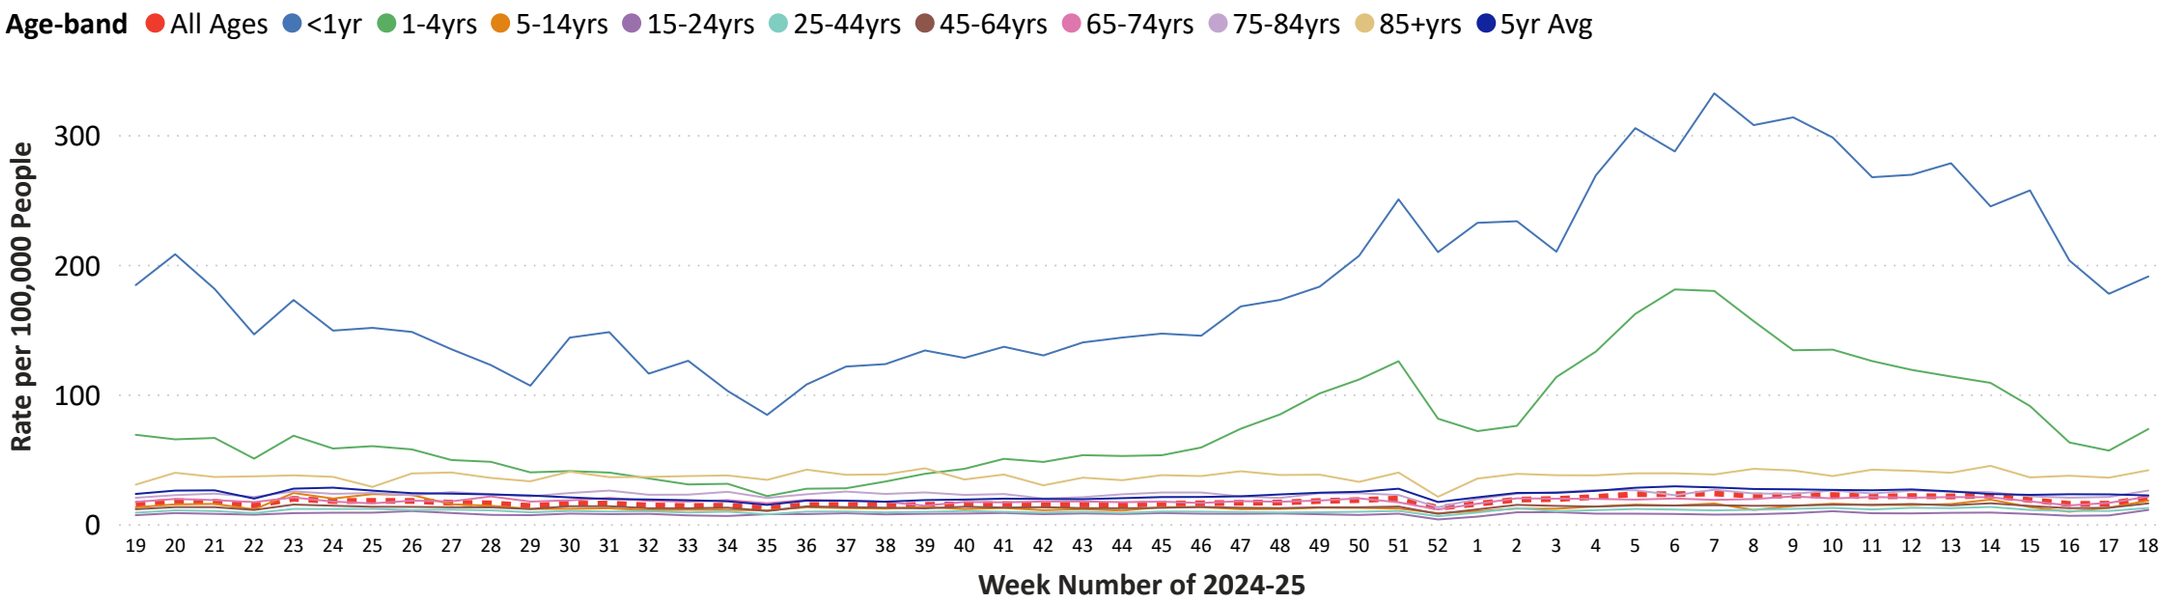

3. Surveillance of Environmentally Sensitive Disorders by Age-band for 2024-25:

Asthma: national incidence by age-band by week

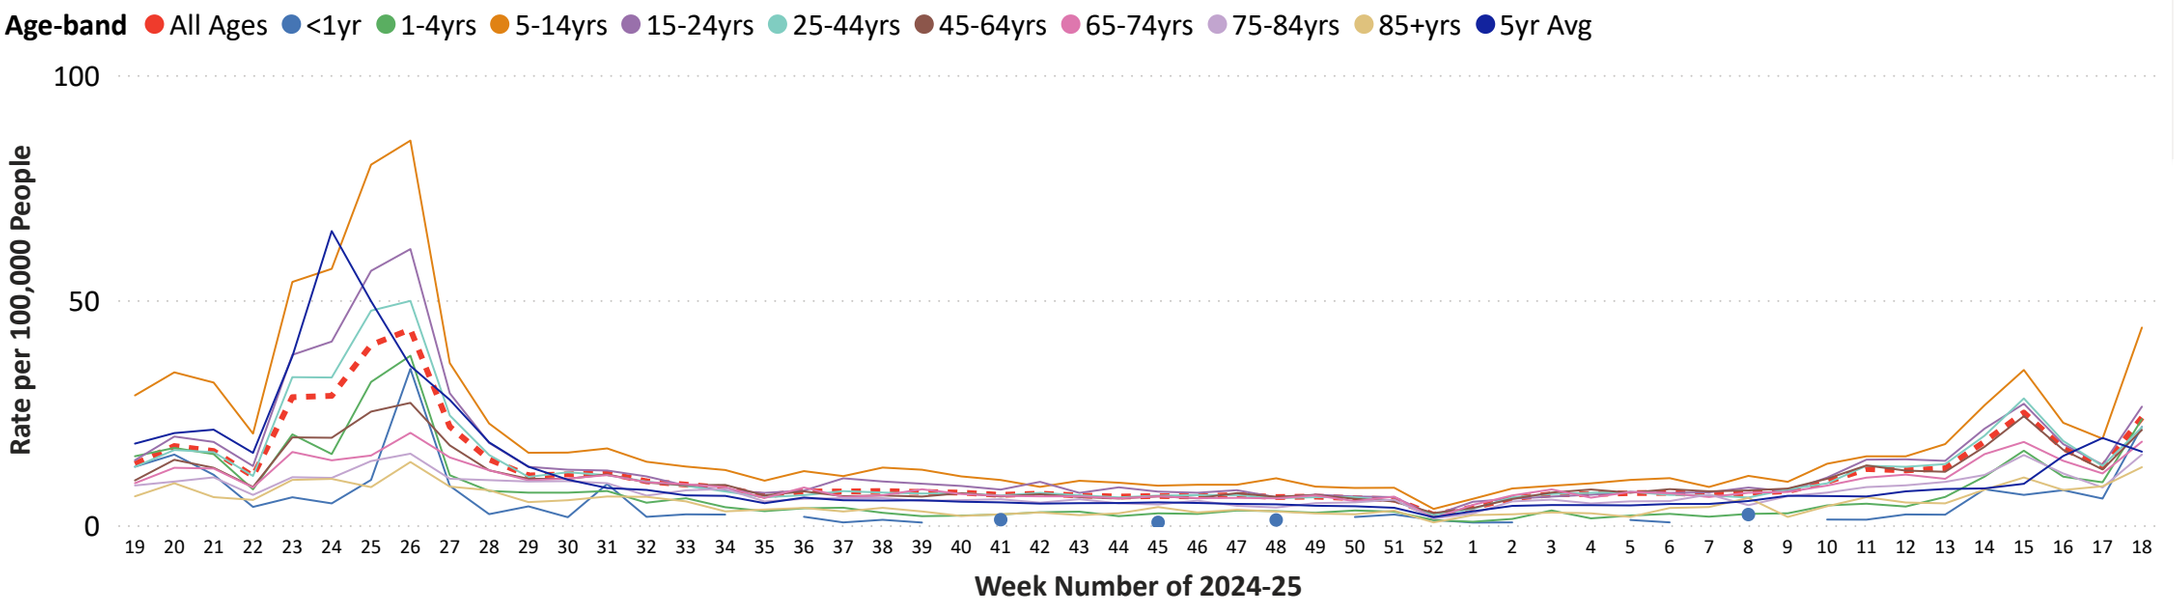

Conjunctivitis: national incidence by age-band by week

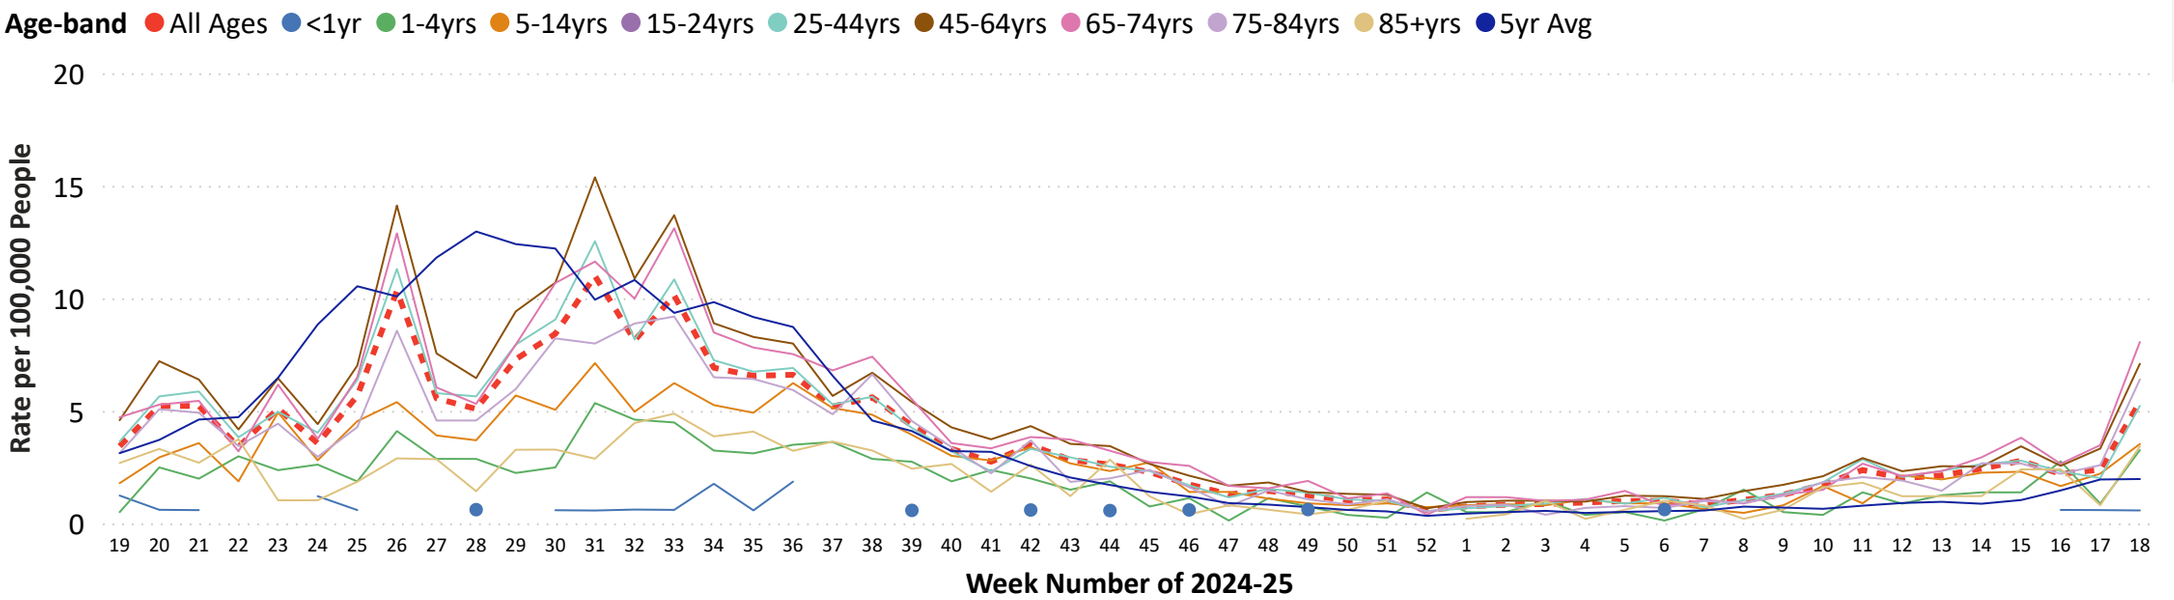

3. Surveillance of Environmentally Sensitive Disorders by Age-band for 2024-25:

Allergic Rhinitis (Hayfever): national incidence by age-band by week

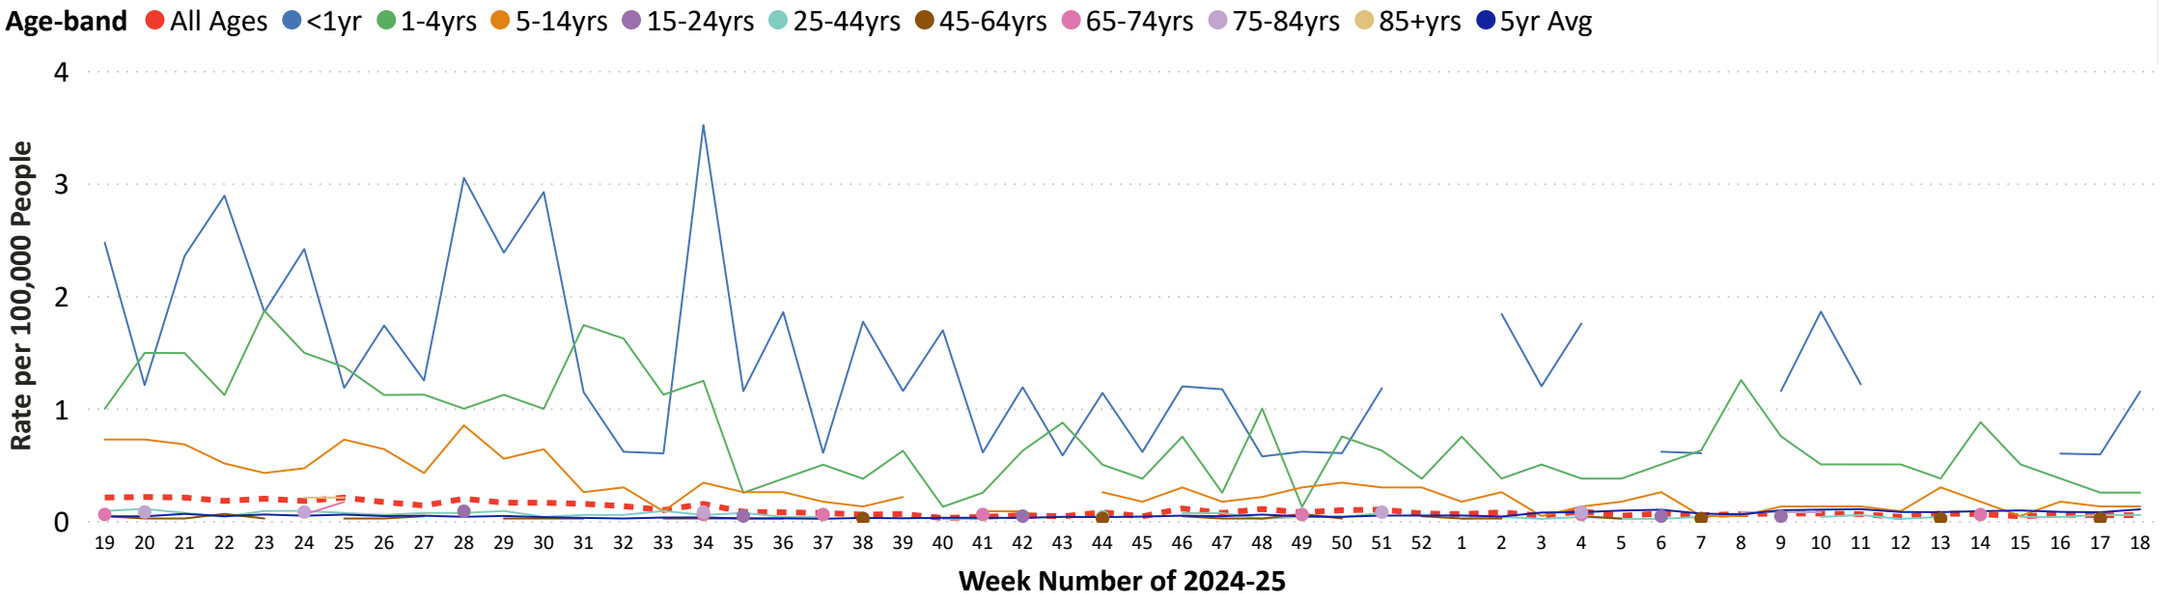

3. Surveillance of Environmentally Sensitive Disorders by Age-band for 2024-25:

Infected Insect Bites: national incidence by age-band by week

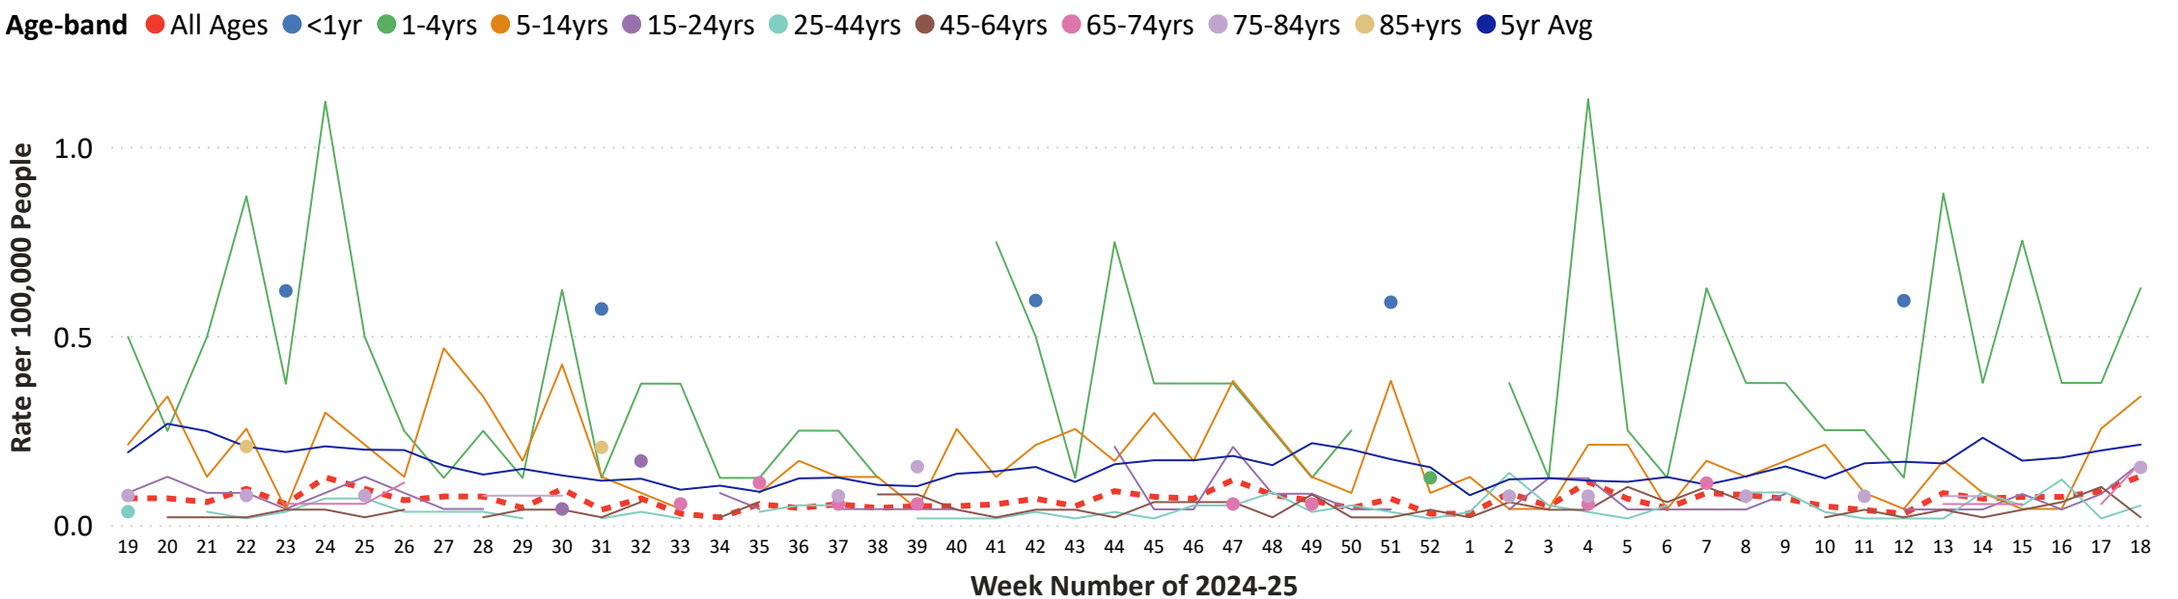

4. Surveillance of Vaccine Sensitive Disorders by Age-band for 2024-25:

Measles: national incidence by age-band by week

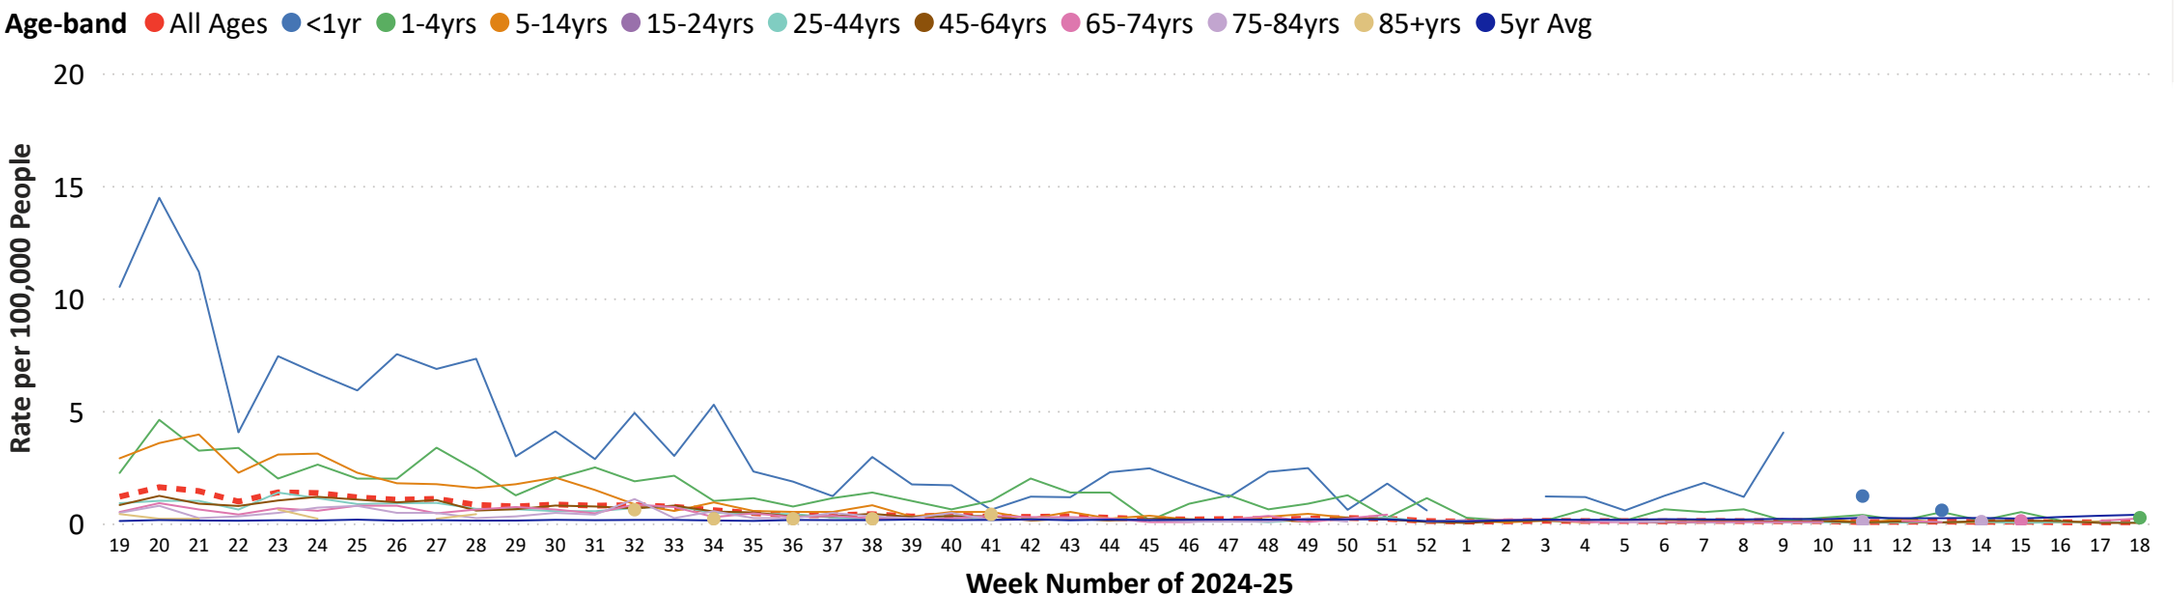

Mumps: national incidence by age-band by week

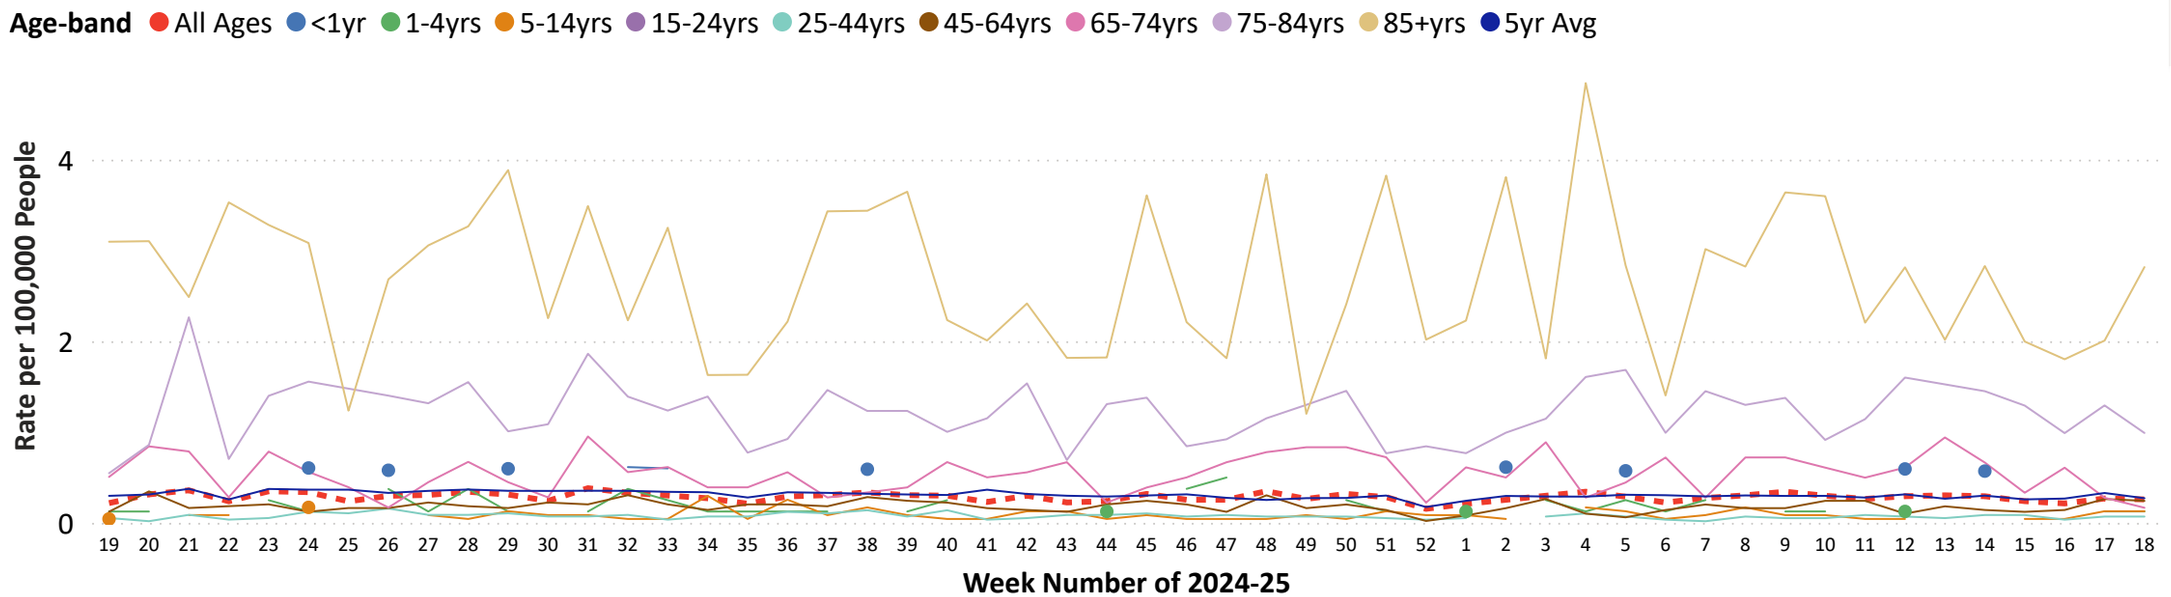

4. Surveillance of Vaccine Sensitive Disorders by Age-band for 2024-25:

Whooping Cough: national incidence by age-band by week

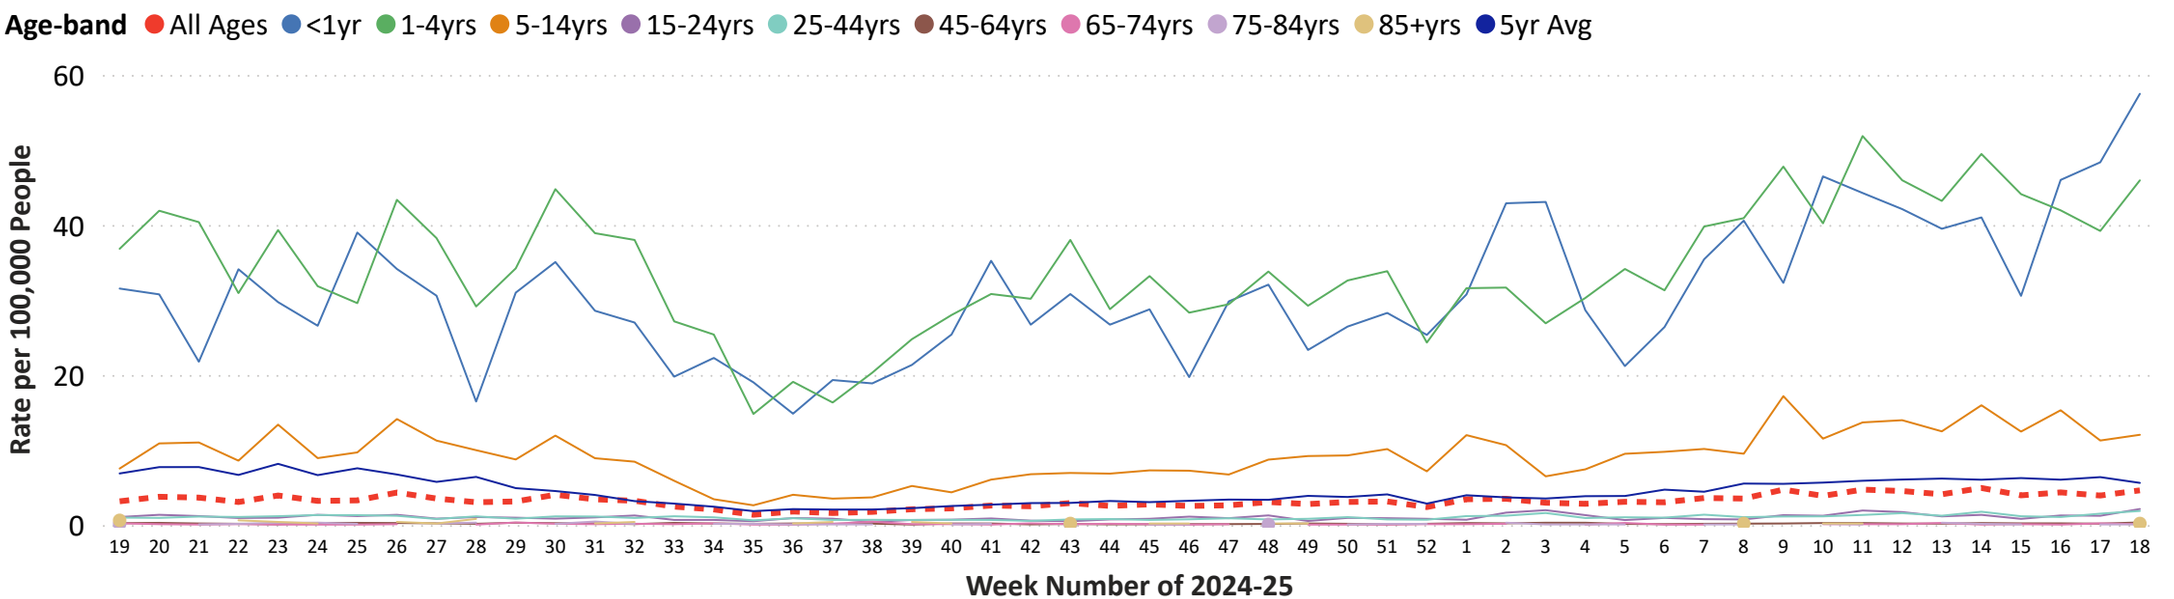

5. Surveillance of Skin Contagions by Age-band for 2024-25:

Bullous Dermatoses: national incidence by age-band by week

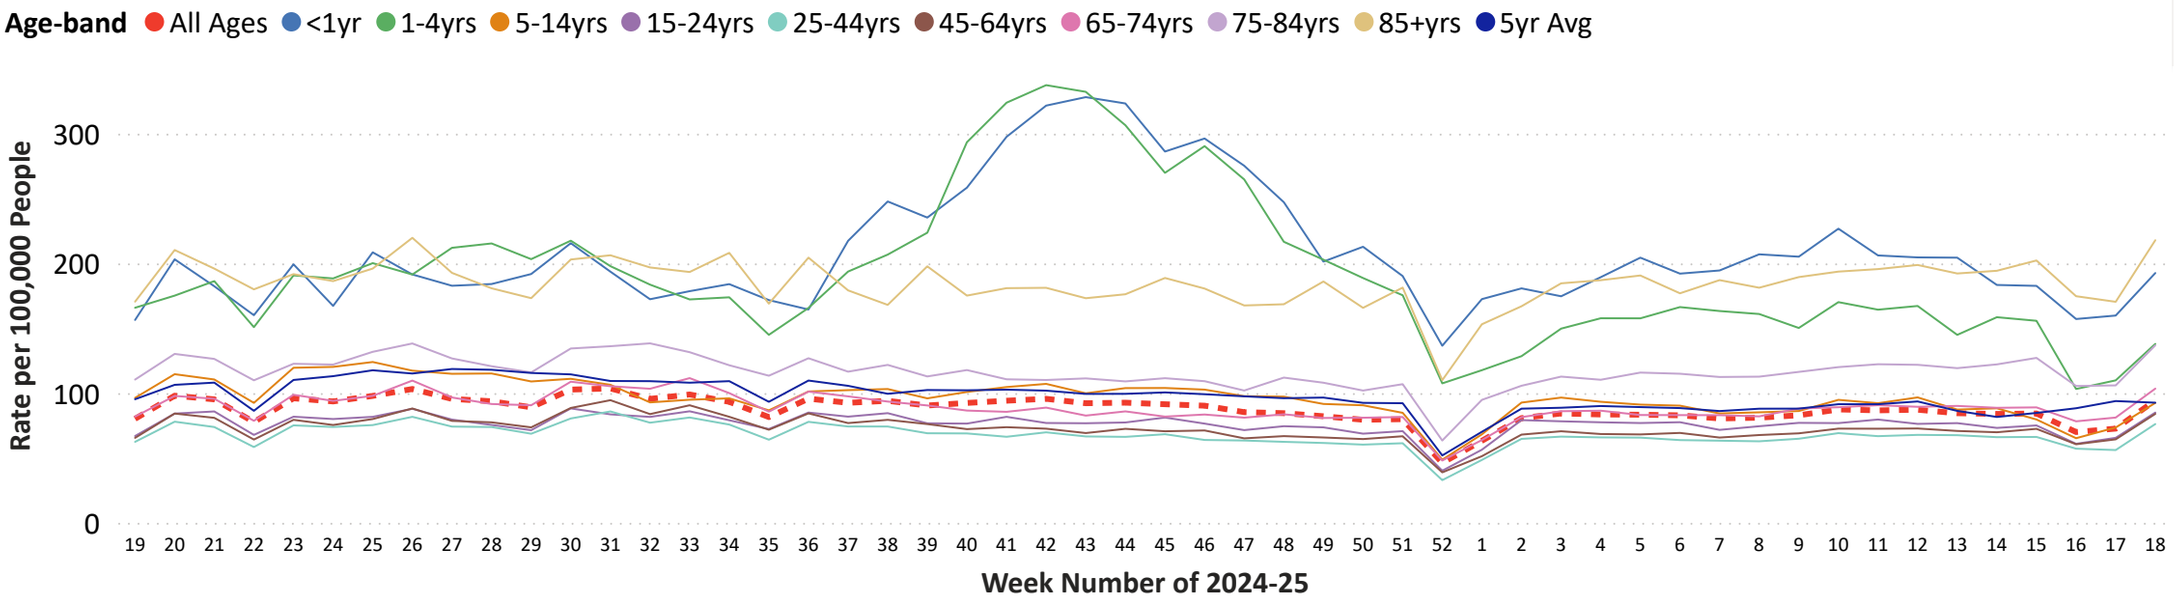

Chickenpox: national incidence by age-band by week

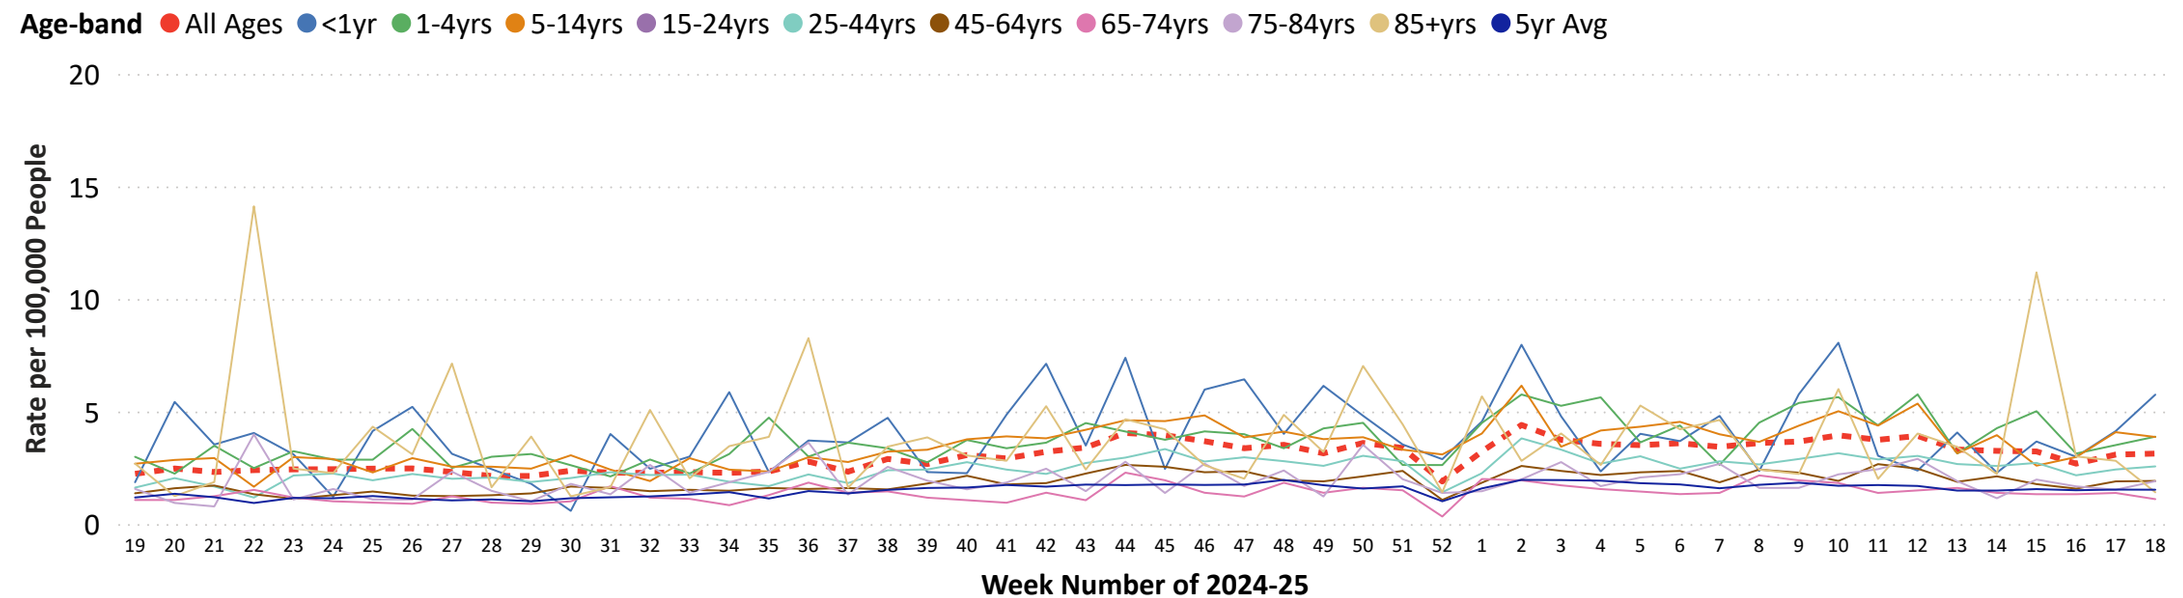

5. Surveillance of Skin Contagions by Age-band for 2024-25:

Skin / subcutaneous infections: national incidence by age-band by week

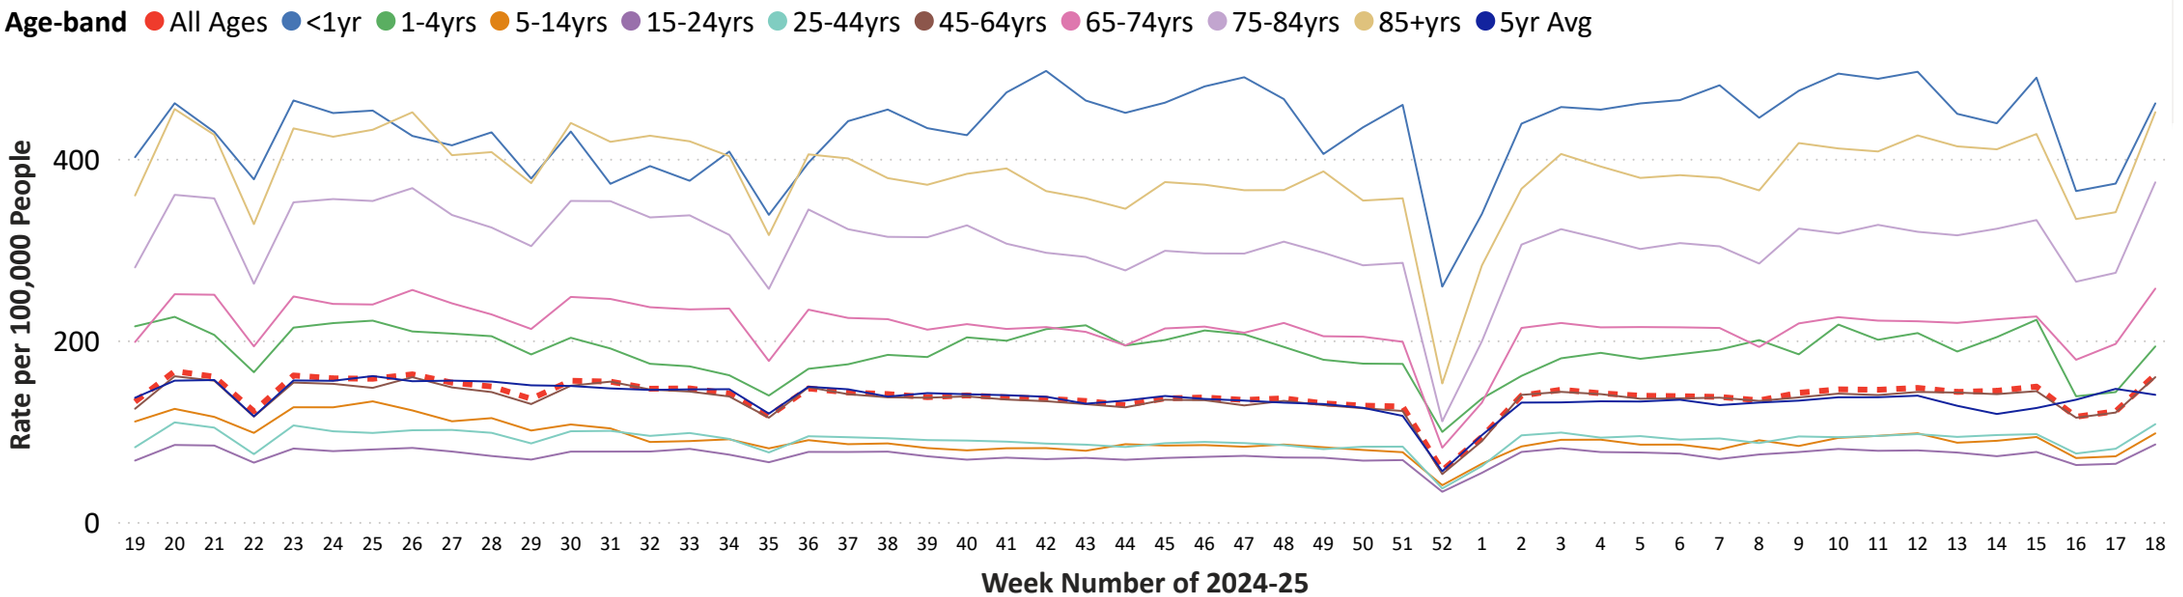

Scabies: national incidence by age-band by week

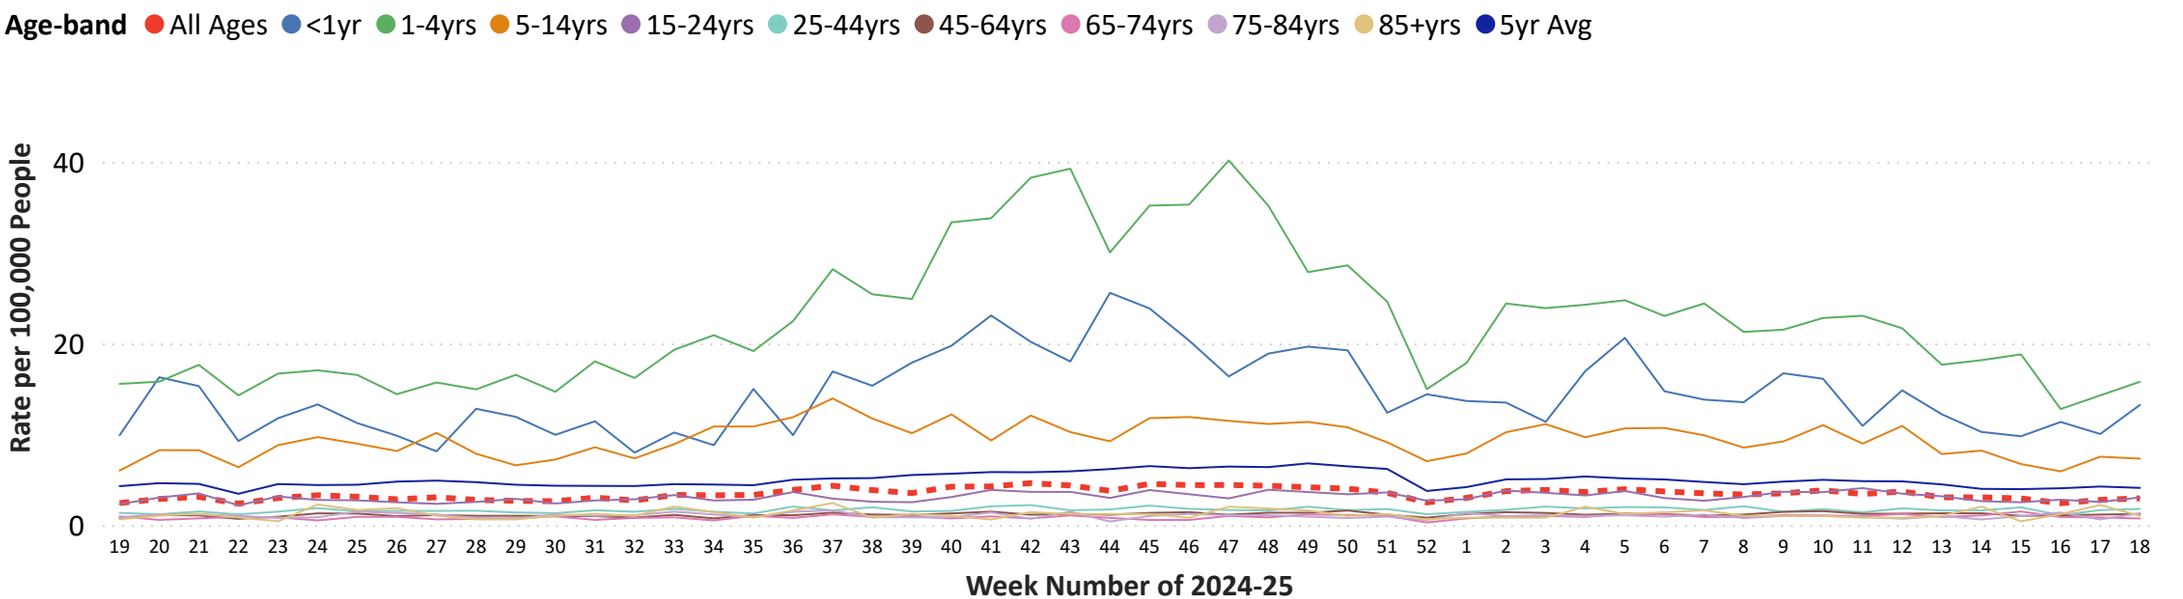

5. Surveillance of Skin Contagions by Age-band for 2024-25:

Skin symptoms: national incidence by age-band by week

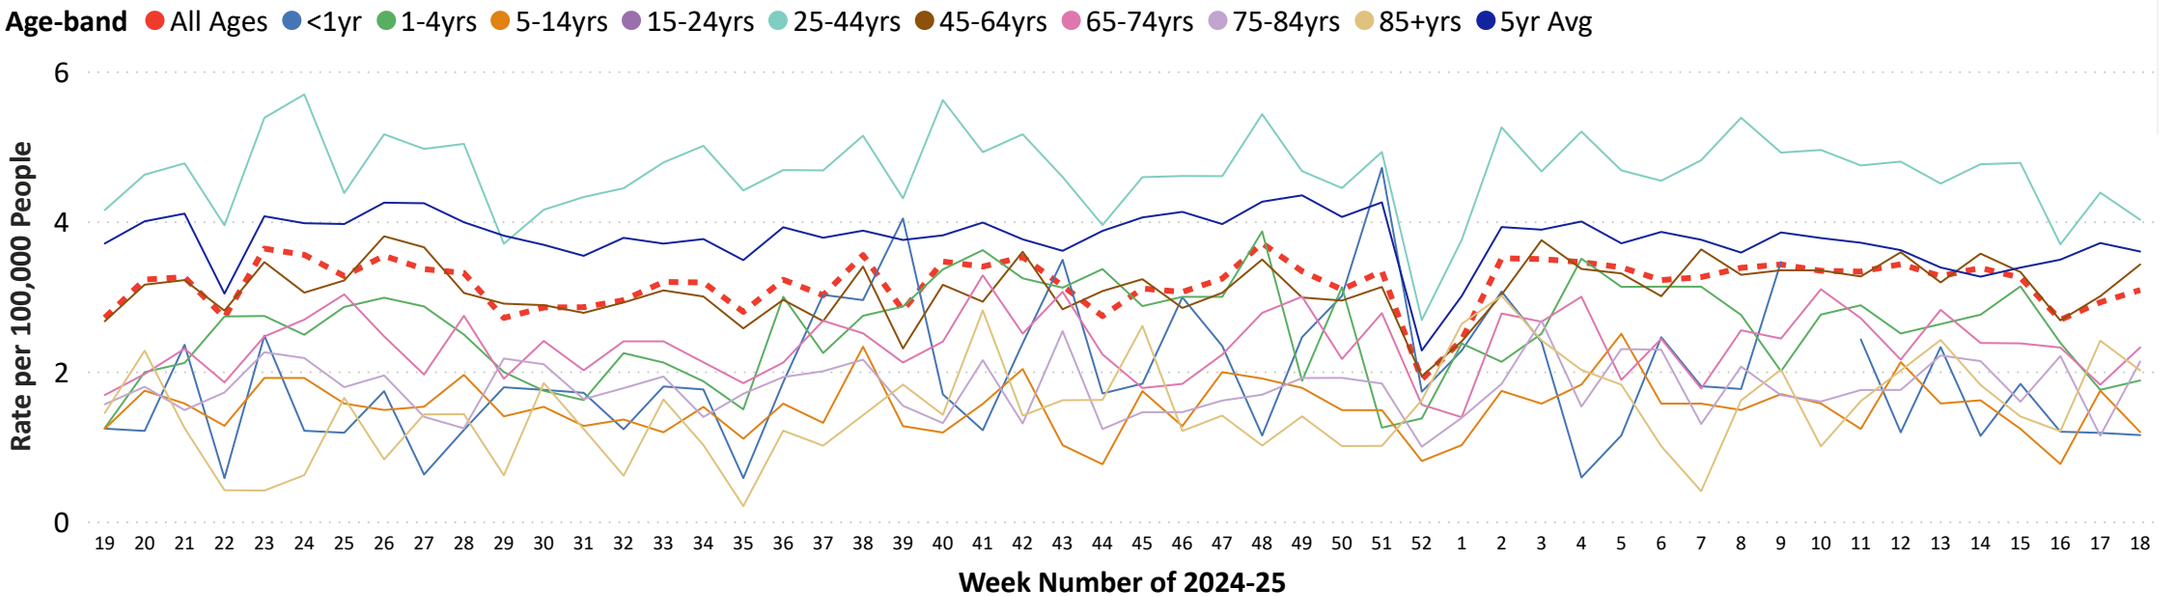

Impetigo: national incidence by age-band by week

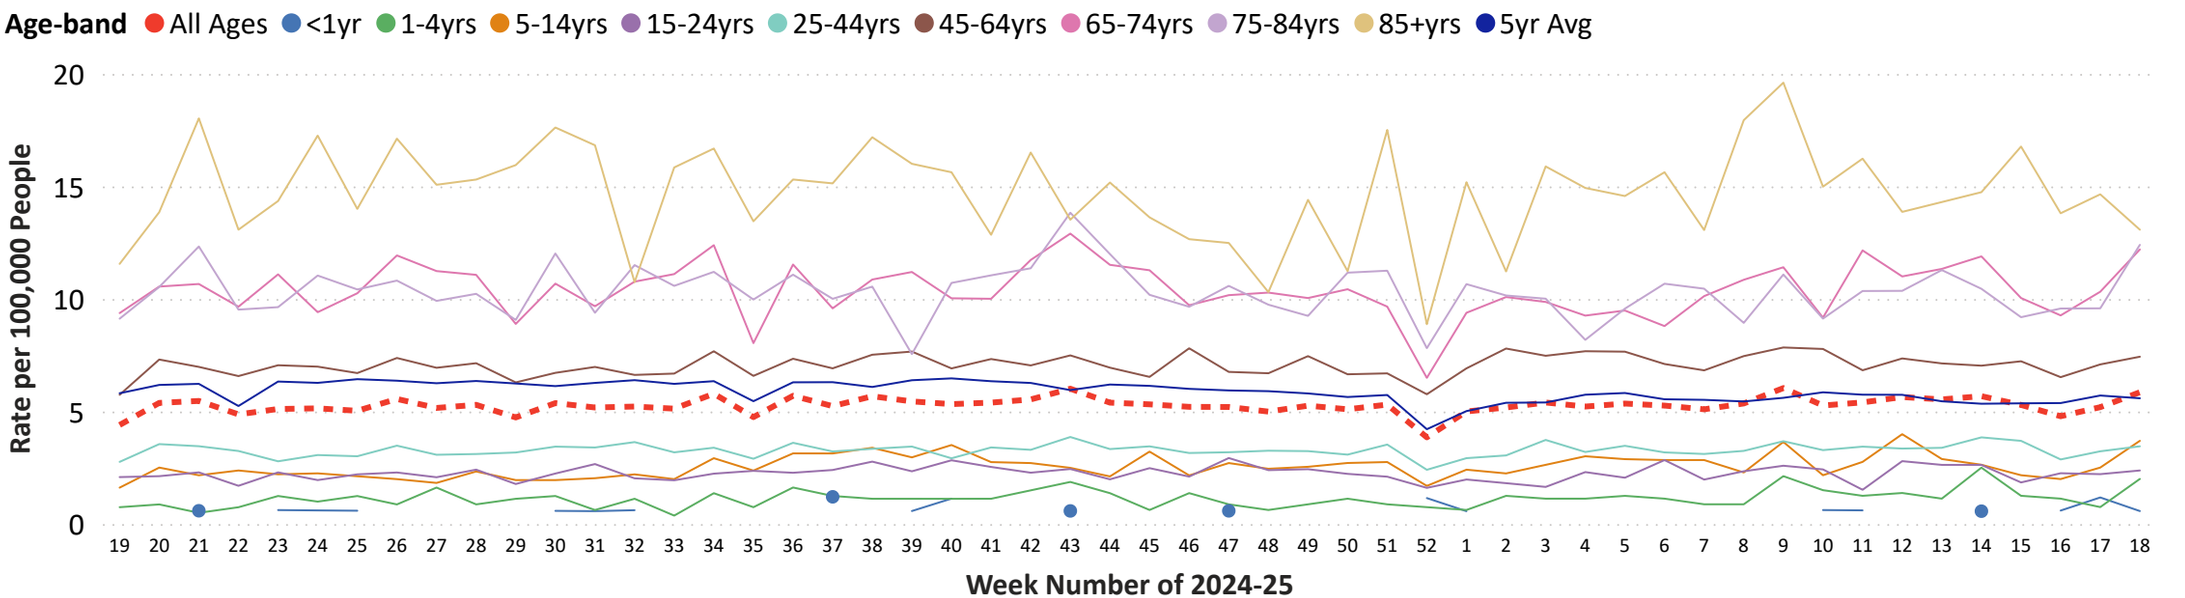

5. Surveillance of Skin Contagions by Age-band for 2024-25:

Herpes Simplex: national incidence by age-band by week

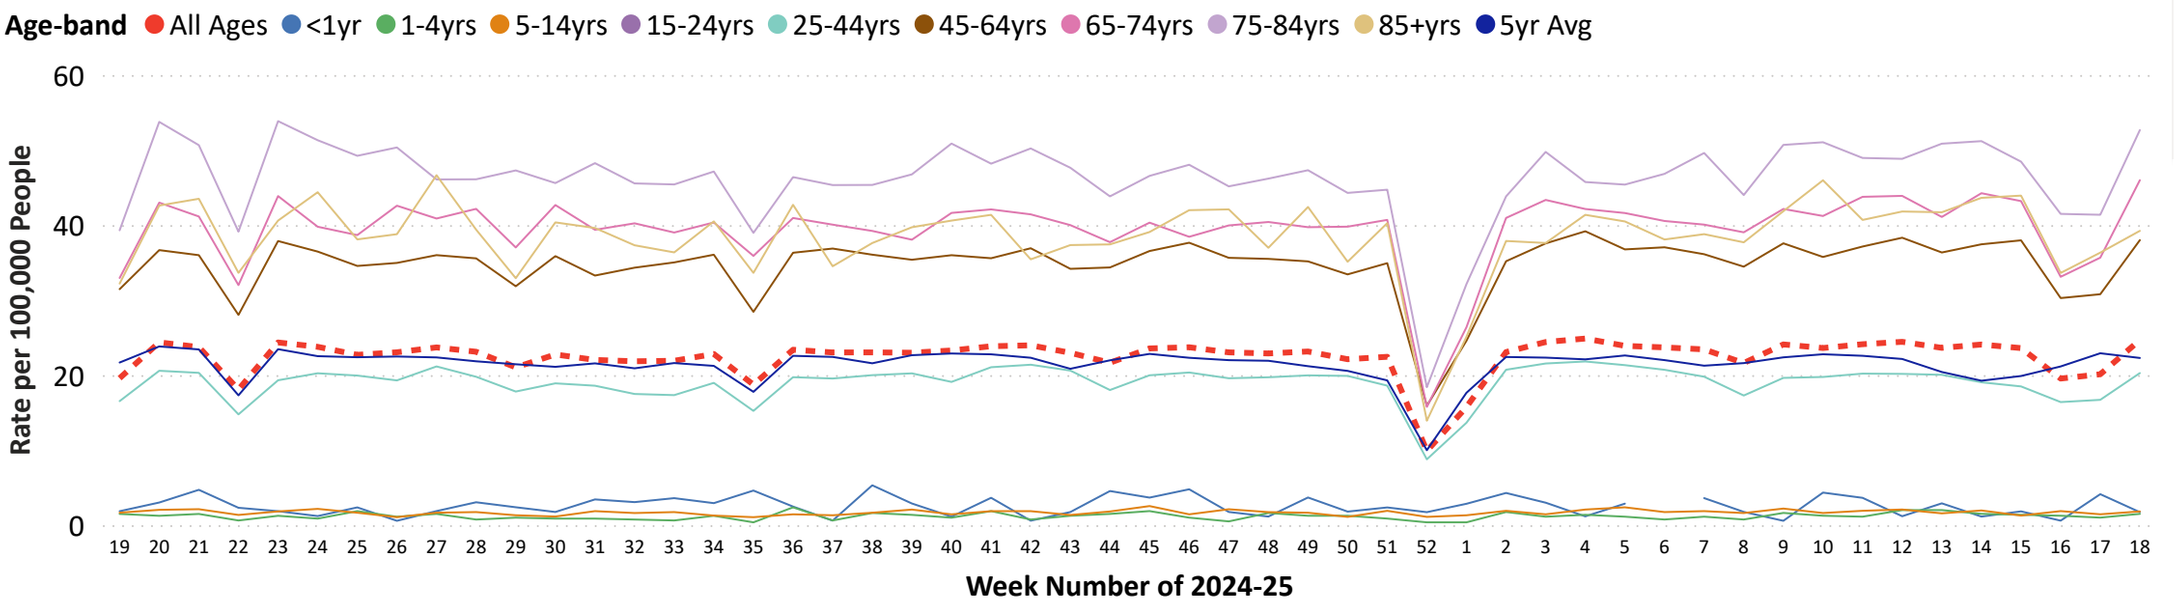

Herpes Zoster: national incidence by age-band by week

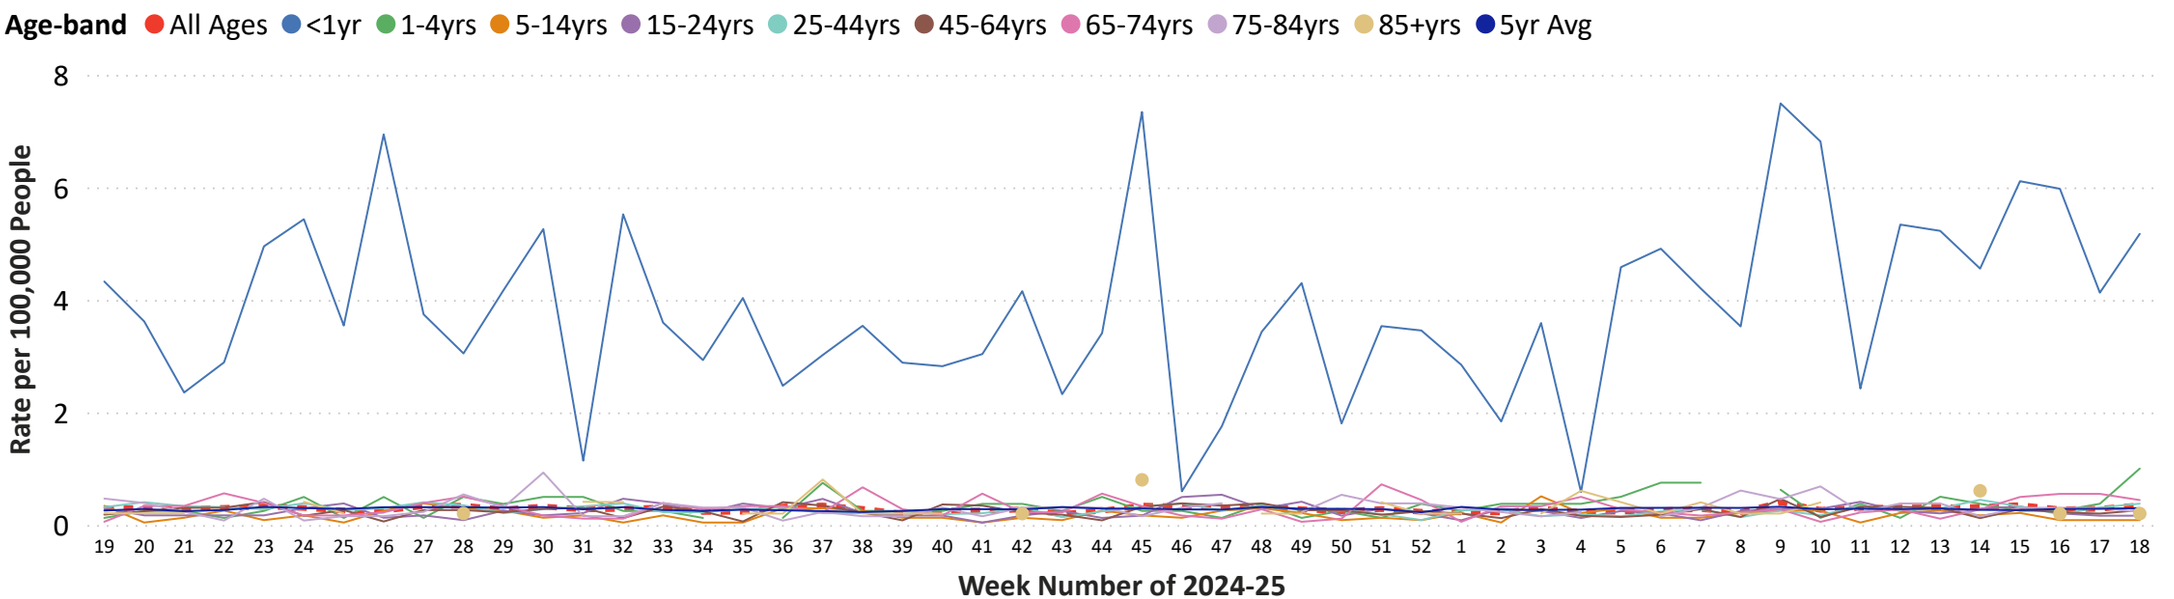

6. Surveillance of Disorders Affecting the Nervous System by Age-band for 2024-25:

Peripheral Neuropathy: national incidence by age-band by week

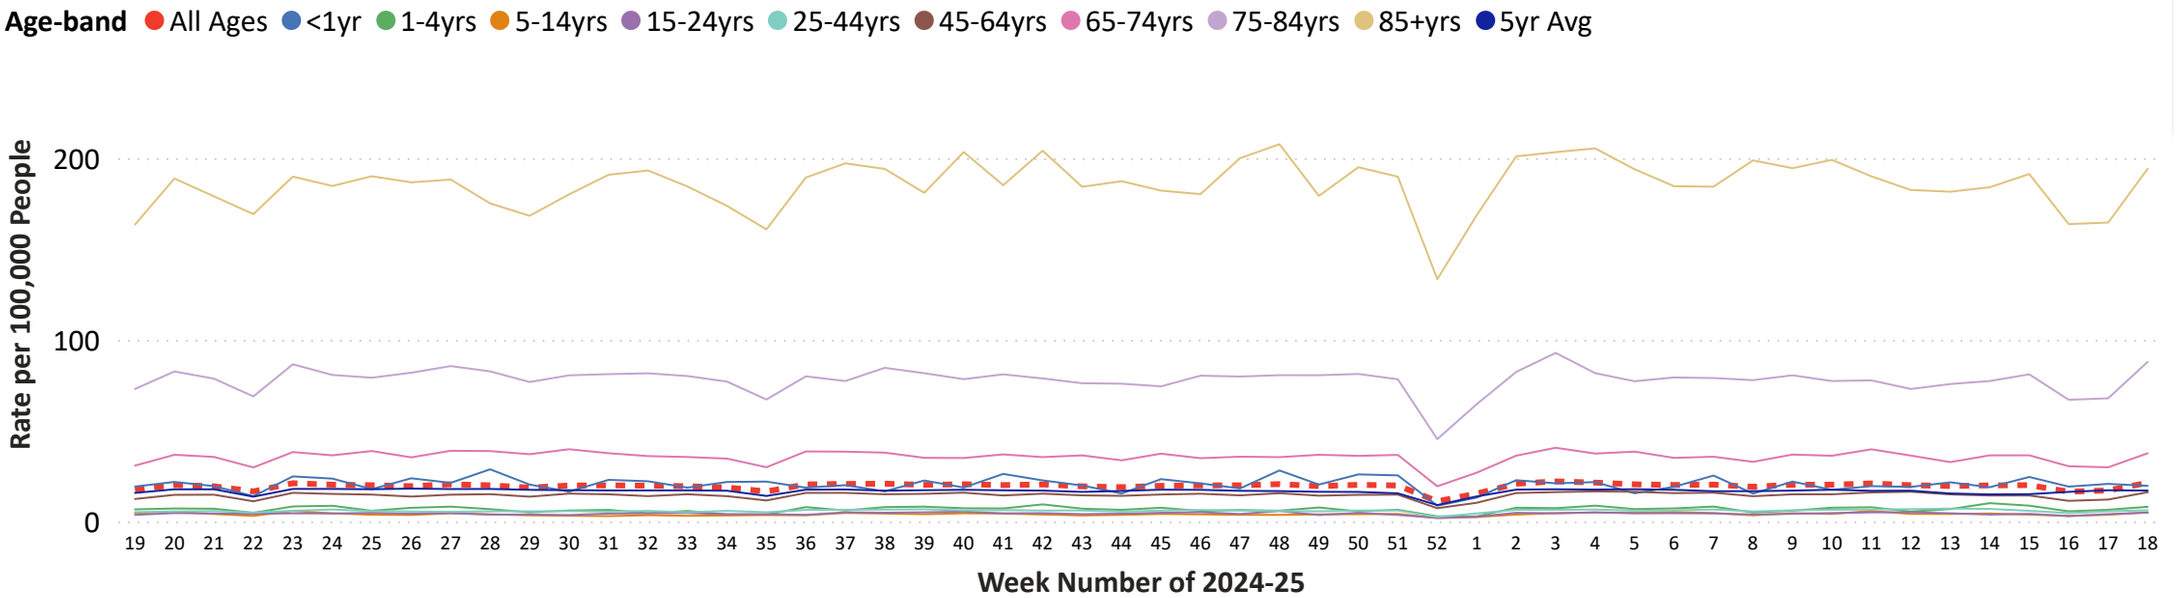

Meningitis / Encephalitis: national incidence by age-band by week

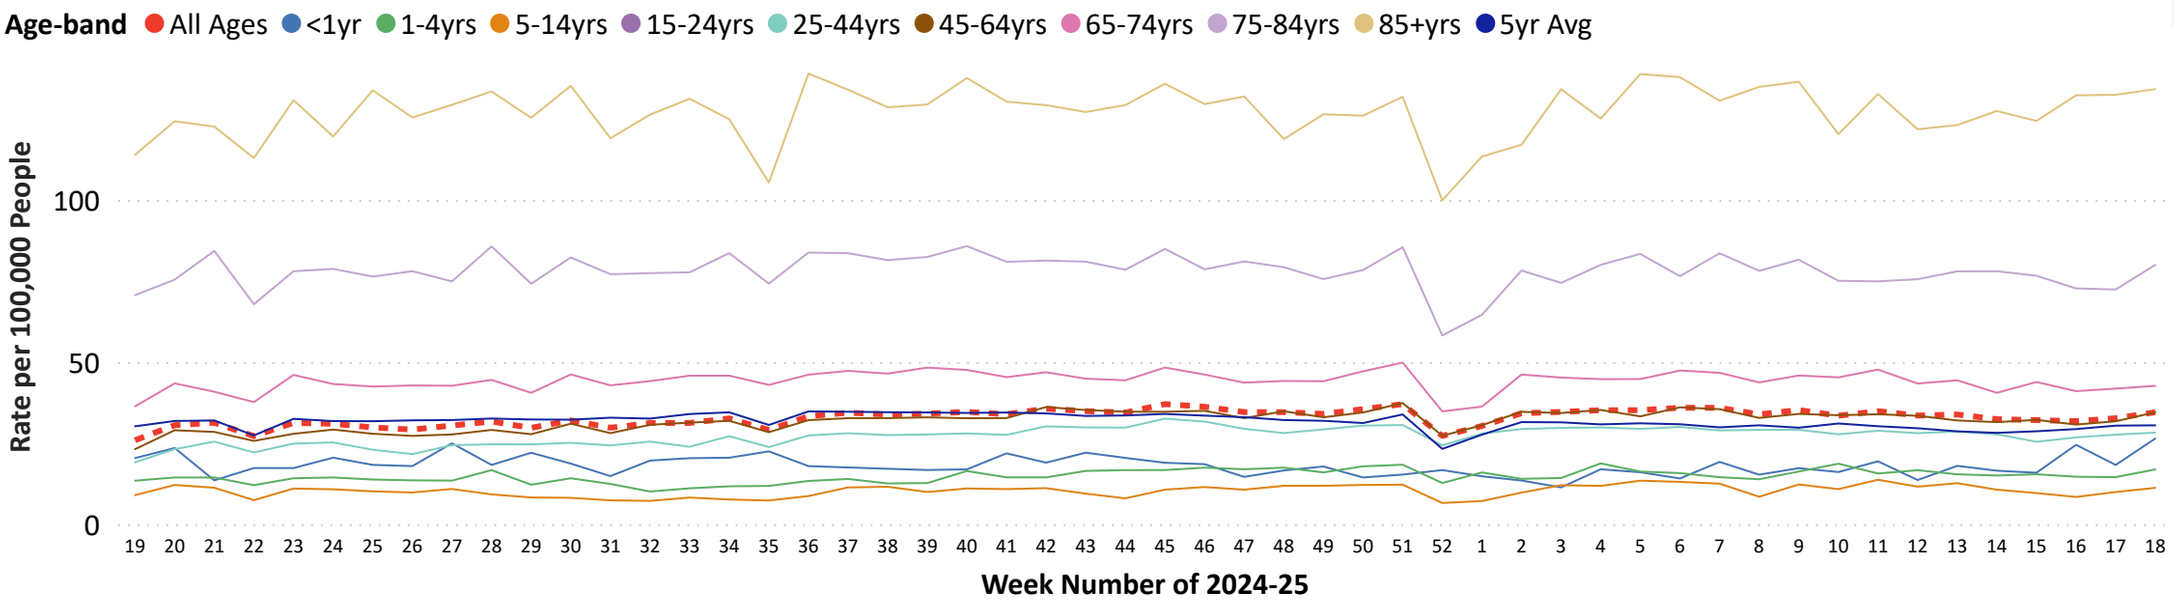

6. Surveillance of Disorders Affecting the Nervous System by Age-band for 2024-25:

Musculoskeletal symptoms: national incidence by age-band by week

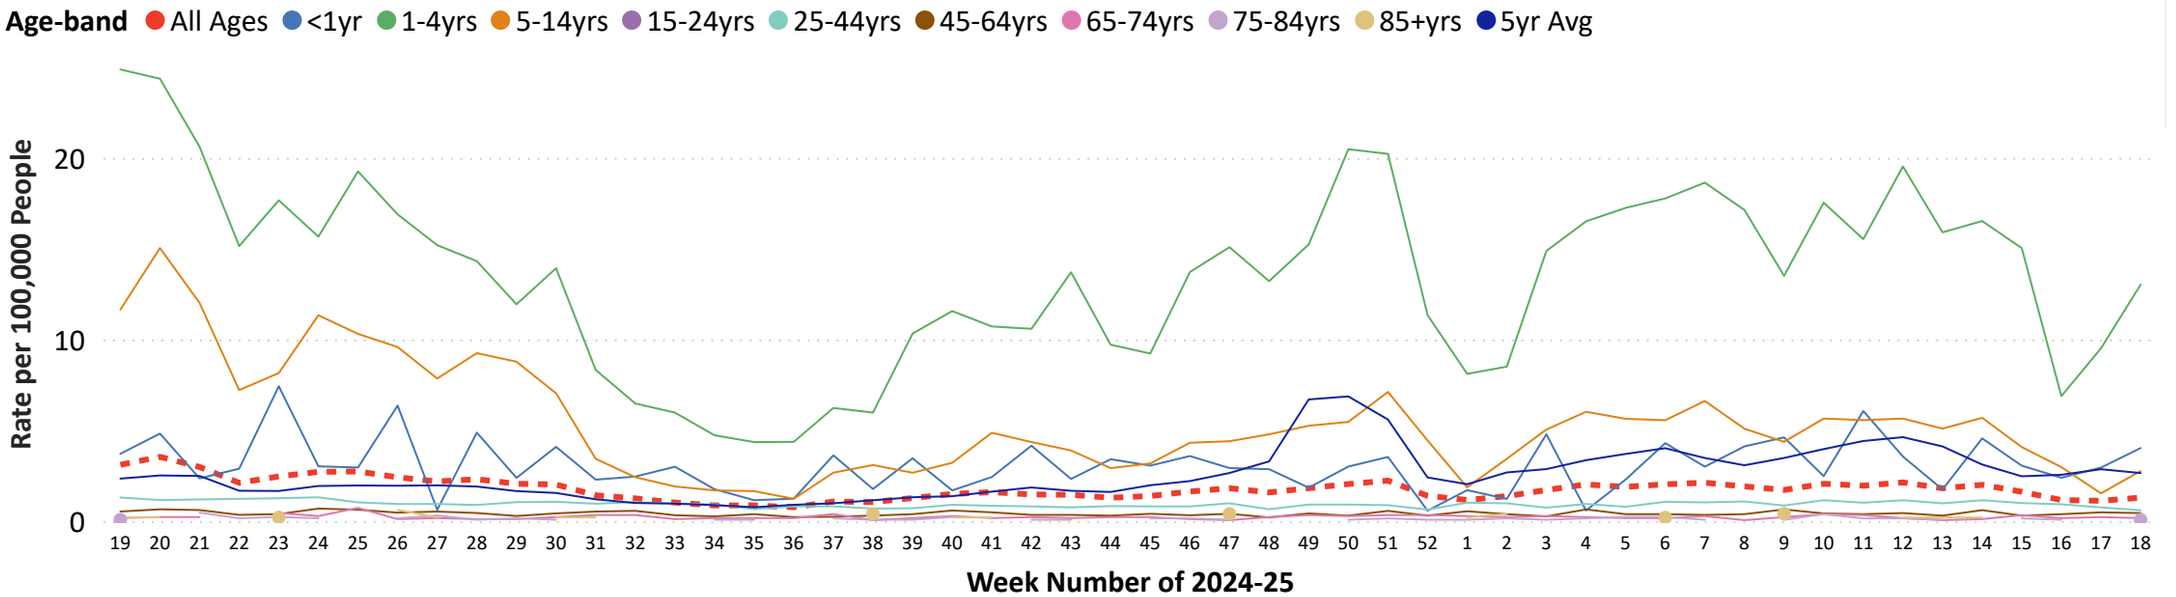

7. Surveillance of Genitourinary System Disorders by Age-band for 2024-25:

Urinary Tract Infections: national incidence by age-band by week

8. Surveillance of Other Disorders by Age-band for 2024-25:

Strep throat / peritonsillar abscess: national incidence by age-band by week

Infectious Mononucleosis: national incidence by age-band by week
